Amount of Award	2469100.00	**Total Amount of Payments to Vendors less than $25,000/award**	20703.46
Award Date	08/21/2009		
Award Description	Seven Energy Efficiency and Conservation Activities will be undertaken using the Energy Efficiency Conservation Strategy (EECS) as a guide for the expenditure of the Energy Efficiency Conservation Block Grant (EECBG) allocation. Task 1) Update the Kane County Energy Plan and the Energy Efficiency Chapter of the KC 2030 Land Resource management Plan. The update of the KC Energy Plan will be conducted by staff from the KC Development Department, with assistance from a consultant chosen by the Development Department. The update of the Energy Efficiency chapter of the 2030 Land Resource Management Plan will be conducted by staff using data from the updated Energy Plan. Task 2) Kane County seeks to retrofit county owned facilities with updated and energy efficient systems to reduce

long-term operating costs and reduce energy consumed. The project will consist of several phases: 1. Facility audits; 2. Development of a suite of potential energy efficiency improvements; 3. Prioritization of Improvements; 4. Implementation of improvements
Task 3) Revolving Loan fund for Public Sector and Non-Profit Energy Efficiency Improvement Projects will provide eligible local government and non-profit organizations with financial assistance to implement energy efficiency upgrades to their buildings. The fund will be managed by the Kane County Development Department and initially capitalized through EECBG cost reduction efforts. The revolving Loan fund project consists of the following steps to ensure accountability: 1. Project application is submitted and is initially approved by Kane County; 2. An Initial Building Assessment is completed and signed by a licensed engineer; 3. The client submits a detailed report - loan repayment amounts and schedules are verified and agreement is reached; 4. Project is monitored by on-site visits and a final inspection is completed; and 5. Project is approved and loan repayment begins (all contractors must be competitively selected).
Task 4) Train building auditors, inspectors and code developers/enforcers, as well as contractors and/or tradespeople, in advanced energy efficiency and conservation building techniques. The training will focus on one or more sectors of the building industry: 1. Training for building energy efficiency auditors. This training will consist of courses through

a local community college for professionals entering the field of energy efficiency building auditing, or to further their knowledge and expertise in various building systems; 2. Training for municipal/county building code officials and building inspectors. This training will consist of short seminars or workshops aimed at furthering the understanding and application of building efficiency as it applies to code development and inspections; and 3. Training for general contractors and building trades professionals. This training will consist of courses through a local community college for contractors and tradespeople to develop a solid working knowledge of energy efficient building techniques and building systems.
Task 5) Implement improvements to Kane County?s Intelligent Transportation System (ITS), including: 1. Expansion of the Fiber Optic Interconnect Network for County Highway and road segments and the installation of field devices such as roadway weather systems and dynamic message signs; and 2. Installation of real time management systems for traffic and maintenance operations.
Task 6) Determine the extent to which bus rapid transit, improved transit and corridor land use densification will reduce vehicle miles traveled per capita.
Task 7) A study to determine the feasibility of developing additional methane capture and power generation facilities at Kane County landfill facilities. This task is a feasibility study of additional methane capture and power generation facilities at Kane County landfill facilities.

Project Information

Project Name or Project/ Program Title
Kane County, Illinois Energy Efficiency and Conservation Program

Quarterly Activities/ Project Description
Task 1: obtained energy data from the three public utilities; obtained data from ComEd, the electricity supplier to the majority of Kane County and obtained natural gas data. Also documented innovative programs and ideas to include in the Plan.
Task 2: Bid specifications were finalized based on results of six facility audits. Task 2 is complete.
Task 3: Entered into contract with fund manager to complete the issuance of the first round of loans for the Revolving Loan program.
Task 4: Entered into contract with Elgin Community College to carry out a Builders Training Course beginning with Fall 2010 semester.
Task 5: 1) Open bids and execute construction contract for the RWIS project.
2) Continue designs (PS&E) for the Randall and Orchard Road ATMS/Traffic Signal Interconenct Projects.
3) Obtain Contract approval/execution from IDOT and begin design (PS&E)for the Traffic Management Center project.
Task 6: Executed contracts with two consultants to carry out the project study.
Task 7: This project was previously terminated.
