Celebrate Spring at EcoLab: An Egg-ceptional Experiment

GENEVA, IL — Join us Wednesday, April 1, from 6 to 7 p.m. at Brewster Creek Forest Preserve for an egg-ceptionally fun Eco-Lab. Participants will explore the ecology of birds, with a focus on the wonders of their eggs.

Participants will also work together on an “egg-xperiment” that culminates in a product to take home and observe carefully over the following few days. By Easter, the result of your egg experiment is sure to be a hit with family and friends!

EcoLab is a quarterly, environmental education program that offers children and young adults the opportunity to analyze and learn about the natural world through a science-based approach. This program is designed for ages 8 and older. The fee is \$5 per person. Children under 12 must be accompanied by an adult.

Advance registration is required. To register, visit www.kaneforest.com/register, call 630-444-3190, or email programs@kaneforest.com.

The Barbara Belding Lodge is located within Brewster Creek Forest Preserve at 6N921 IL Rte. 25, St. Charles.

For more information, or to explore more nature programs, visit www.kaneforest.com and follow the Forest Preserve District of Kane County on social media by searching @forestpreserve.
