PRESS RELEASE

2008 COUNTY RESURFACING PROGRAM

Weather permitting the County anticipates starting its 2008 Pavement Resurfacing Program on Monday, May 12, 2008. With the harsh winter we experienced, this work is needed to repair and provide a new riding surface on various County Highways.

The following County roads are included in the resurfacing program:

- LaFox Road from north of Keslinger Road to IL Route 64.
- Bliss Road from IL Route 56 to Main Street.
- Fabyan Parkway from east of Randall Road to Kirk Road.
- Randall Road from Silver Glen Road to Crane Road.

The program has an anticipated completion date of July 31, 2008.

Daily temporary lane closures are required for this work. Please expect delays and increased travel times through these areas and exercise caution while traveling through the construction zone. Your cooperation and patience during this project is greatly appreciated.

Questions concerning this project may be directed to John Guddendorf at 630-816-9671.
