PRESS RELEASE

2008 COUNTY RESURFACING PROGRAM

Weather permitting, the County anticipates starting its second phase of the 2008 resurfacing program on **Monday, June 23, 2008**. With the harsh winter we experienced, this work is needed to repair and provide a new riding surface on various County Highways. The program has an anticipated completion date of August 30, 2008.

The following County Roads are included in the second resurfacing program for 2008:

- Corron Rd - various locations between Burlington Rd and Bowes Rd
- Silver Glen Rd - Corron Rd to IL Rte 31
- Empire Rd – spot location east of IL Rte 47
- Highland Ave – Randall Rd to Damisch Rd
- Big Timber Rd – various locations between Randall Rd and IL Rte 72
- French Rd – IL Rte 72 to 750 feet south of IL Rte 72
- Main Street – Randall Rd to IL Rte 47
- Granart Rd – Rhodes Rd to Kane / Kendall Co Line
- Orchard Rd – IL Rte 30 to 750 feet north of IL Rte 30
- Randall Rd – 500 feet north and south Claude Hanson Bridge

Work will begin the week of June 23rd with pavement milling on Silver Glen and Corron Roads.

Daily temporary lanes closures will be required for the resurfacing work so please expect delays and increased travel times through these areas and exercise caution while traveling through the construction zones. Your cooperation and patience during this project are greatly appreciated.

Questions concerning this project may be directed to Dave Boesch at 630-845-7875 or John Guddendorf at 630-816-9671.
