

# Kane County 2040 Plan

*Kickoff Meeting  
June 28, 2012*

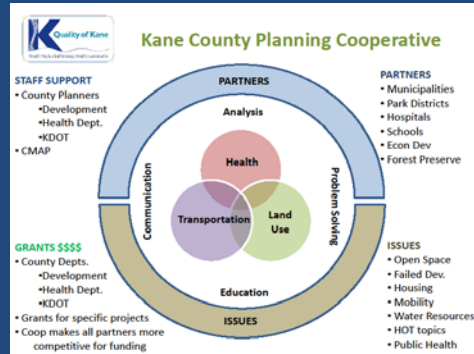

## Kane County Planning Cooperative

**Healthy People, Healthy Living,  
Healthy Communities**

# Kane County Planning Cooperative

## Kickoff Meeting

### Agenda

- Highlights from the Kane County 2040 Plan and Implementation Strategy, including the Kane County Planning Cooperative
- Roundtable discussions on Issues and Gaps
- Overview of 2040 Plan Implementation Grants – *Creating Healthier Communities*
- County assistance for CMAP LTA Grants and RTA Grants

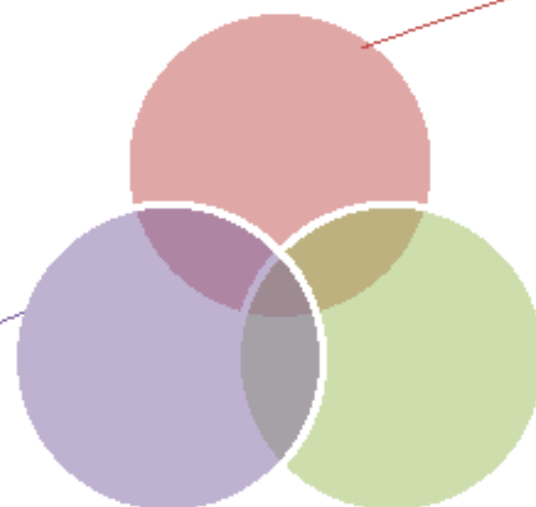

[www.qualityofkane.com](http://www.qualityofkane.com)

## Transportation

- 2040 Transit Plan
- IL 47 Corridor Planning Study
- Bus Rapid Transit Study
- Bicycle/Pedestrian Plan
- Route 529 Study
- 2040 Transportation Plan (in process)

## Community Health and Reinvestment

- Fit Kids 2020 Plan
- 2011 Comprehensive Community Health Assessment
- 2012-2016 Community Health Action Plan

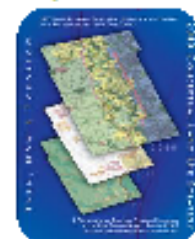

## Land Use

- 2040 Conceptual Land Use Strategy
- IL 47 Corridor Planning Study
- Draft 2040 Energy Plan
- Water Resources
- Farmland Preservation and Local Foods
- Local Planning Coordination/ Assistance

**Opportunities to get involved**

# Quality of Kane

*Healthy People, Healthy Living, Healthy Communities  
- Its about Quality of Life*

## Kane County 2040 Plan

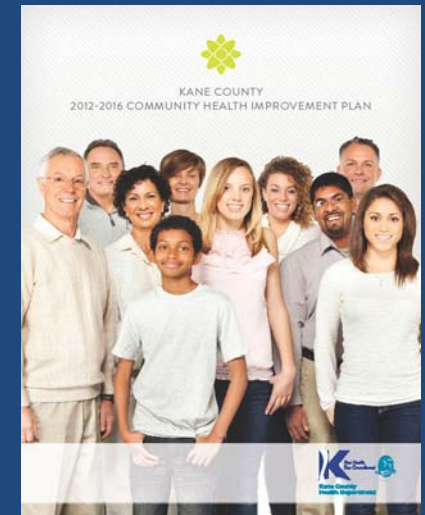

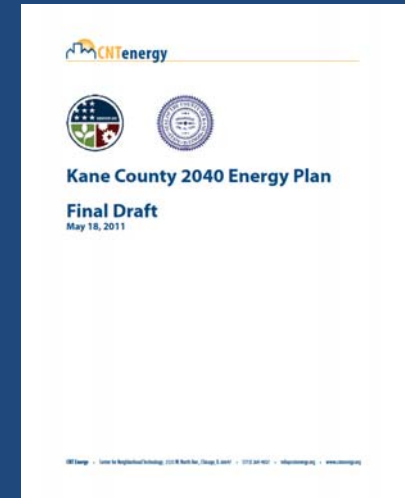

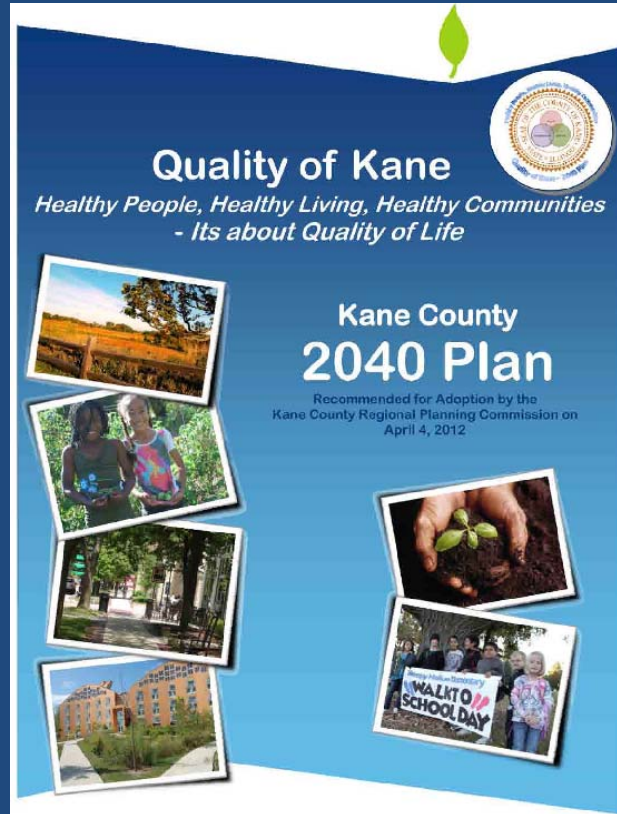

Recommended for Adoption by the  
Kane County Regional Planning Commission on  
April 4, 2012

**Unanimously  
adopted  
By the Kane  
County Board  
May 8, 2012**

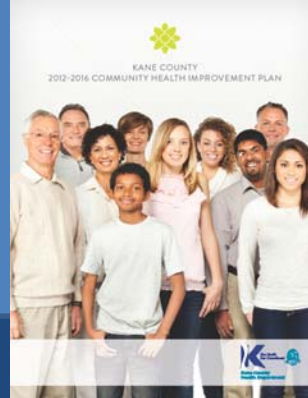

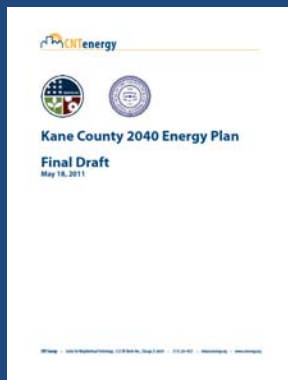

# The 2040 Plan fully integrates other plans Under the Quality of Kane

1994

2007

Diabetes Rate

# *2040 Plan Over-arching Theme*

**Healthy People  
Healthy Living  
Healthy Communities**

# Kane County 2040 Plan

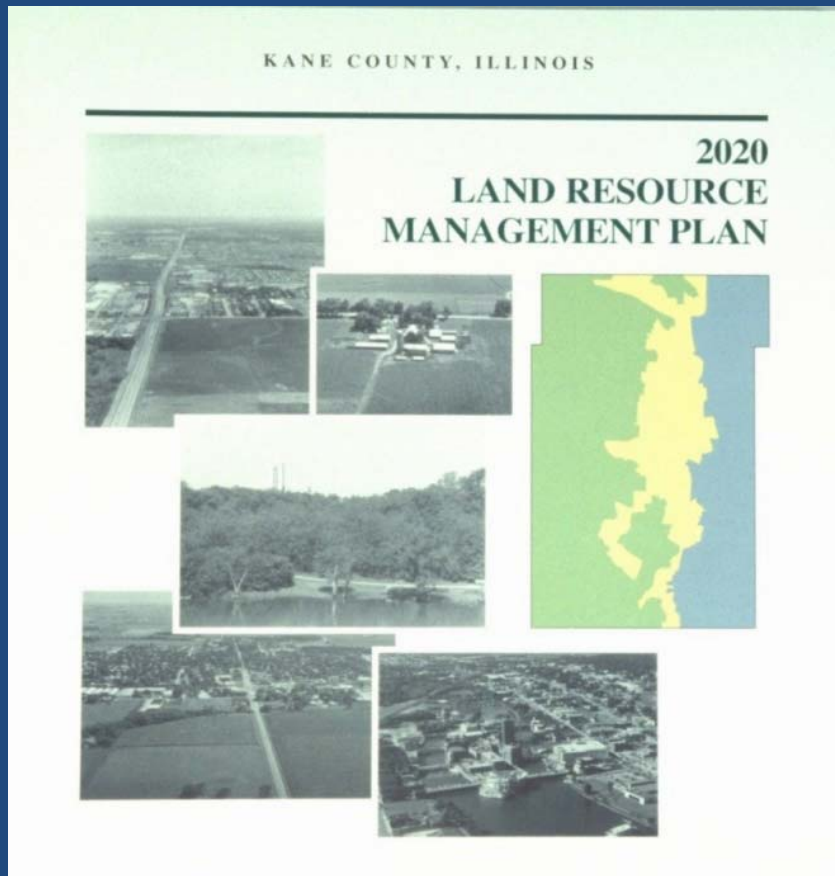

The 2040 Plan envisions Healthy People, Healthy Living, and Healthy Communities in Kane County by advocating for a future where:

- The built environment promotes, rather than restricts, physical activity and mobility for residents of all ages.
- All residents have convenient access to safe public parks, active recreation opportunities and open space areas.
- Access to healthy food choices and a safe water supply is not restricted because of where people live or social/economic factors.
- Planning for healthy results is standard practice for local governments
- Healthy living is a part of our local culture and current trends in obesity and diseases have been reversed
- Kane County's residents are the healthiest people in Illinois.

**The 2040 Plan is an update to previous plans.**

The Regional Planning Commission  
recommends land use plans  
for County Board consideration and adoption.

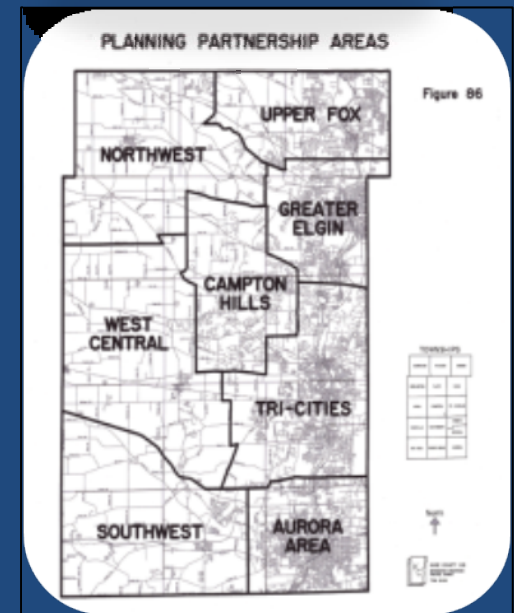

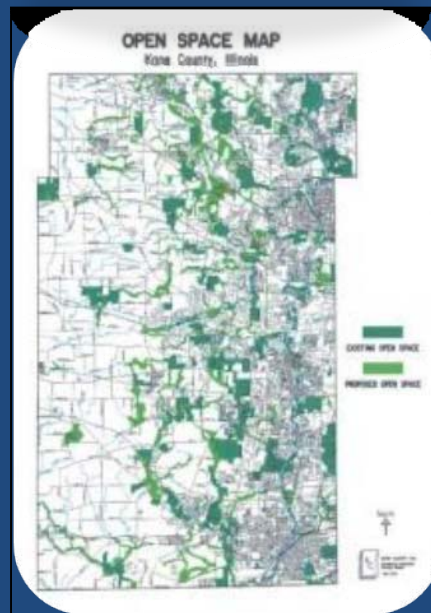

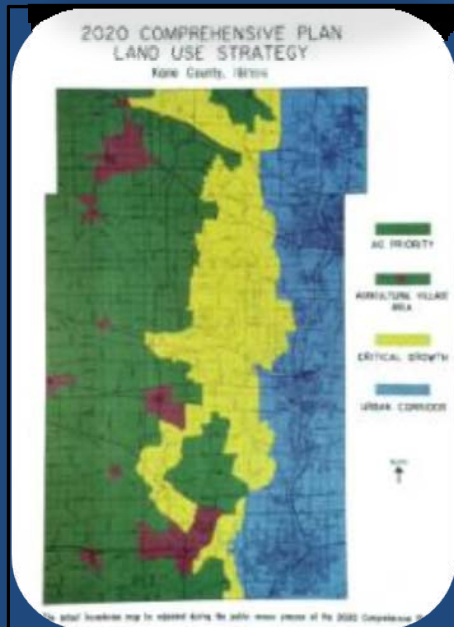

# 2020 Plan – 3 Innovations

**Sustainable  
Land Use  
Strategy**

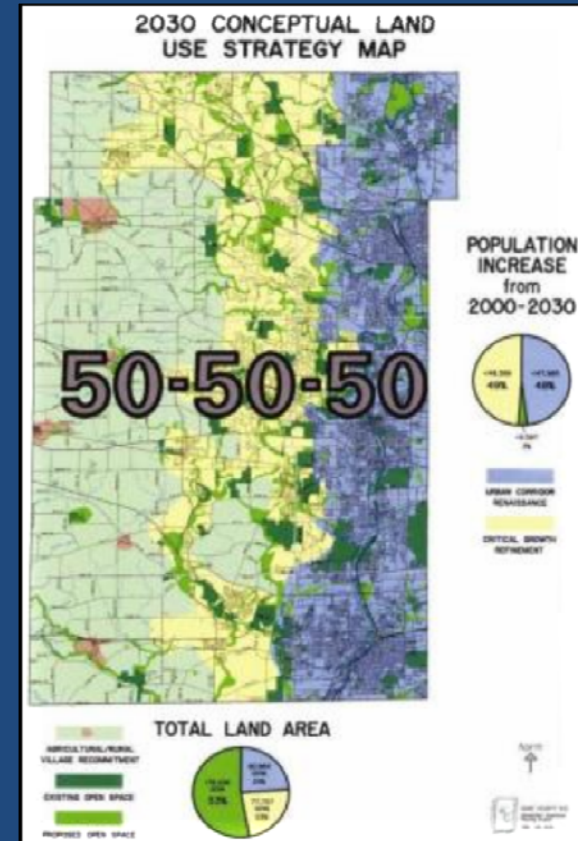

**Aggressive  
Open Space  
Policy**

**County  
Leadership  
for Municipal  
Cooperation**

# 2030 Plan – Defining Land Use Strategy

Keep 50% of Kane County land as agriculture and open space

2040 Plan reaffirms this goal

# 2030 Plan – 3 Challenges

Sustainable Water Supply

Traffic Congestion

Diverse Accessible Housing

# 2040 Plan – Challenges

Water Supply

Mobility & Connectivity

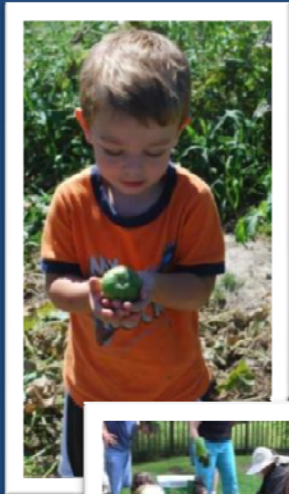

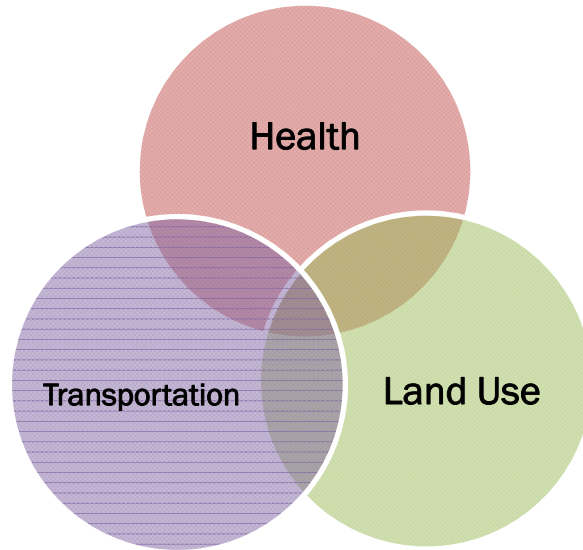

Safe, Affordable & Diverse Housing

Healthy Population

# How can we meet these challenges?

By integrating the 3 disciplines

## Community Health and Reinvestment

- Fit Kids 2020 Plan
- 2011 Comprehensive Community Health Assessment
- 2012-2016 Community Health Action Plan

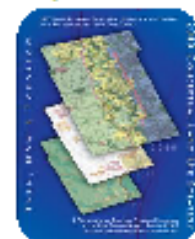

## Land Use

- 2040 Conceptual Land Use Strategy
- IL 47 Corridor Planning Study
- Draft 2040 Energy Plan
- Water Resources
- Farmland Preservation and Local Foods
- Local Planning Coordination/ Assistance

**Opportunities to get involved**

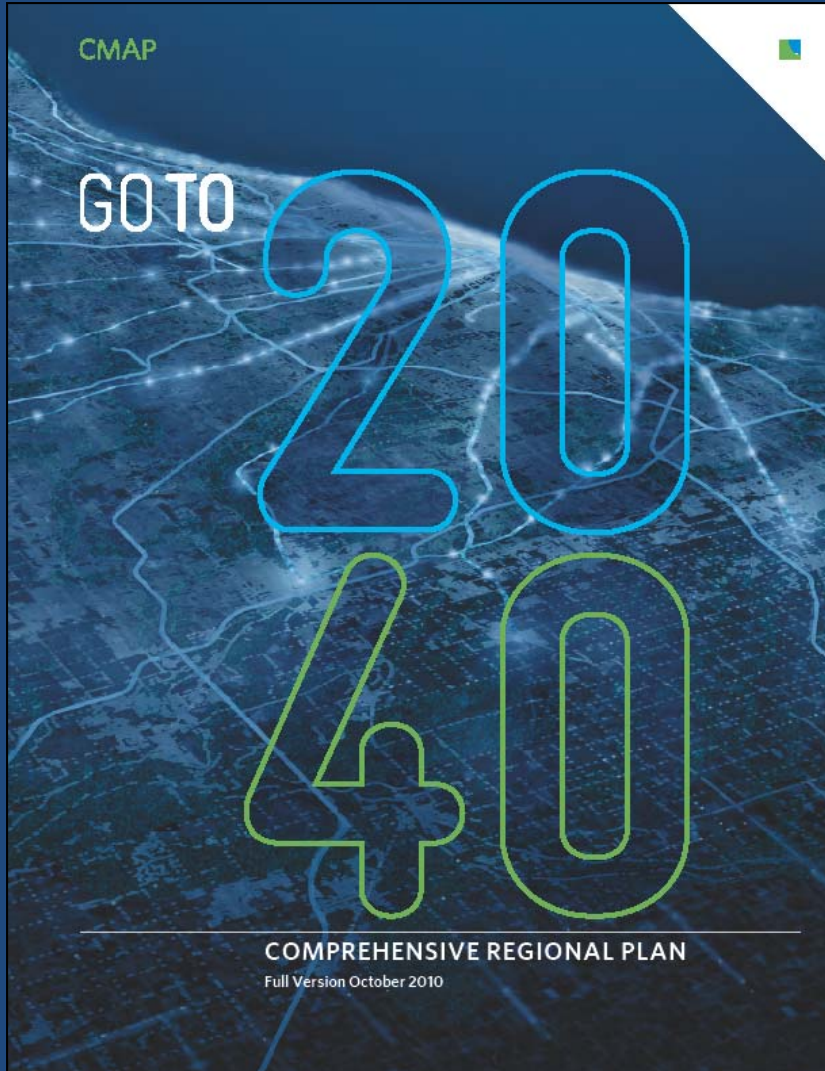

# 2040 Plan Implementation Strategy

- Proposes an innovative expansion of the implementation efforts of the 2020 and 2030 Land Resource Management Plans
- Fulfills the key role for counties as described in the GO TO 2040 Plan developed for our region and adopted by the Chicago Metropolitan Agency for Planning (CMAP) in 2010.

# CMAP's GO TO 2040 Implementation Strategy

*“Counties have a key role in the promotion of livability through their land use planning responsibilities. Many counties have regional planning commissions that provide guidance on long-range planning activities. With involvement from these groups, counties can play a key role in bridging the regional ideas and principles in GO TO 2040 with their **implementation at the local level**. In many parts of the region, **counties also provide valuable technical assistance to municipalities** and help to negotiate boundary and joint land use agreements.”*

# 2040 Plan Implementation Strategy

Promotes the 2040 Plan's convergence of land use, transportation and health through the following four activities:

1. Creation of a Kane County Planning Cooperative
2. Continue the Planning Workshop Series
3. County Funding Decisions Consistent with Plan Goals
4. Coordination with Municipalities

# 1. Kane County Planning Cooperative

Is the central core of the 2040 Implementation integrating health, transportation and land use

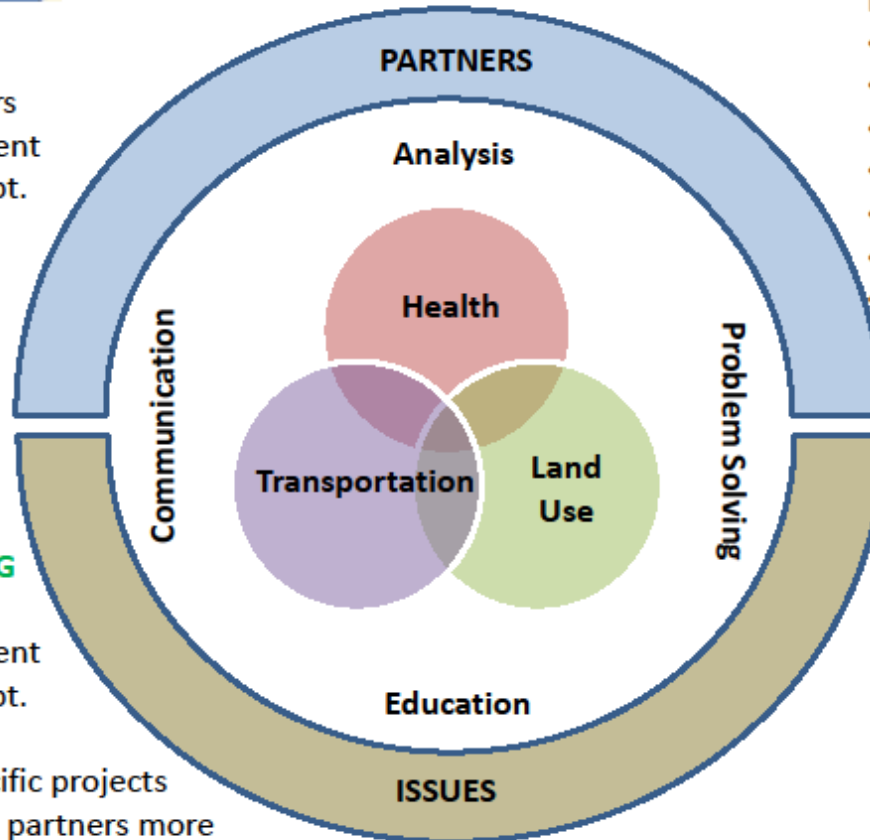

## Kane County Planning Cooperative

### STAFF SUPPORT

- County Planners
  - Development
  - Health Dept.
  - KDOT
- CMAP

### GRANT FUNDING

- County Depts.
  - Development
  - Health Dept.
  - KDOT
- Grants for specific projects
- Coop makes all partners more competitive for funding

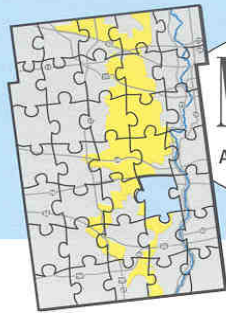

### PARTNERS

- Kane County
- Municipalities
- Park Districts
- Hospitals
- Schools
- Econ Dev
- Forest Preserve

### ISSUES

- Open Space
- Energy
- Housing
- Mobility
- Water Resources
- HOT topics
- Public Health

## 2. Continue the Workshop Series

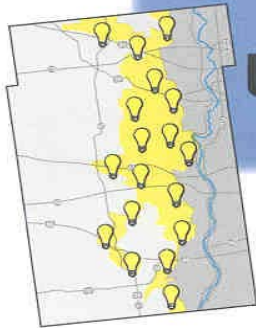

### Making It Work!

A WORKSHOP ON PLANNING FOR A SUSTAINABLE  
WATER SUPPLY IN KANE COUNTY

Bedrock Elevation  
(ft)

### PRIORITY PLACES and the URBAN CORRIDOR

*Where  
Smart Growth  
Gets Done!*

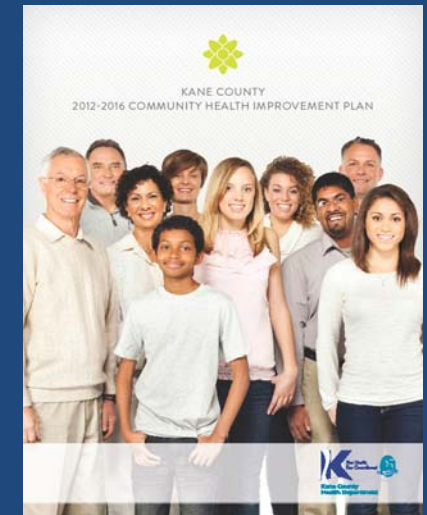

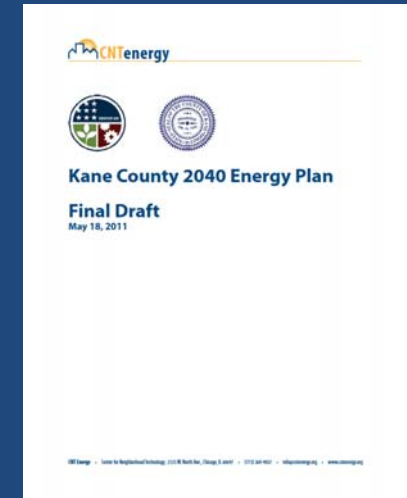

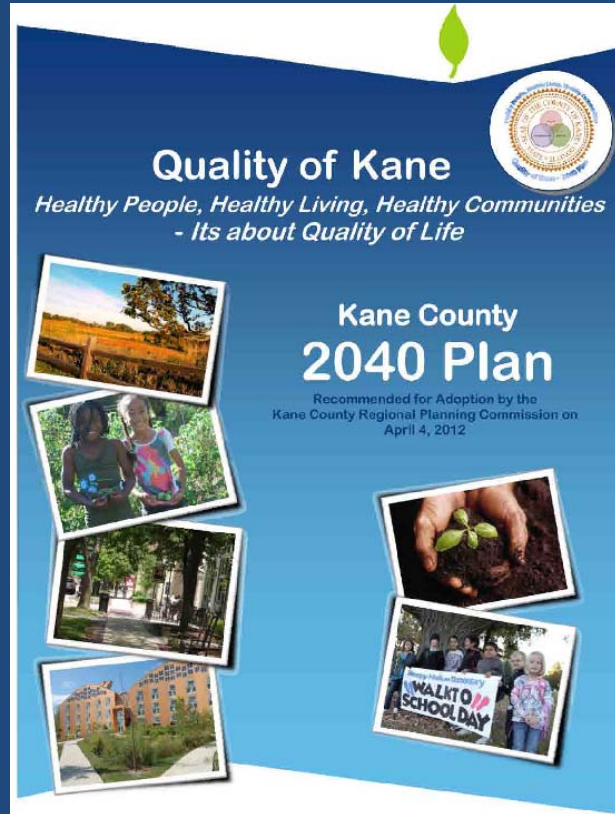

A Workshop on the 2030  
Plan for Kane County

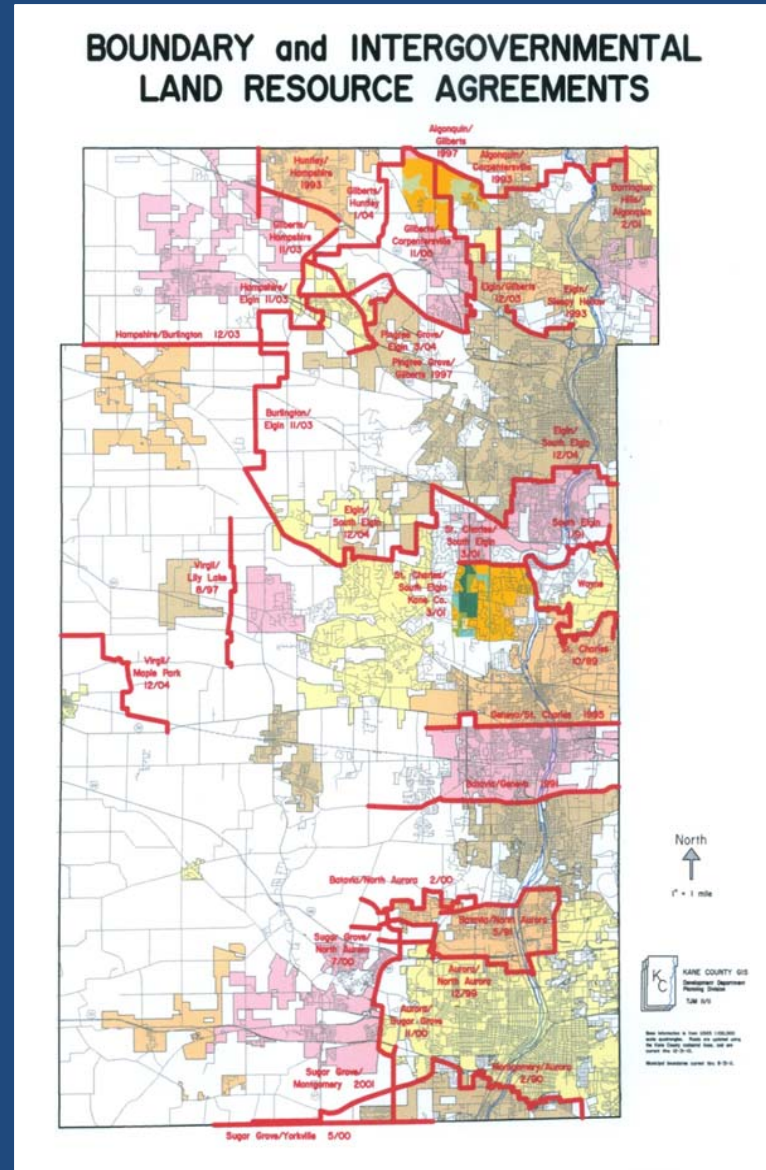

- *Healthy Communities*
- *Workshop Series*

# 3. County Funding Decisions Consistent with Plan Goals

90% of the new growth will be due to the land use decisions of our 30 municipalities!

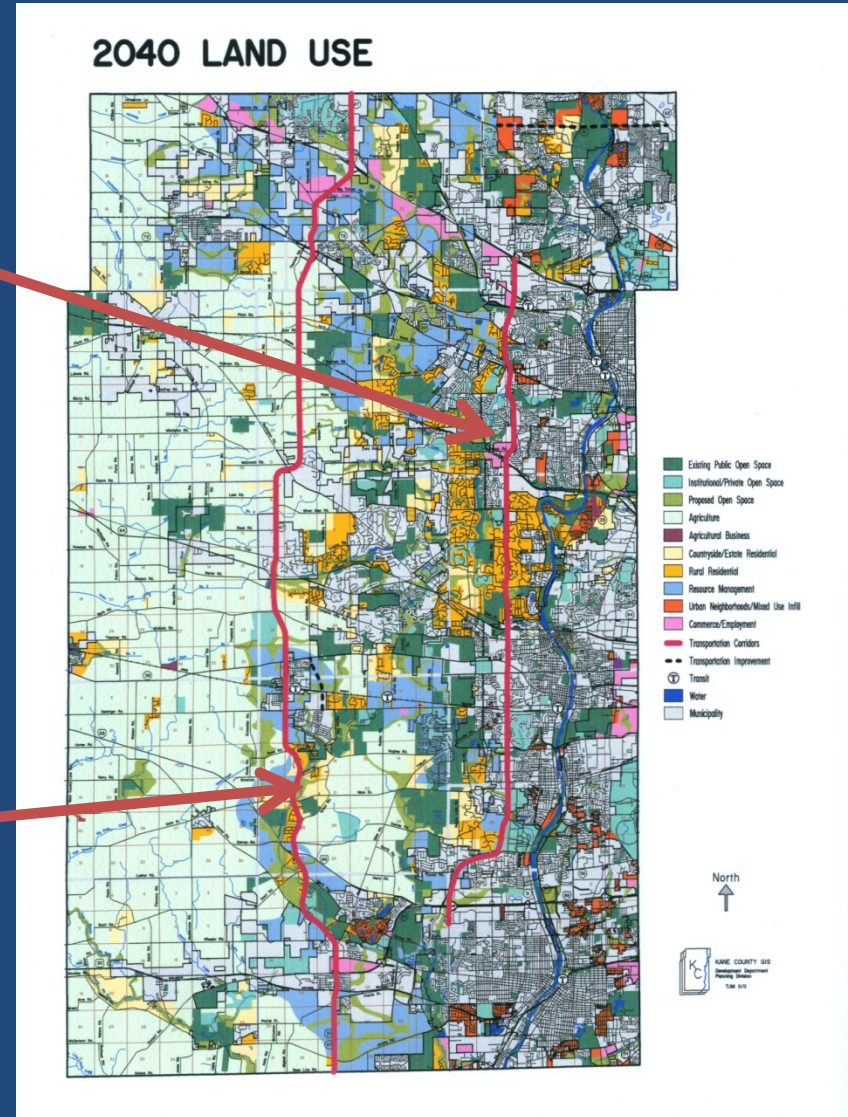

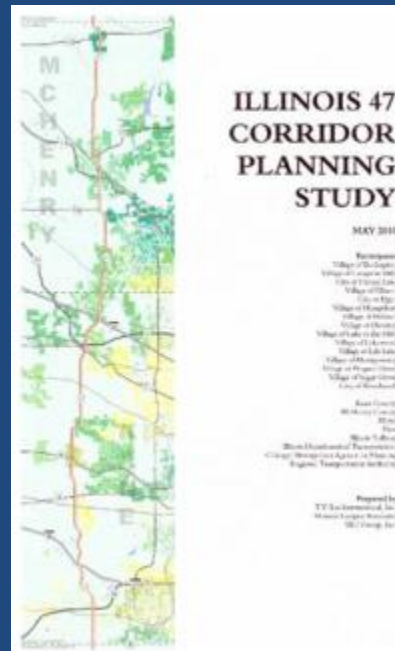

# The 2040 Land Use Map includes two road corridors

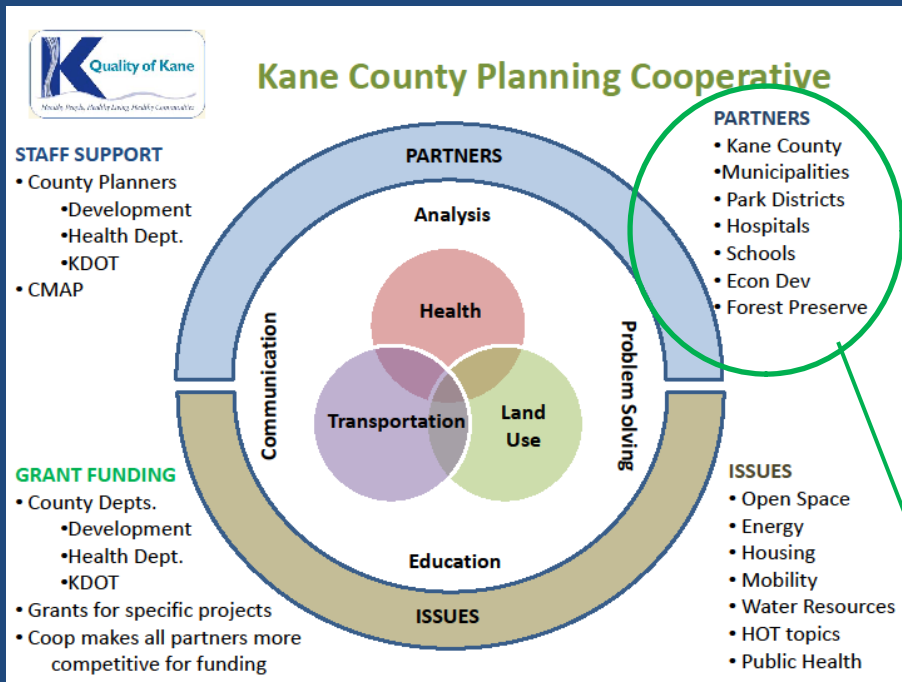

Randall / Orchard BRT

IL Rt. 47

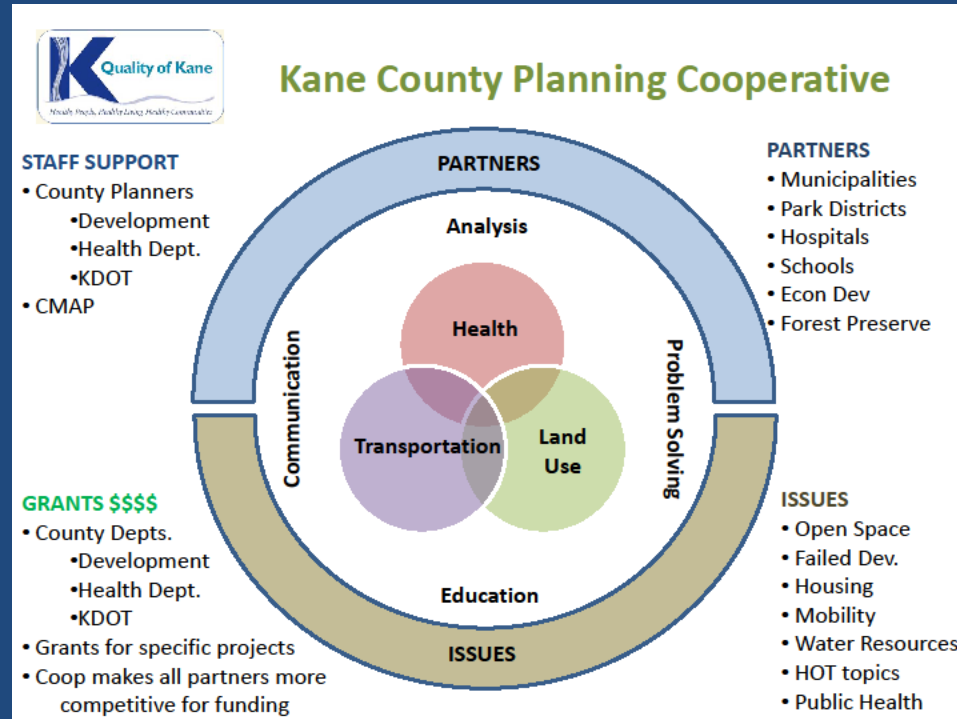

# Kane County Planning Cooperative

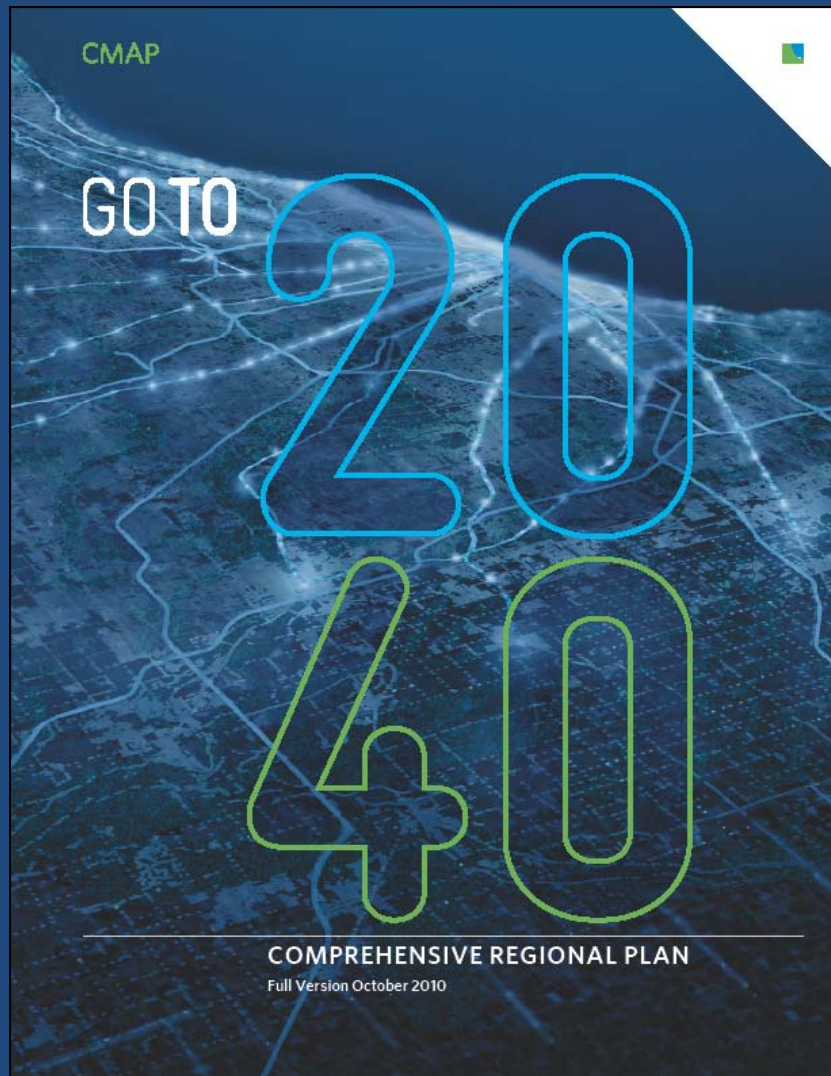

- is the central core of the 2040 Implementation
- **integrated planning: health, transportation and land use**
- will fill GAPS in local planning resources
- **will provide education and information on critical issues**
- **partners include all agencies involved in planning**
- open to elected officials, planning commission members, appointed officials, staff, private sector planners

# Kane County Planning Cooperative

The primary goal is to fill the **GAPS** for addressing current critical topics common to many of Kane County's municipal and other partners by **providing a local forum for education, analysis, communication, problem solving** and by integrating health, transportation and land use planning.

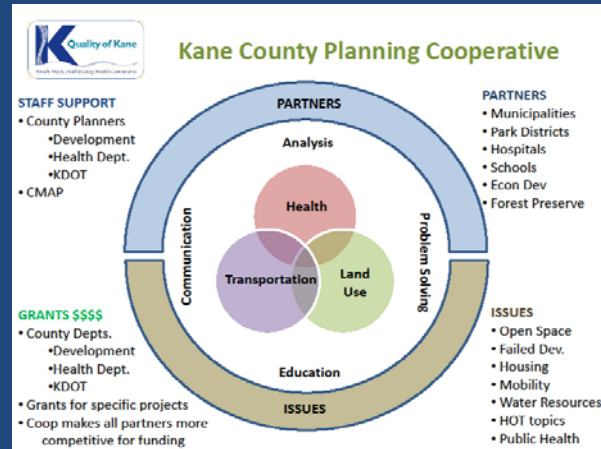

*“GO TO 2040 calls attention to the **importance of collaborations between communities** for transportation, housing, economic development, and other issues. **These can often allow participating jurisdictions to access more funding and derive more benefit for themselves than they could by going it alone...***

*Counties ... can often act as the **sponsors or facilitators of these efforts**. Collaborations can also encompass both the public and private sectors”*

# Kane County Planning Cooperative

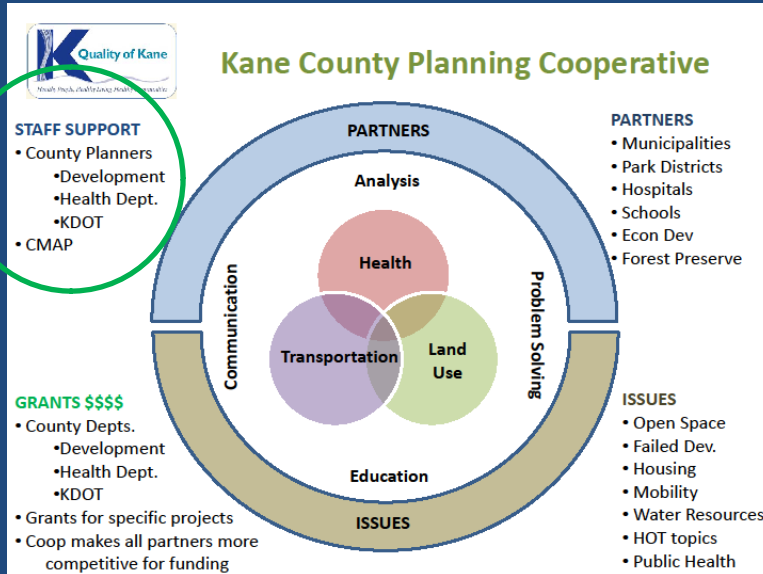

## Examples of GAPS

- Hot topics common countywide or in sub-areas
  - stalled developments
  - model ordinances for emerging issues
- Municipalities with no or overextended planning staff
- Inter-jurisdictional transportation/planning / health / economic development policies and projects
- Exposure to Health Impact Assessments as a planning and policy assessment tool
- Availability of professional planning resources for municipal planning commissions

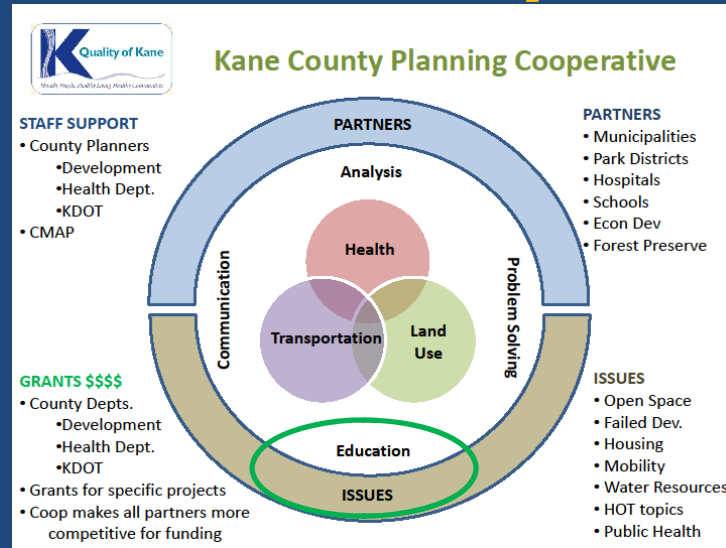

# Kane County Planning Cooperative

## Addressing GAPS in resources

County planners from three departments – Development, Health and Division of Transportation (KDOT) with support from CMAP, will work to enhance existing local efforts with expertise from the county and support an integrated implementation of the 2040 Plan across the county. Cooperative planning provides an opportunity to maximize resources in the most efficient manner.

# Kane County Planning Cooperative

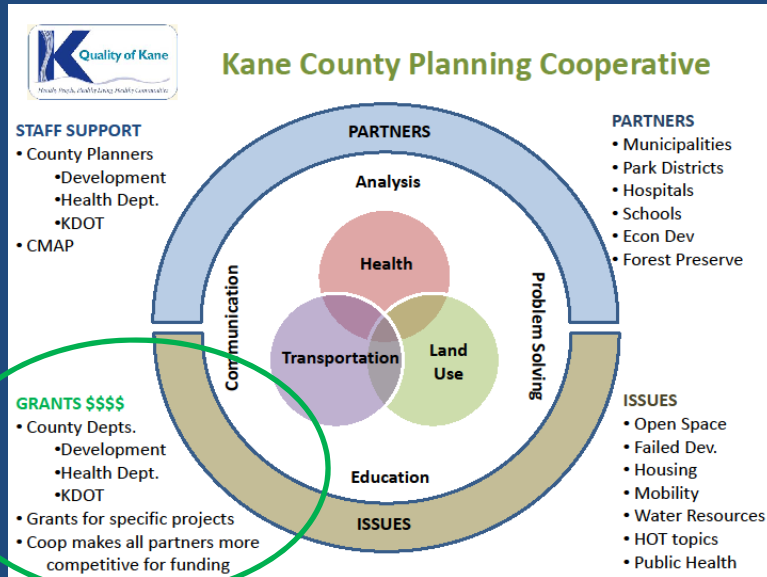

## Addressing GAPS in resources

- Continue Healthy Communities Workshop Series
  - sometime in late 2012 or early 2013
  - supported by Riverboat grant
  - nationally known speaker
- Host 2 to 3 local forum meetings
  - focus on hot topics
  - bring in regional resources
- Provide technical assistance to municipalities and other partners

# Kane County Planning Cooperative

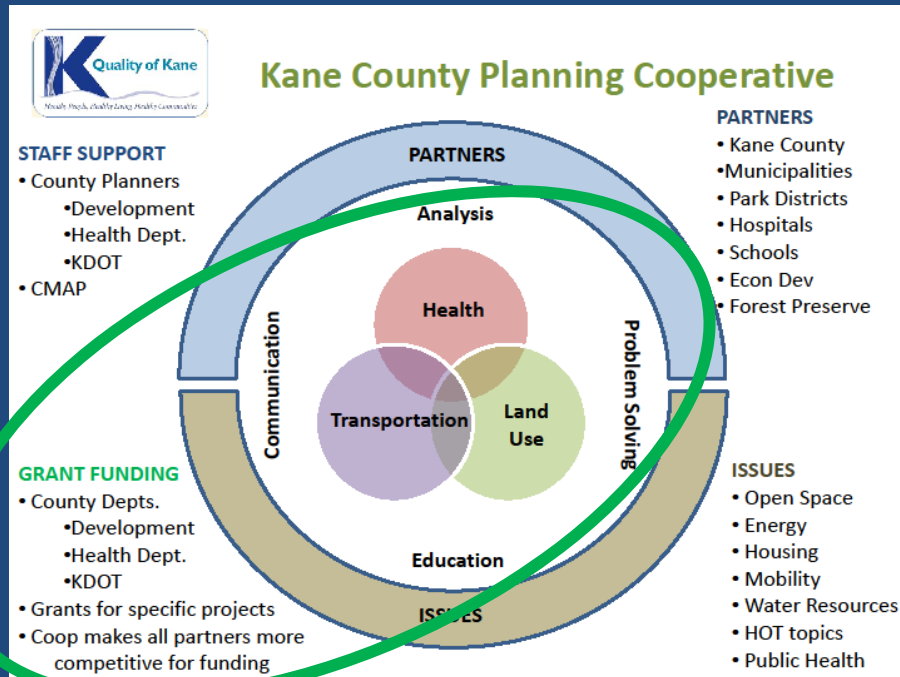

## Addressing GAPS in funding

Collectively, the County and its planning partners do not have the resources to address future planning needs without competing for outside funding.

Federal, state and private foundation grants are becoming more and more competitive, limiting awards to projects which are clearly tied to adopted plans and involving collaboration.

# Kane County Planning Cooperative

## Addressing GAPS in funding

Projects integrating Health, Transportation and Land Use have the greatest funding opportunities: Kane County is already a leader in this area, so partners can benefit from County successes

## Kane County Planning Cooperative

### Grant Funded Projects Summary for 2012

Project/Goal	Total Grant Award	Grant Funds Remaining	Type/Source of Funding
Kane County Planning Cooperative <i>Goal: To implement the 2040 Plan</i>	\$360, 000	\$30,000	Healthy Communities Grant, Robert Wood Johnson Foundation
Funding for local planning efforts <i>Goal: To implement the 2040 Plan</i>	\$40,000	\$40,000	Grant through the Power of Policy Contest, American Public Health Association
Evaluation of Land Suitability for Agriculture <i>Goal: To identify evaluation tools and resources to determine land suitability for local farms/local food.</i>	Local Technical Assistance	Local Technical Assistance	CMAP Local Technical Assistance via Federal Grant
Health Impact Assessment – <i>Goal: To determine the health impacts of utilizing farmland preservation to increase local food production and access.</i>	\$125,000	\$125,000	Health Impact Project, Pew Charitable Trust
Green Infrastructure Map and Plan <i>Goal: To create a green infrastructure map and develop specific implementation recommendations.</i>	Phase 1 \$16,000	Phase 1 \$16,000	Phase 1 - Grant from Chicago Wilderness via Boeing.
Remnant Oak Woodland Study & Map <i>Goal: To identify and map the remnant oak woodlands in Kane County</i>	Technical Assistance (consultant)	Technical Assistance (consultant)	Chicago Wilderness via Federal Grant
Create a model transportation overlay ordinance <i>Goal: To implement the Long Range Transit Plan</i>	Local Technical Assistance	Local Technical Assistance	CMAP Local Technical Assistance via Federal Grant

# Two Immediate Opportunities Through the Kane County Planning Cooperative

**“Creating Healthier Communities”  
Grant Opportunity  
American Public Health Association  
“Power of Policy” Grant**

**Assistance and/or collaborative  
applications for CMAP Local Technical  
Assistance and RTA Grants**

# Kane County Planning Cooperative

## Roundtable Discussion Questions

1. What are the main barriers for planning activities in your community? (lack of interest, planning knowledge, value of planning, other)
2. What are the main gaps in resources for planning in your community? (staff, community volunteers, access to training and education, professional consultants, funding, other)

# Kane County Planning Cooperative

## Roundtable Discussion Questions

### 3. What topics would you like to have the Kane County Planning Cooperative address?

- Stalled developments
- Integrating health impacts into land use plans and development reviews
- Green infrastructure planning
- Model ordinances
- Local foods / urban agriculture
- Economic development
- Mobility options
- 2010 Census Data
- Other???

# **“Creating Healthier Communities” Grant Opportunity**

## **American Public Health Association “Power of Policy” Grant**

For 2040 Plan Implementation - one of six awarded out of 121 applications nationally!

- \$40,000 Grant to the Kane County Health Department
- \$9,400 of grant to reimburse Development Department for staff time and expenses
- \$30,600 for County to fund local planning efforts – up to \$5,000 per project (100% match required)
- Request for proposals released, due July 31st

# Creating Healthy Communities Grants

American Public Health Association  
“Power of Policy”  
Grant

## Eligible Projects

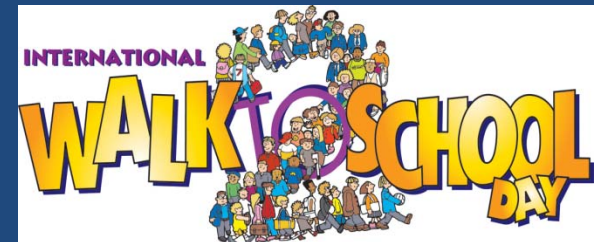

- Develop bike and walkability plans
- Establish / expand community gardens
- Expand smoke-free campuses
- Expand safe routes to school plans
- Achieve USDA Healthier School standards
- Institute workplace wellness policies

# Creating Healthy Communities Grants

## American Public Health Association “Power of Policy” Grant

### Eligible Project Categories

- Pre-planning / Readiness
- Planning
- Plan Publication / Social Media
- Plan Implementation

# Creating Healthy Communities Grants

American Public Health Association  
“Power of Policy”  
Grant

## Project Examples

- Walk-ability or access audits around proposed parks, community gardens, or farmer’s markets to identify barriers that may need to be addressed.
- Public outreach events / workshops to inform the public of upcoming planning activities
- Hiring a consultant to begin work on a bike- or walk-ability plan
- Working with a local school or school district to create a safe routes to school plan for that area
- The purchase of paper/printing materials to disseminate information regarding safe routes to school plans; comprehensive, evidenced-based workplace wellness policies; or municipal bike- and walk-ability plans
- The procurement of a consultant to create a social media campaign to promote the efforts made in regards to one of the six high priority recommendations
- Engineering/plans for a physical improvement (sidewalk, park, etc.)
- Outreach workshops / citizens meetings to inform the public of a completed plan

# Creating Healthy Communities Grants

American Public Health Association  
“Power of Policy”  
Grant

## Grant Submission and Contact Info

- **How to Apply :**

- Applicants should submit the attached “Kane County Planning Cooperative Creating Healthier Communities Grant 2012 Application” form by mail or email by the following deadline: 4:30 p.m. on July 31st, 2012. Submittal by email is strongly encouraged. Application packets can be viewed online at: [www.qualityofkane.org](http://www.qualityofkane.org)

- Mail: Kane County Planning Cooperative  
Attn: Sean Glowacz  
719 Batavia Avenue, Building A  
Geneva, IL 60134

- Email: [KCPlanCoop@co.kane.il.us](mailto:KCPlanCoop@co.kane.il.us)

- **For Further Assistance:**

- For more information regarding application procedures and project eligibility, please contact Sean Glowacz at [glowaczsean@co.kane.il.us](mailto:glowaczsean@co.kane.il.us) or (630) 232-3491
