## Home Grown in Kane County

A rising demand for locally-grown food is good news for Kane County farmers, who are scrambling to meet the demand from county residents and their urban neighbors, too. See page 130

locally-grown products, too. As a board member representing Big Rock, Donna Lehrer recently was appointed by Illinois Gov. Rod Blagojevich to the Illinois Local and Organic Food and Farm Task Force.

"On the task force, we're discussing how Illinois food and fiber farmers can connect with the consumer, and how to get consumers to look for locallygrown foods," Lehrer says. "We're discussing topics such as selling

products at farmer's markets, selling to chefs, selling to largescale grocery stores and using direct marketing. We are to have an extensive report ready for the legislature in September."

Meanwhile, local farmers are doing what they can to get their products into the hands of consumers. The Lehrer, Schramer and Weaver farms are only three among dozens of operations that sell their products to consumers without using middlemen. The Kane County Farm Bureau Web site lists contact information for 33 local operations that sell products, including trees, vegetables, fruits, sod, hay and straw, flowers, honey and corn stalks. Some sell directly from stands on the farm; others sell only at farmer's markets. Some have opened year-round stores on their properties.

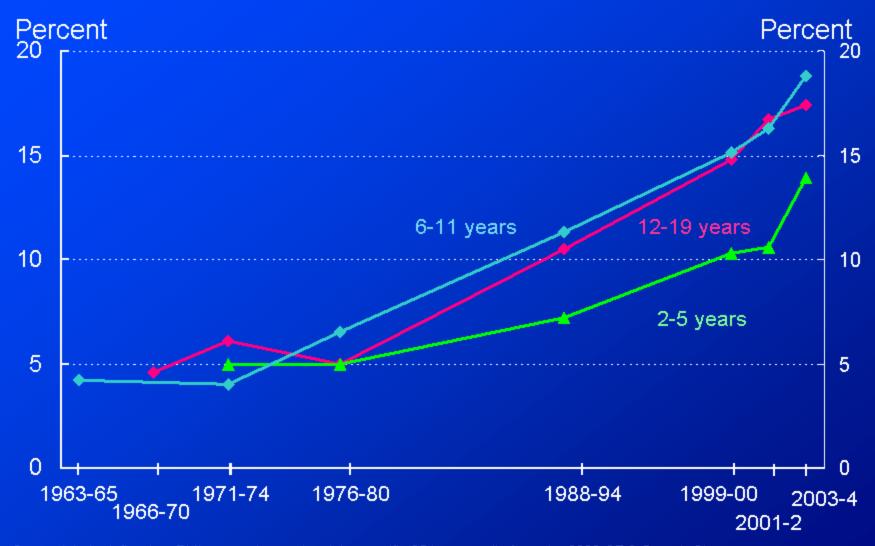

"We participate in farmer's markets June through September," says Schramer of Farm Direct Black Angus. "We had a number of customers who asked, 'Could you do this all winter?' So, in November 2006, we started a store on the farm." The store, formerly a two-car garage, is open from 9 a.m. to 4 p.m. on Saturdays only.

Heritage Prairie Market, which sells its products at one farmer's market in Elburn and two more in Chicago, has a grocery store at the farm that's open seven days a week, offering dairy products, fresh eggs, beef, chicken, pork, honey and vinegar.

"It's an outlet for our products and those of other farmers," Weaver says. "Regular customers come in weekly for milk and eggs."

#### Fresh Food for Kids

#### The Strategy:

- 1 . Provide only healthy food and beverages at school.
- Increase the frequency intensity and duration of physical activity at school.
- 3. Increase the availability of affordable healthy food in all communities.
- 4. Improve access to safe places where children play.
- 5. Limit screen time.

## Local food a short drive away

Soaring energy costs are hitting all sectors of the economy, but high pump prices actually may be driving regional "agritourism" demand.

That's according to North American Farmers' Direct Marketing Asso-

markets and ag attractions, he said. And urban agritourists likely will experience an increasingly sophisticated bucolic experience.

"The 2007 season was a phenomenal year in agritourism across the United States," he told **Partners**. "The

ry, safety, and convenience," Touchette said.

Thus, producers must "raise the bar" in terms of the goods and services they offer and the appearance and cleanliness of their operations, according to Touchette.

More farm marketers are offering what he calls a "360-degree experience" that moves beyond U-pick plots to processing tours, extended retail sales, luncheon facilities that introduce visitors to a producer's wines, and concerts or other events.
