

Kane County Building Management Monthly Brief

July 2025

BEFORE

AFTER

New Security Lighting at the JC

Staff and visitors to the Judicial Center (JC) have a new level of safety and security after the replacement of 118 obsolete and failing light poles that often left the campus dangerously underlit. The light poles and bollards feature energy efficient LED lighting that is much brighter when fully lit. New motion sensors also increase the lighting as someone approaches. This added security benefit can alert anyone to the presence of someone walking through the lot who would have otherwise gone unnoticed.

Coming Up Soon – JC Paving!

Due to significant damage such as excessive cracking, surface wear and other structural issues, resurfacing of the Judicial Center parking lots will start this summer and finish before winter. The project will also include the repair of storm sewers that have collapsed, which if not addressed, will continue to cause flooding and damage to the jail. We will provide more details through signage at various campus entrances.

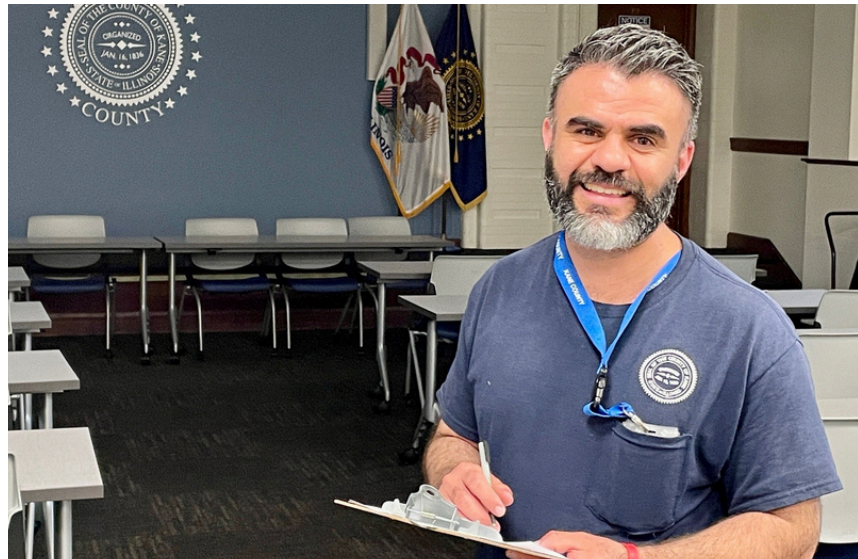

What Others Say

"I think the whole building management staff have been heroic in trying to keep everything going in the face of diminished budgets and low staffing."

*Lisa Aust
Executive Director
Kane County Court Services,
16th Judicial Circuit*

Help Us Help You!

Please submit maintenance requests through the Building Management Work Request system, FSI. You can find the FSI link on our internal page at web.kane. This ensures your request is tracked and resolved efficiently. For urgent issues requiring immediate assistance, the help desk contact number is also available there.
