Hello,

My name is Cecilia Valdivia. I have a bachelor's In Environmental Science. I am a Branch Manager at a bank. I have environmental and business background. This proposed Commercial Solar Facility makes no sense. It would cause more environmental impact than help. Those solar panels can be installed on top of government buildings or on top of parking lots. Why use this land for that? There is no need. Please vote against this mistake.

Thank You,
Cecilia Valdivia
