The application for a Natural Resources Inventory was sent to the Kane-DuPage Soil & Water Conservation District (KDSWCD) in compliance with Section 22.02a of the Illinois Soil and Water Conservation District Act.

**According to the information received, a Natural Resources Inventory is not required at this time for the proposed zoning change because there is no ground disturbance of the land.** Therefore, no further action will be taken by the Soil and Water Conservation District Board. All NRI decisions are valid for five years for the stated purpose only. However, **if there are deviations from the submitted application or plan or increase of impervious surface, a full NRI report may be required, and an application may need to be resubmitted.** If you have any questions concerning this letter, please contact KDSWCD office at the address or phone below.

Sincerely,
