

**July 18, 2025**

**Dear Neighbor,**

This letter is to inform you that we have submitted an application to Kane County for a Special Use to develop a community solar energy facility on a parcel located on the south side of Highland Ave., approximately .7 miles west of Randall Road in Elgin Township. The proposed project will consist of a 5.0 MW (AC) ground mounted solar energy system designed to provide renewable electricity to local homes and businesses.

The solar facility is planned for approximately 34 acres of the 47 acre parcels of PIN #'s 06-08-100-008, 06-08-100-023, 06-08-300-002 and 06-08-300-008 that are currently used for agricultural purposes. The installation will be designed to comply with all applicable county and state requirements.

A public hearing will be scheduled as part of the zoning review process, providing an opportunity for you and other interested parties to ask questions and provide comments regarding the project. You will receive an official notice from Kane County with the exact time, date, and location of the hearing once it is scheduled.

Should you have any questions or comments about the project, please feel free to contact me at the information below.

Regards,

**Bill French**
