**Subject:** EX: Opposition to Petition #4666 - Proposed Solar Farm

Dear County Board Member,

I am writing as a resident of West Highland Acre Unit No. 2 Subdivision to express my opposition to Petition #4666 regarding the proposed solar farm adjacent to our neighborhood.

While we support renewable energy in principle, this project raises serious concerns for our community, including:

- **Compatibility with our residential area** - the project is directly adjacent to homes and will negatively impact property values and neighborhood character.
- **Environmental Concerns** - the site includes sensitive land and may affect wetlands, wildlife, and natural drainage patterns and flooding.
- **Health and Safety considerations** - increased traffic during construction, long-term maintenance issues, and potential glare or noise impacts.
- **Alternative siting** - more suitable locations exist for this type of project that would not so directly impact established neighborhoods.

I respectfully urge you to oppose Petition #4666 when it comes before the County Board. Protecting the quality of life, safety, and environment of our community should remain top priority.

Thank you for your time and for representing the interests of your constituents.

Sincerely,  
Bob Deaton
