We object to the installation of a solar facility by SV CSG Wilson School Solar LLC to replace agricultural land for several reasons:

1. The continuous encroachment into farm and open land which destroys the natural beauty of this area and wildlife habitat.
2. Solar installations make little sense in this northern part of USA. Power output is unreliable.
3. When the life of solar panels end, there is a whole new cost to replace them and disposal continues to destroy the land.

It is apparent the the City of Chicago keeps pushing it's way out to Kane County. **KANE COUNTY HAS A RURAL FEEL AND WE DON'T WANT CHICAGO WAY OF LIFE OUT HERE.**
