Good Morning,

I am working through my projects and yours in on my desktop for review. I will let you know if I need anything else.

Thank you for your continued patience.

Respectfully,

Lyn Nitz-Mercaeant

Good morning, Lyn,

Just checking in on your review of the new info for the Douglas Family project. Let me know if you need anything else from us!

Sincerely,

Max (He/Him)

Good Morning Max,

I will put the project on my list to review. It may be tomorrow when I will get a chance to look through the file for any additional needed information. I will let you know once I add this information to what I have.

Thank you for your continued patience.

Respectfully,

Lyn Nitz-Mercaeant

Hi Lyn,

Following up with the level 2 wetland delineation we completed last week for LRC-2026-065

(see attached report). The linear feature we had identified in the desktop assessment ended up just being an upland grassy swale without a bed and bank. No wetlands were identified within the study area as a result of the level 2 delineation.

If possible, we would still like to move forward with an NPR. Please let me know if you have any questions or require more information.

Thank you,

Max (He/Him)
