**Subject:** EX: In Favor of Petition 4693

Dear Ms Zine and Mr Tepe,

Just a note to let you know that I completely support Tim Meyer's plan to build a solar farm on his property.

I live at 37W215 Olwin Dr in unincorporated Elgin Township. My property has only one house between it and the proposed solar farm. I have full view of the field in question, especially in the winter when there are no leaves on the trees. I believe Mr Meyer has made every effort possible to meet the objections of my neighbors who directly border his property. There have been concerns by many about shielding the farm from view. He has made many concessions by rearranging the panels and by promising to provide additional trees at the borders of his property.

The research I have done indicates that a solar farm of this size poses no environmental threat to the surrounding area due to noise, heat, or electro-magnetic fields. Nor will it have any adverse affect on property values while providing much needed electrical power.

I also feel that Mr Meyer is competent to act as general contractor on this project and will obtain the necessary help to install it. He has provided all of us neighbors with his home address, email address, and cell phone number which we can use should we have any concerns during and after the installation process. I doubt that any large corporate solar company would be willing to do the same.

Therefore I urge the Zoning Board of Appeals and the full Kane County Board to approve Petition 4693.

Thank you,  
Michael Williams
