Zoning Petition # (4694)
Project Name (Northern Illinois Recovery LLC)

Carrie and Mike O'Rourke
3415 Green Pastures Rd,
Carpentersville, IL 60110

In Opposition to the Petition - 2nd Response

Formal Objection to the Proposed Northern Illinois Recovery Center Facility at the Parsons Property (35W543 Miller Rd)

Application response from Northern Illinois Recovery below:
How does the proposed use relate to the existing uses of property within the general area of the property in question?
1. *The proposed use is consistent with and compatible with the existing uses. The property is located in rural setting characterized by estate homes, agricultural land, and large-lot residential parcels. The proposed recovery residence will continue to function as a residential living environment, with residents living together in a supervised household setting and engaging in ordinary residential activities such as sleeping, eating, and maintaining a household.*

Our Response
As 24-year residents of this community, we would disagree that this is rural setting. From Miller/Rt 31 and West to just past Randall Road there are 1000's of residential homes and townhomes. An elementary school is located 1 mile West of the Parsons property. Once again, this recovery center is misrepresenting the setting they want to move into.

The 35W543 Miller Rd property hasn't been a farm for more than 30 years at least. My fear is this company is exploiting a zoning change oversight by the current and previous property owners.

Their plans for the property are not a good fit for the existing residential neighborhood.

Thanks,
Carrie and Mike O'Rourke
