Subject: EX: Opposition to Proposed Zoning Petition #4694 – 35W543 Miller Rd

Dear Ms. Zine,

I am writing to formally express my opposition to proposed Zoning Petition #4694, which would rezone 35W543 Miller Road from F-Farming to allow Northern Illinois Recovery LLC to operate a residential treatment facility for adults with substance abuse disorders and mental health conditions.

This property is located in the area where we live, which is a residential community. I have serious concerns about whether this proposed use is compatible with the surrounding neighborhood, including potential impacts on public safety, traffic, property values, and the overall character of our community.

I am also concerned about the potential strain on local emergency services, the impact of increased activity on nearby residents, and whether adequate safeguards, staffing, and oversight would be in place to protect the surrounding community.

I recognize the importance of treatment services for individuals facing addiction and mental health challenges. However, the proposed facility must be evaluated carefully to ensure that its location, operational plans, and potential impacts are appropriate for this area.

I respectfully ask that you consider these concerns as part of the review process and oppose approval of this rezoning petition.

Thank you for your time and consideration. I would appreciate confirmation that my opposition will be included in the public record for Petition #4694.

Sincerely,
John Lorenz
18N326 Sawyer Road
