P R O C E E D I N G S

CHAIRMAN WHITE: I have 7:00. I'll call the meeting to order.

Everybody please rise for the pledge.

(The Pledge of Allegiance was recited.)

CHAIRMAN WHITE: Secretary, please call the roll.

MR. BERKHOUT: Bowen.

MEMBER BOWEN: Here.

MR. BERKHOUT: Cameron.

MEMBER CAMERON: Here.

MR. BERKHOUT: Heinrich.

MEMBER HEINRICH: Here.

MR. BERKHOUT: Moga.

MEMBER MOGA: Here.

MR. BERKHOUT: Regan.

MEMBER REGAN: Here.

MR. BERKHOUT: Stover.

MEMBER STOVER: Here.

MR. BERKHOUT: White.

CHAIRMAN WHITE: Present.

We have a quorum for this evening's public hearing.

This is a continuation of the public hearing

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

646

1 on Petition No. 4364. It is a petition for a special  
2 use request in the F Farming District for a private  
3 pay alcoholism and substance abuse treatment  
4 facility. It's located at 41W400 Silver Glen Road  
5 in Section 19 of Campton Hills Township and in  
6 Section 34 of Plato Township, and the petitioner is  
7 Glenwood Academy and Maxxam Partners, LLC.

8 Is the petitioner ready to proceed?

9 MR. KOLB: We have a quick housekeeping  
10 matter. We had prepared and tendered earlier to  
11 Mr. VanKerkhoff and Mr. Kinnally a motion to  
12 withdraw Art Passman as an expert and to clarify the  
13 record regarding his role as an attorney of record  
14 in the case.

15 If you recall, Mr. Passman was retained by  
16 the applicant to provide opinions regarding the  
17 applicability of the Fair Housing Act to this  
18 application, and Mr. Passman was listed as a witness  
19 when, in fact, we intend to offer those opinions as  
20 counsel of record, and there are certain privileges  
21 that apply in the attorney-client relationship that  
22 may be different when an expert is retained.

23 So we want the record to reflect that  
24 Mr. Passman's role is that of counsel of record as

1       opposed to an expert witness and that the law firm  
2       of Holland & Knight so join in that motion I  
3       tendered earlier.

4               So we'd ask the Chairman for ruling on that  
5       issue.

6               CHAIRMAN WHITE: Yes, I will agree to that.

7               MR. KOLB: Then we would like to call our  
8       first witness, Dr. Hendrickson.

9               CHAIRMAN WHITE: And if you would like,  
10       Dr. Hendrickson, we have a witness stand up at the  
11       front here, if you'd please accommodate us.

12               MR. KOLB: We have an exhibit, if I can so  
13       approach.

14               CHAIRMAN WHITE: Yes, you may.

15               I'll need to swear you in, Dr. Hendrickson.  
16       Please raise your right hand.

17               (Witness sworn.)

18               CHAIRMAN WHITE: Thank you. And then please  
19       state your name and your relationship with this  
20       petition for the record.

21               THE WITNESS: My name is Leslie Hendrickson,  
22       and I've been called as an expert witness.

23               CHAIRMAN WHITE: Thank you. You may take  
24       a seat.

LESLIE HENDRICKSON, PhD,

having been duly sworn, testified as follows:

DIRECT EXAMINATION BY COUNSEL FOR THE PETITIONER

BY MR. KOLB:

Q Good evening, Dr. Hendrickson. How are you --  
Dr. Hendrickson.

Could you tell us a little bit about your  
background and professional experience?

A Yes. I have 25 years in the Medicaid  
program, including working in both Oregon and  
New Jersey, and I retired from New Jersey as an  
assistant commissioner in the Department of Health.

I worked for -- after that I worked for  
two years as the revenue services director of  
Maximus Consulting Firm where I went to -- I was  
mailed to a dozen or so states to work on Federal  
costs involving Medicare and Medicaid and including  
a lot of work for state mental hospitals. For the  
last 12 years, I've been an independent consultant.

Q And would you consider yourself an expert  
with respect to -- a site location expert with  
respect to substance abuse treatment facilities?

A Yes, I would. In my consulting work I  
really had two sort of main threads, if you will, or

1 themes of work.

2 First, I've been employed as a subject  
3 matter expert by national research companies, and in  
4 that respect I participated in really large-scale  
5 studies of state health programs: West Virginia,  
6 Oregon, Texas, and this last year in 2015 in Alaska.  
7 And these are studies where a team of people,  
8 three, four folks go to a state, spend two, three,  
9 four months there reviewing records, talking to  
10 providers, talking to State staff and then making  
11 recommendations as to how the mix of programs would  
12 be changed in that state, like where programs need  
13 to be located, for example, or changed.

14 The second thread of my consulting work has  
15 been work on locations of programs, and I've done  
16 some 70 studies on where to locate a program. About  
17 30 of them are in long-term care, assisted living,  
18 dementia programs, nursing homes, and about 40 of  
19 my -- these studies have been behavioral health,  
20 mostly substance abuse.

21 And there are two kinds of studies, one  
22 where folks ask you to look at a given address in  
23 this town or state, and then I attempt to predict  
24 how many people would actually use the service in

1 that location, outpatient, inpatient, detoxification.  
2 And, also, I could be asked to look at a state or  
3 region and to say where would the best place in that  
4 area be to locate a program.

5 Q So before we dive in your experience with  
6 alcoholism and substance abuse treatment facilities  
7 and the work that you have done, can you tell the  
8 Zoning Board of Appeals and the chairman and the  
9 County and the public some of your educational  
10 background?

11 A Yes. I have a bachelor's, a master's, and a  
12 PhD in sociology, and I've just literally done that  
13 all my life. I've just been a sociologist all my  
14 life doing research and studies. So I have a strong  
15 quantitative background in research and statistics.  
16 That's what my doctorate was in, and I just have  
17 done that all my life.

18 Q You're also an honorably discharged marine?

19 A Yes, I am.

20 Q All right. We note that you have -- well,  
21 let me ask you this: In your work in the context of  
22 site analysis, have you had the opportunity to study  
23 the correlation between crime and an alcoholism and  
24 substance abuse facility?

1           A Yes, I have. Because the concern about  
2 crime by the neighbors around a proposed location is  
3 just a common theme. I mean, it occurs literally  
4 every time a particular program is being discussed  
5 in front of a zoning board. So in that context I've  
6 done work on identifying to what extent crime  
7 actually occurs around treatment centers.

8           In fact, I was commissioned to do a study in  
9 2012 by a client who was trying to deal with the  
10 comments from the concerned people about an increase  
11 in crime around a particular proposed program. It's  
12 a very common topic when you're working on locations  
13 of programs.

14           Q How many other studies involving alcoholism  
15 or substance abuse treatment facilities have you  
16 conducted in your career?

17           A I really don't know. I probably have some  
18 70 or 80 publications, and I mentioned some of the  
19 large case studies I've participated in; I've  
20 mentioned the site location work that I do. So it's  
21 really been an extensive background. I just visit a  
22 lot of programs and talk to a lot of people in the  
23 industry. I attend the national conferences on --  
24 like the -- a few years back I went to the opiate

1 treatment center folks, the methadone maintenance  
2 program national conference; twice I've been to their  
3 conferences just learning about their programs and  
4 listening to folks talk about the work that they do.

5 Q Now, we have -- my cocounsel and I have  
6 found very few studies directly on point regarding  
7 the correlation between crime and an alcoholism and  
8 substance abuse treatment facility. You've authored  
9 more than a few that we found, so I'd like to draw  
10 everyone's attention to what is marked as Exhibit J18  
11 and we ask -- which is a report authored by  
12 Dr. Hendrickson and ask that it be admitted into  
13 evidence in this proceeding.

14 MEMBER STOVER: So moved.

15 MEMBER CAMERON: Second.

16 CHAIRMAN WHITE: Moved by Ms. Stover,  
17 seconded by Ms. Cameron. All in favor say aye.

18 (Ayes heard.)

19 CHAIRMAN WHITE: Opposed, same sign.

20 MR. KINNALLY: Mr. Chairman, I think we're  
21 on J19. J18 was already identified in my notes.  
22 That's what I have. It came in through Ms. Diedrich  
23 the last time, so I think we're on 19.

24 MR. KOLB: That's fine. We'll use 19.

1 CHAIRMAN WHITE: That's fine.

2 (Exhibit J19 marked for identification  
3 and retained by the Board.)

4 BY MR. KOLB:

5 Q So I note on page 1 -- this is a summary of  
6 your findings, and I'll just read it and make sure  
7 it still is your summary.

8 Your conclusion of your report it says,  
9 "Studies cited show that there is not a correlation  
10 between crime and the presence of substance abuse  
11 treatment centers." Is that correct?

12 A Yes, it is.

13 Q All right. What's -- what's the context of  
14 this report? Why was it prepared, and for whom,  
15 and when?

16 A It was originally done around 2012. I think  
17 that was the first version of it, and I updated it a  
18 little bit for this hearing by adding a few more  
19 studies that I found. But it was done for a  
20 substance abuse provider in White Plains, New York,  
21 who was proposing a program there and was concerned  
22 about finding some factual way of addressing concerns  
23 of people in the area that there might be increased  
24 crime because of the presence of their residential

1 and their detoxification program.

2 Q And can you go through some of the sources  
3 and data that you qualitatively reviewed for this  
4 report?

5 A Yes. The report is short. It's very  
6 straightforward. I really just identify the studies  
7 and repeat the findings from the studies. So I'm  
8 not really adding much interpretation to them at all.  
9 This is just a literal representation of what's in  
10 the data.

11 These -- in the first part of the paper I  
12 mention the most relevant studies that really  
13 directly discuss substance abuse treatment centers  
14 and the presence of crime. And the reason these are  
15 significant studies is because of the measurement  
16 techniques that are involved.

17 What the focus to do is they do very precise  
18 measurements of where crime is located. So they get  
19 the exact longitude and latitude coordinates of the  
20 crime so they can very accurately put them in a  
21 GPS system. So you know pretty much to the foot or  
22 at least the small micro area where the crime  
23 occurred.

24 So then they take the locations of both

1 treatment centers, as well as a host of other  
2 businesses, bars, sexually-oriented businesses,  
3 convenience stores, retail stores, hospitals, and  
4 they plot the -- they measure the distance from the  
5 crime to each of these various business types.

6 And then they also -- because there's other  
7 variables affecting the incidence of crime such as  
8 the socioeconomics, the SCS levels in the area, they  
9 then measure those factors, as well, and control --  
10 they use regression techniques, and they control  
11 variants to eliminate the impact of those factors,  
12 those other factors and just try to get at what the  
13 relationship is between that particular business and  
14 the location of crime around it.

15 And I think there's some good descriptive  
16 examples in here how the logic works, how the  
17 thinking works, and it's pretty straightforward.  
18 You measure -- if there's a lot of crime immediately  
19 adjacent to the business, you think of it as a crime  
20 center. But if the crime isn't much near the center  
21 but increases as you get farther away, then it isn't  
22 a source of crime, and that's kind of the basic  
23 logic that these studies use. They just do it in a  
24 very sophisticated way with GPS techniques and

1 probability distributions. But the main finding is  
2 that there are really other business types and other  
3 locations that are much higher -- have much higher  
4 probability of crime.

5 Business types include bars, convenience  
6 stores, sexually-oriented businesses. Locations  
7 include things like subway entrances, highway ramps,  
8 bus stops, places where criminals can commit a crime  
9 and then more easily escape like onto the freeway,  
10 or into the subway, or out of the subway.

11 Most of the studies focus on what are called  
12 methadone treatment centers where folks receive some  
13 maintenance dose of methadone or morphine or some  
14 other opiate that isn't heroin that kind of helps  
15 ween them off the heroin addiction.

16 The reason they focused on those is because  
17 there's really more concern theoretically about  
18 those places because they are places where drugs are  
19 actually dispensed, and really the people who go to  
20 them typically have heroin habits or had heroin  
21 habits.

22 So the focus was on those kind of types of  
23 treatment centers because it was felt the problems  
24 of crime might be more severe, more salient, or more

1 likely to occur around them. But you will see there's  
2 at least one study that is shown in Table 1 that  
3 actually broke out types of drug treatment centers,  
4 including outpatient and residential centers, and  
5 found that residential treatment programs is one of  
6 the lowest business types of crime around them.

7 So that was kind of a direct measurement of --  
8 that's probably most relevant to the residential  
9 program that's being considered here.

10 Q So to illustrate your point, it seems to be --  
11 restated in layman's term -- that the SCS factors,  
12 or socioeconomic factors, together with proximity  
13 certain types of business cited in this report such  
14 as businesses that distribute alcohol, halfway  
15 houses, subway station entries, pawn shops, things  
16 like that, definitely show a correlation with  
17 increased crime.

18 But, for instance, the 2011 Taniguchi and  
19 Salvatore study that's cited in your report, you  
20 agree with the conclusion from that document that  
21 when you analyze the data, drug and alcohol  
22 treatment facilities are widely thought to have  
23 negative impacts on the community. However, that  
24 report found that there was no definitive

1 relationship between treatment centers and crime; is  
2 that correct?

3 A Yes, that's correct.

4 Q And then drawing your attention to the  
5 2007 Philadelphia McCord and Lassiter report,  
6 similar correlation between socioeconomic status or  
7 proximity to certain types of business, and that  
8 report, as well, found that drug treatment facilities  
9 of the half dozen or so -- actually, dozen or so uses  
10 that were listed had actually the lowest incidence  
11 of crime; correct?

12 A Correct.

13 Q And just for clarification, when the report  
14 referred to drug treatment centers, were they  
15 limiting their data to just residential inpatient  
16 treatment centers, or were they also looking at  
17 opiate-only or methadone clinics, as well?

18 A Are you talking about the McCord 2007  
19 study --

20 Q Right.

21 A -- or just the studies in general?

22 Q Just in general.

23 A The McCord study was really one of the few  
24 studies that explicitly broke out types of programs.

1 As you see, they dealt with what is called outpatient;  
2 they dealt with combined programs, and then they  
3 dealt with residential programs. They actually  
4 identified three programs, substance abuse treatment  
5 programs.

6 Q So the study didn't filter out the methadone  
7 clinics?

8 A I don't -- not my recollection.

9 Q Tell me how your experience with screening  
10 has helped you understand how these facilities  
11 correlate or don't correlate to crime?

12 A Well, it's not -- so on the one hand I really  
13 relied extensively on pretty much the literal  
14 findings of the research, the national research to  
15 come to a conclusion that really residential programs  
16 really don't have a -- they're not crime-producing  
17 areas; they're not associated with crime. But, also,  
18 just my experience working in the field, visiting  
19 programs, talking to staff, talking to State staff,  
20 going to conferences, there's kind of -- it makes  
21 sense why residential programs aren't associated  
22 with crimes and there's three considerations.

23 First of all, they may not say on their  
24 website or talk about it in their policy documents,

1 but most of the residential programs, when you sit  
2 down and talk to admissions staff or their policy  
3 people, they really screen the applicants coming  
4 into the program. And they -- basically, they  
5 eliminate folks who have violent backgrounds; they  
6 eliminate folks who have a long history of criminal  
7 behavior. They also eliminate folks who have really  
8 serious mental illness. By that I mean you're  
9 hearing voices; you're hearing voices and you have  
10 no medication inherence, so you're really uncontrolled.

11 Those kinds of folks are pretty disruptive  
12 for residential programs because residential  
13 programs try to build a community of users. I mean,  
14 they use peer counseling. These are people who are  
15 going to live together for weeks or months, and they  
16 try to promote a supportive community within that  
17 living arrangement.

18 So the screening tends to screen out the  
19 folks who are going to really continue using drugs.  
20 But, also, a second consideration is the people who  
21 go into treatment are really in the best part of  
22 their cycle. I mean, they're going for treatment;  
23 they're not continuing their addiction. They're  
24 folks who are trying to break out of their

1 addiction. What -- it helps if you understand a  
2 little bit of who they are.

3 Alcoholism is a real problem in our society.  
4 I mean, there's far more alcoholics than there are  
5 drug users. I know some folks call alcohol a drug.  
6 I'm just distinguishing between alcohol and other  
7 kinds of substances.

8 I've been in public meetings where folks  
9 have been asked or the public has been asked, "In  
10 your lifetime, do you know someone who had alcohol  
11 problems?" A lot of people, most people in the room  
12 raised their hands when they're faced with that  
13 question.

14 So in a residential program most of the  
15 people who are going to use it are really alcoholics.  
16 Anywhere from 50, 55, 60 percent of the folks most  
17 likely in residential programs.

18 Of the other folks -- I know the word heroin  
19 addiction is kind of a scary word. I mean, the  
20 image of someone, you know, in the bathroom, you  
21 know, with a needle in their arm is really kind of a  
22 frightening sort of image to people, and it's  
23 certainly a shock when you see it in movies or on  
24 TV. But a lot of people who use this program are

1 really middle class folks, middle-aged folks who got  
2 caught with opiate prescription misuse.

3 One of the best correlations on a county  
4 level in the research literature of opiate use is  
5 the number of doctors in the county because it's  
6 directly tied to the number of prescriptions for  
7 opiate use that are written. These are folks whose  
8 doctors prescribed too much, or too high dosage, or  
9 did it for too long, and folks kept taking it for  
10 too long and got stuck with an addiction.

11 So your residential programs certainly in  
12 the last 5 or 10 years have a lot of those kinds of  
13 folks in them.

14 Q So would you characterize a patient seeking  
15 care at a residential inpatient alcoholism and  
16 substance abuse facility like the one proposed by  
17 the applicant to be in their best stage of the  
18 addiction process?

19 A Yes. It's not a crime-prone population.  
20 Most of the stats show that the more treatment you  
21 go through, really the less problematic behavior:  
22 Fewer divorces, better job retention, fewer crimes,  
23 fewer drunken arrests -- or arrests for drunken  
24 driving. The treatment really does have a lot of

1 impact in a lot of situations on folks.

2 But there's a third consideration I'd like  
3 to mention, and that is the program itself.

4 Residential programs, they typically have a  
5 lot of security; they have cameras; they have  
6 full-time staff; staff knows what's going on in the  
7 facility; they kind of monitor folks pretty  
8 regularly. And you -- you just tend not to have a  
9 lot of untoward incidents within the residential  
10 programs because of just the nature of them as a  
11 program.

12 I did mention earlier the effort to build a  
13 community within programs. That's very common. You  
14 can see that on websites or see that when you talk  
15 to folks. So the actual functioning operation of  
16 the program itself tends to inhibit -- it tends to  
17 inhibit criminal behavior or the desire to be a  
18 criminal.

19 See, because very often in these programs  
20 they take people's cell phones away -- I mean, they  
21 kind of take them out of the old -- you have a  
22 residential program because folks aren't making it  
23 as an outpatient in the community, and you need to  
24 take them out of whatever set of circumstances,

1 friends, triggers that create the addictive behavior.

2 So your residential program tends to isolate  
3 them from those friends, and those triggers, and  
4 those social situations. So just in operation the  
5 program itself has a mitigating effect on whatever  
6 behavior they had before they went into the bathroom.

7 Q So, in your opinion, the screening process  
8 that the facility would undergo with respect to new  
9 patients, combined with the fact that the patient  
10 would be at the best stage of the addiction process  
11 serves to mitigate the likelihood of crime?

12 A Yes.

13 Q I'd like to draw your attention in your  
14 report to the T&M Protection Services study that was  
15 performed. Can you tell me some of the conclusions  
16 you learned through that study?

17 A Well, one of the subsidiary considerations --  
18 I've sat through a bunch of zoning board hearings,  
19 whether nursing homes or assisted living, and one of  
20 the constant concerns is the impact on local public  
21 authorities, hospitals, police department, fire, EMS  
22 squads, and that's always an area which people provide  
23 comment about.

24 So the T&M study was an explicit look at

1 two cites, one in Florida, one in New Jersey, and  
2 really been an exhaustive review of incident logs  
3 and talking enforcement officers trying to see if  
4 there was any change in the use of civic services  
5 when this new program came into place. And it  
6 didn't find there was any.

7 Q Right. One of the conclusions in the report  
8 was there was not a substantial drain on municipal  
9 resources such as police; correct?

10 A Right. And what I noticed -- what I also  
11 noticed -- and I include a reference to the Salem  
12 Patch, which is a Salem, Massachusetts, paper, in  
13 which it cites a Salem area police officer saying  
14 there's no impact because of the treatment program.  
15 That's a kind of typical sort of comment that you  
16 can read in newspaper accounts of these public  
17 discussions in front of zoning boards. You often  
18 see the local police chief or the fire chief coming  
19 in and saying that they don't anticipate any  
20 increase in the need for public services.

21 Where that's -- in my experience, where it's  
22 most salient is really in nursing homes with EMS.  
23 Nursing homes tend to have higher usages of  
24 emergency services for hospital-related, illness-

1 related issues. That's really where the civic drain  
2 or the civic utilization comes from.

3 Q What types of facilities were studied in the  
4 T&M Protection Resource?

5 A My recollection of both were certainly  
6 detoxification with some residential attached to it.

7 Q So there was an outpatient detox component?

8 A No, it was an inpatient detox.

9 Q So what qualifies you, in your opinion, to  
10 be able to analyze the data in these reports in an  
11 effort to author this paper that you had drafted  
12 back in 2012? What's your background with respect  
13 to statistical analysis?

14 A My website you can -- certainly earlier in  
15 my career you can see the kinds of articles that I  
16 coauthored which typically sometimes had more  
17 formulas than words in them.

18 So I guess there's two components in these  
19 studies. First of all, it's the use of GPS  
20 techniques which are really their own and a really  
21 fascinating, interesting field. I use a lot of GPS  
22 work. In my consulting I've got a GPS mapping, a  
23 GIS mapping platform I use; I use streets in  
24 polygons, for example, the same kinds of techniques

1 that you can see talked about in some of these  
2 studies.

3 So I'm familiar, again, with what the GIS  
4 systems can do, and I'm also familiar with the, you  
5 know, regression in variance, and autocollinearity,  
6 and the kinds of statistical analyses that folks do  
7 to try to tease out the impact of one variable while  
8 controlling for others.

9 So it's that combination of technical  
10 interest that makes me read and think about these  
11 kinds of studies as being an authoritative and  
12 reliable work.

13 Q So when Maxxam approached you to act as an  
14 expert witness in this case, you weren't asked to  
15 analyze the specific operations of the specific  
16 applicant's facility; correct?

17 A No. I really was just asked to address the  
18 very narrow question of what research I had done on  
19 crime and substance abuse treatment programs.

20 Q And although you're aware that the applicant's  
21 facility is a residential facility with a detox  
22 component similar to the two facilities studied in  
23 the T&M Protection Resources 2012 report, you really  
24 didn't analyze the actual applicant's proposed

1 operation?

2 A No, I haven't.

3 Q All right. So just generally, as an expert  
4 in the field and based upon your analytics of all  
5 the data that you analyzed in your report, is it  
6 safe to say in your expert opinion to a reasonable  
7 degree of certainty that all the studies you've  
8 cited, which is the body of empirical evidence in  
9 the field show that there is not a correlation  
10 between crime and the presence of a substance abuse  
11 facility?

12 A That's what -- that's what these studies in  
13 plain language kind of clearly say in their  
14 conclusions.

15 And I would note that I came across a  
16 newspaper reporter in the Charleston Gazette who had  
17 done a story in mid-2015 who went through a lot of  
18 the same studies and kind of cited two or three of  
19 the same studies and came to a similar conclusion.

20 So I think that the analysis, the conclusions  
21 that I reached are really reasonable ones, and you  
22 can see other people reviewing the same studies and  
23 coming to the same conclusion.

24 MR. KOLB: Thank you. Nothing further.

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

669

1 CHAIRMAN WHITE: Thank you.

2 Board members have any questions at this time?

3 Ms. Stover.

4 MEMBER STOVER: You did say your doctorate  
5 was in statistics; correct?

6 THE WITNESS: It was in sociology and I  
7 majored in quantitative methods.

8 MEMBER STOVER: Okay. Thank you.

9 CHAIRMAN WHITE: Any other -- Mr. Regan.

10 MEMBER REGAN: The unit we're talking about  
11 changing into an addiction center has eight buildings,  
12 and it's on 125 acres, and there's no fence around  
13 it. Would you -- have you ever analyzed anything  
14 like that?

15 THE WITNESS: No, I haven't. I haven't  
16 analyzed any substance abuse treatment program like  
17 that. I've worked in some developmental centers  
18 which had cottage systems, but I haven't encountered  
19 a substance abuse treatment program with this same  
20 kind of configuration.

21 MEMBER REGAN: Thank you.

22 CHAIRMAN WHITE: Any other Board members  
23 have any questions?

24 (No response.)

1 CHAIRMAN WHITE: County have any questions  
2 at this time?

3 MR. KINNALLY: I do, Mr. Chairman.

4 CHAIRMAN WHITE: Mr. Kinnally.

5 CROSS-EXAMINATION BY COUNSEL FOR THE COUNTY

6 BY MR. KINNALLY:

7 Q You started your work on your report on  
8 January 23rd, isn't it true?

9 A I wrote this report originally in 2012.

10 Q I'm not talking about the original report.  
11 I'm talking about J19 that the lawyers showed you.

12 A Yes.

13 Q Okay.

14 A I spent three to four hours updating sources  
15 and references and checking web links.

16 Q I appreciate that.

17 You started your report on January 23rd,  
18 approximately three days ago; isn't it true, sir?

19 MR. KOLB: Objection.

20 A It's not entirely true. The vast majority  
21 of the report, 95 percent of it was from 2012 and I  
22 just added -- I only added a few updates of some  
23 studies, one on sexually-oriented businesses because  
24 it had a really nice description of the methodology

1 as you study crime -- I mean, it's kind of a nice,  
2 self-contained, kind of clean study of how to think  
3 about that.

4 Q When were you hired by Maxxam?

5 A Late last week.

6 Q And since late last week up until today is  
7 when you completed the report that you've submitted  
8 to the Board here; isn't that true?

9 A Yes.

10 Q Now, why didn't you sign your report?

11 A Why didn't I sign it?

12 Q Right.

13 A I think it has my business logo on the top  
14 of every page.

15 Q I didn't say it didn't. I just asked you  
16 why you didn't sign it.

17 A I believe on the last page of the report I  
18 have my name.

19 Q Okay.

20 A Are you asking me why I didn't like write my  
21 handwriting out? Is that what you're asking, sir?

22 Q No. You know what a signature is. I asked  
23 you whether or not you signed. I wanted to know why  
24 you didn't.

1           A I have my name on the last page, and my name  
2 is on every page of the report.

3           Q Okay. Now, you stated, did you not, that  
4 you did a study in 2012?

5           A Yes.

6           Q Which one is it? Can you point it to me in  
7 your report here?

8           A It's --

9           Q Because I don't see it.

10          A The -- the report that you have was  
11 originally written, a version of it was originally  
12 written in 2012, and then I made some updates to it,  
13 so minor updates to it to -- what I did was I  
14 searched the literature again to see if there was  
15 any more studies since 2012 on the topic, and I also  
16 contacted some of the researchers like Boyd or like  
17 the folks who did the medical marijuana dispensary  
18 study to see if they had done any current work or  
19 they knew of any people who were doing work in  
20 the field.

21                 So the report that you have there is the  
22 2012 report which is rewritten to become an updated  
23 report. I could send a copy of the 2012 report if  
24 you want.

1 Q My question is a lot simpler. You have  
2 indicated in your report that you're asking the  
3 Board to consider various articles that you  
4 reference from 2012, as I understand it, back to  
5 2003, which includes a newspaper article in some  
6 newspaper that you reference as authoritative; isn't  
7 that true?

8 A I'm not sure what your question is.

9 Q Well, let me try a different way.

10 You indicate beginning on page 3 that you  
11 have comments on articles found. Do you see that?

12 A Yes. Right. Okay.

13 Q And those are articles that you assembled  
14 because you believed they were authoritative; true?

15 A Yes.

16 Q And those go back to 2003; is that true, sir?

17 A I'm not sure which 2003 reference you're  
18 talking about.

19 Q It's your report but if you look, it says  
20 Price Waterhouse Coopers report for City of Oshawa.  
21 It's on page 15.

22 A Yes.

23 Q It indicates there are multiple newspaper  
24 accounts back in 2003. Do you see that?

1           A   Yes.  That's certainly not one of the main  
2 reports that I talk about.

3           Q   I didn't say it was.  I just want to get out  
4 the fact these are the things that you referenced --  
5 correct? -- as authoritative.  Yes or no.

6           A   I wouldn't call Price -- I wouldn't call the  
7 reference to Price Waterhouse as one of the  
8 authoritative reports.

9           Q   All right.  My question then is, sir, can  
10 you tell the Board in any of these articles, which  
11 is the article that you wrote in 2012 on this topic?  
12 Because I don't see it in there.

13          A   I'm really not sure I understand what your  
14 question is.

15          Q   Well, sir --

16          A   I've already said that I wrote a report in  
17 2012 and that I changed -- I made slight modifications,  
18 some modifications to that to metamorphose it into  
19 this report.  I could send you a copy of the report  
20 I did in 2012.

21          Q   My point is, sir, you don't reference your  
22 own article on this topic in the articles found as  
23 authoritative; isn't that true?

24          A   Yes, it is correct I do not include my

1 reference to 2012's work in that list of articles.

2 Q And as you sit here today, you don't know  
3 anything about the residential treatment program  
4 that Maxxam Partners has proposed to the Zoning Board;  
5 isn't that a true statement?

6 A I know a little bit about it.

7 Q Okay. And what you know is what somebody  
8 told you; isn't that true?

9 A Well, I did go online and read some newspaper  
10 articles about the Zoning Board hearings.

11 Q Okay. You didn't do any investigation with  
12 respect to the facility; isn't that a fair statement?

13 A No. Nor was I called upon to do that.

14 MR. KINNALLY: Okay. Thank you.

15 I don't have any further questions,  
16 Mr. Chairman.

17 CHAIRMAN WHITE: Thank you.

18 Mr. VanKerkhoff.

19 MR. VAN KERKHOFF: As a point of view  
20 clarification, how many pages are in your report,  
21 sir? I'm only asking because I have only up to  
22 page 15, and it appears to have a sentence that  
23 carries over, so I'm concerned that we don't have a  
24 complete --

1 THE WITNESS: 16 is the last page.

2 MR. KINNALLY: That's the one I didn't have.

3 THE WITNESS: That's probably why he didn't  
4 have the signature on the bottom.

5 MR. VAN KERKHOFF: Counsel, if you could make  
6 sure we get page 16 added to the exhibit, please.

7 THE WITNESS: There's another three lines.

8 CHAIRMAN WHITE: Can you read those lines  
9 for the record? And I'd ask you to begin on page 15  
10 at the beginning of the sentence.

11 THE WITNESS: This was I guess subsidiary  
12 research, and I'm trying to identify discussions of  
13 treatment centers and crime that are available in  
14 the literature. So this is from a New York Times --  
15 this is from a New York Times story.

16 It says, "In fact, Mr. Armstrong noted that  
17 a report prepared by the substance abuse division in  
18 1981 found that a residential drug treatment center  
19 had only a minimal impact on the Long Island  
20 community of Melville. In the three years" --  
21 that's the end of page 15.

22 Beginning of page 16 says -- "before and  
23 after the Alba Neck halfway house opened in Melville  
24 in 1977, the report concluded, 'There's no adverse

1 effects upon real estate values or crime rates in  
2 the community.'"

3 And I would like to add I included all the --  
4 all of the stuff that I found. I didn't cherry pick  
5 anything; I didn't discard a story because it had  
6 one conclusion and I didn't like the conclusion. I  
7 just tried to identify the main empirical studies  
8 and then identify secondarily anything else that I  
9 could find in the literature, newspaper accounts,  
10 whatever.

11 CHAIRMAN WHITE: Okay. Thank you.

12 Mr. VanKerkhoff.

13 MR. VAN KERKHOFF: One more question. I  
14 need to clarify what Mr. Kinnally was trying to  
15 get at.

16 So your exhibit here tonight, J19, is not  
17 really an independent research but really a review  
18 of the literature and your summarizations of your  
19 review of the literature? Would that be a --

20 THE WITNESS: Yes. I didn't go out and do a  
21 separate study of crime around this proposed location.  
22 This is really a review of the national literature.

23 MR. VAN KERKHOFF: Okay. Thank you.

24 MR. KINNALLY: Mr. Chairman, is the

1 applicant or the petitioner going to mark his CV as  
2 J20 just for the record? Because I think you  
3 referenced it.

4 MR. KOLB: We'll do that on redirect.

5 CHAIRMAN WHITE: That'd be fine.

6 MR. KINNALLY: Thank you. Sorry to interrupt.

7 CHAIRMAN WHITE: Mr. Carrara.

8 MR. CARRARA: Thank you, Mr. Chairman, just  
9 a few questions.

10 CROSS-EXAMINATION BY COUNSEL FOR THE APPELLANT

11 BY MR. CARRARA:

12 Q Sir, in your testimony earlier you said  
13 residential rehab facilities are generally safe  
14 because they have a lot of security; is that a fair  
15 statement of what you said?

16 A Yes.

17 Q How many security guards will the Maxxam  
18 facility have?

19 A I don't know.

20 Q Would two security guards, in your mind, be  
21 enough security for a 120-acre facility?

22 A I don't -- I haven't had an opportunity to  
23 study that topic. It would be inappropriate for me  
24 to make a comment on it off the cuff.

1 Q So you're not here opining on safety of  
2 these facilities then?

3 A I'm not here opining on the ratio of  
4 security staff to residents.

5 Q When you were doing your studies and  
6 analysis over the years, I think you mentioned that  
7 a lot of those state studies and the like were based  
8 on needs for the programs. Correct?

9 A Yes.

10 Q Were any of those studies based specifically  
11 on zoning standards and whether residential rehab  
12 facilities fit within the zoning context?

13 A No. That's -- those are legal issues and I --  
14 it's not a -- I've watched enough zoning board  
15 hearings to -- to realize that those are complicated  
16 topics, and they're really best left to zoning board  
17 members and professionals who work on these topics.

18 Q Earlier you were making some reference to a  
19 2007 McCord and Lassiter study.

20 A Yes.

21 Q I think your -- at least what I understood  
22 your takeaway of that to be is it was your opinion  
23 in reviewing that study that residential rehab  
24 facility programs do not bring an increase in crime

1 to the neighborhood. Is that an accurate statement  
2 of what your opinion is?

3 A They were the lowest of the establishments  
4 studied in that study. They had the lowest rates.

5 Q What is the geographic makeup in terms of  
6 the locations of the studies in Philadelphia?

7 A I'd probably have to go back to the original  
8 article and read it to just be sure. Because I  
9 believe it was really the city of Philadelphia and  
10 possibly surrounding suburbs, but I would have to go  
11 back and read exactly what they -- how they defined  
12 Philadelphia, whether it was city limits or whether  
13 it was beyond.

14 These were folks who worked a lot with the  
15 Philadelphia Police Department and were really some  
16 criminologists. They did a whole flurry of study,  
17 various criminological mapping efforts when they  
18 worked with the police department back in this time  
19 period. So I believe it was probably the regions  
20 that were covered by the Philadelphia police  
21 department.

22 Q So is it fair to say that those areas were  
23 probably urban or City of Philadelphia locations?

24 A I don't -- I don't know. It's been a long

1 time since I lived in Philadelphia. I mean, that  
2 did include Germantown which gets pretty, you know,  
3 almost on the edge of the suburbs. It's not entirely  
4 clear to me what -- I don't have a factual way to  
5 answer that question.

6 Clearly Philadelphia is a large urban area  
7 and has a lot of urban in it for sure.

8 Q Let me ask it this way maybe. How many pawn  
9 shops are located near where the Maxxam facility is  
10 to be sited?

11 A I don't know.

12 Q How many beer establishments are located  
13 near the Maxxam facility?

14 A My understanding is that it tends to be --  
15 it's a more rural location and has some expanse of  
16 forest, or woods, or agricultural area around it.  
17 It's not in a densely populated urban area.

18 I don't know if that's true or not. So I  
19 can't really answer your question, sir.

20 Q So, then, do you think it's a fair comparison  
21 to use a study that looked at apparently an urban  
22 environment of Philadelphia that referenced pawn shops,  
23 beer establishments, cash checking stores, subway  
24 stations, homeless shelters, and outpatient and

1 inpatient drug treatment facilities as a comparison  
2 to the location of rural Kane County where the  
3 Maxxam facility wants to be located?

4 A Well, ideally we could -- it would be  
5 wonderful if there were a lot of studies that, you  
6 know, looked at rural, and looked at urban, and  
7 looked at all the various types of businesses that  
8 were in every year. But in terms of the literature  
9 on this topic, crime and treatment centers, it's not  
10 a well-studied topic in the sense you don't find  
11 50 articles or 100 articles on it. So you take what  
12 you have and report on that.

13 Q Is that possibly because a lot of those  
14 facilities are located in more dense, urban areas as  
15 opposed to rural areas?

16 A You mean beer -- beer establishments and  
17 pawn shops?

18 Q No, no, the facilities you were just  
19 mentioning. Drug treatment facilities in general,  
20 you said you couldn't find a lot of studies on them  
21 in the rural environment as compare to the urban  
22 environment.

23 A Folks typically tend to study -- like Boyd's  
24 work on methadone clinics, they tended to study

1 urban areas.

2 Q Let's move ahead. You then moved ahead to  
3 the T&M study, I think. That's a 2012 study from --  
4 that you referenced as -- for call volumes or not an  
5 impact on the local municipalities; is that fair?

6 A Yes.

7 Q The areas that were studied there, Palm Beach  
8 County, is that comparable to Kane County?

9 A I don't know. I haven't studied Kane County,  
10 so I'm not sure. I haven't done maps and the like  
11 looking at population density or socioeconomic  
12 standing. So I'm not sure what the comparability is.

13 Q But we're using the T&M study -- at least  
14 you're trying to use it to support your opinion that  
15 these types of facilities are not a draw on the  
16 municipal resources based on the Palm Beach County  
17 study; correct?

18 A I think I would want to say or characterize  
19 it that the T&M study really made an effort to  
20 accurately measure what the draws on civic resources  
21 were by these treatment centers, and it's just  
22 really hard to find that kind of literature, that  
23 kind of study. So that's why I reported on it.

24 It doesn't -- the Florida site is probably

1 located on the coast. The coast of Florida, if you  
2 look at a population density, it's got a really high  
3 population density right next to the coast and it's  
4 got a -- you don't have to go very far inland before  
5 that population density drops off. So it's kind of  
6 a mixed -- it's kind of a mixed area on the Florida  
7 coast, the mid-south Atlantic coast on down to Miami.

8 The New Jersey site tends to -- is in a --  
9 New Jersey is the most densely populated state in  
10 the country. So it's in an undoubtedly densely  
11 populated area.

12 Q So you'd agree with me that those two examples  
13 of the densely populated areas are dissimilar to the  
14 Kane County area where the Maxxam facility is  
15 proposed to be sited?

16 A I agree that the areas -- I assume your  
17 characterization of Kane County as being rural.

18 Q No, I'm asking you. You would characterize  
19 the location of where the Maxxam facility to be  
20 sited as rural?

21 A I don't know. I just haven't studied the  
22 characteristics of Kane County. I don't know what  
23 the population density is.

24 Q Did you look at an aerial map of where the

1 proposed facility is seated to see what the  
2 surrounding area is?

3 A No, I didn't.

4 Q Okay. Did you look to see whether the  
5 municipal services offered by Palm Beach or by the  
6 New Jersey facility -- what their departments are in  
7 terms of staffing and the tax base that they have to  
8 support their police and fire departments?

9 A No, I didn't. I don't know of any studies  
10 that have looked at rural use -- or the use of  
11 services by rural substance abuse treatment centers  
12 versus urban substance abuse treatment centers. I  
13 don't think those studies exist. I think I would  
14 have found them if they had existed.

15 Q I think Mr. Kinnally asked you earlier, but  
16 did you do any independent study on drug treatment  
17 centers for police or fire call volumes?

18 A No, I haven't done any study like that.

19 Q Is there a number of calls in your mind that  
20 you would think that would start to rise to a level  
21 that would impact a municipality or the fire  
22 protection to service that location?

23 MR. KOLB: Objection; calls for speculation.

24 CHAIRMAN WHITE: I would agree, Mr. Carrara.

1 Q Let me ask you this: If you heard or you  
2 were given an example where an 80-patient drug  
3 treatment facility located in Florida had 205 calls  
4 to the police department over a one-year period,  
5 would you consider those calls to be rising to the  
6 level that it would concern yourself as an expert in  
7 this area?

8 MR. KOLB: Objection; incomplete hypothetical.

9 MR. BROWN: The rationale behind that is  
10 that it could be a mental health facility; it could  
11 be a juvenile facility. Once again, as mentioned  
12 before, it's apples and oranges.

13 If he wishes to put in the full information  
14 as to what that facility is so we can compare it to  
15 the definition of what we are proposing, I would  
16 have no objection to that.

17 MR. CARRARA: I'd be more than happy to  
18 identify the facility. It's the Village Recovery  
19 facility which was a facility that was originally  
20 cited in the Maxxam application as one of their  
21 advisory members being an owner of. It's located in  
22 Oneida, Florida. They have 80 beds -- again, I'm  
23 taking this from the Maxxam application using their  
24 information -- and they had 205 police calls between

1 November 9th, 2014, to November 9th, 2015.

2 MR. BROWN: It still is an incomplete  
3 hypothetical because it did not fully state as to  
4 what the treatment was. That's my point.

5 Just because that was in our application  
6 does not necessarily mean it's the same type of  
7 treatment that's being offered here. And if he  
8 would like to -- so when he throws the question out,  
9 the only thing I ask him to do is that he addresses,  
10 if he knows, what type of treatment was involved.

11 MR. KINNALLY: Mr. Chairman, just a point of  
12 order. This witness has already said he has not  
13 done any of these studies, so I'm not sure where  
14 we're going with this. If he hasn't done any  
15 studies, how can he answer the question?

16 MR. CARRARA: I'm just asking him whether  
17 these numbers would rise to the level of importance  
18 in his mind compared to a study he cited from Palm  
19 Beach County that he's using as a basis that there  
20 isn't a problem on municipal services that had  
21 25 calls and potentially 76 calls. So I'm asking  
22 him to compare 205 calls to the 25 and 76 from his  
23 T&M report he cited in his report.

24 MR. BROWN: It's another backwards way of

1 him trying to get what he didn't have before where  
2 he said it was speculation. It would call for him  
3 to speculate because it's an incomplete hypothetical,  
4 and I won't say anything further on this issue.

5 CHAIRMAN WHITE: Kevin, I'd like you to  
6 move on.

7 MR. CARRARA: Thank you, Mr. Chairman.

8 CHAIRMAN WHITE: Would you like me to come  
9 back to you?

10 MR. CARRARA: If you could, please.

11 Thank you.

12 CHAIRMAN WHITE: Do we have anyone in the  
13 audience representing a unit of government who  
14 wishes to cross-examine the witness?

15 We have Mr. Shepro coming to the stand.

16 Please state your name for the record.

17 MR. SHEPRO: Kenneth Shepro on behalf of the  
18 Fox River Countryside Fire District.

19 CHAIRMAN WHITE: Is the microphone on?

20 MR. SHEPRO: How is that?

21 CHAIRMAN WHITE: That's fine.

22 CROSS-EXAMINATION BY AUDIENCE MEMBER

23 BY MR. SHEPRO:

24 Q Dr. Hendrickson, did you do any original

1 studies or research in reaching the opinions that  
2 you've expressed tonight or in your report?

3 A No. I only did a review of the literature  
4 and what I could find from other subsidiary studies  
5 that were online or that I knew of.

6 Q In your field is there a particular term  
7 that would be used to describe that kind of a report?

8 A That would be called a meta-analysis.

9 Q It's basically a compilation of the  
10 literature that you surveyed?

11 A That's right.

12 Q And you indicated I think that in many of  
13 the areas that you've referenced there was little to  
14 no literature or studies with respect to some of the  
15 questions that you were looking to address.

16 A Yes. The comments by police chiefs and fire  
17 folks are generally anecdotal stuff in newspapers  
18 where the reporter went out and asked the local  
19 officials if they thought there would be an impact.

20 Q As a statistician, what is your opinion with  
21 respect to the use of anecdotal evidence in reaching  
22 statistical conclusions?

23 A Well, kind of like -- I think of it somewhat  
24 in the same way as low sample sizes. Clearly, the

1 larger your sample size, the more -- the less error  
2 you have and the better off you are, but if it all  
3 goes in the same direction or tends to kind of  
4 convey the same results, it's at least worthy to  
5 mention it as a fact that it tends to go in the same  
6 direction. You don't think of it as definitive  
7 proof, but it does sort of add to the factual  
8 background.

9 Q Now, I believe that I have you quoted  
10 correctly here, but I think your testimony was that  
11 you often see fire chiefs come in and say there's no  
12 impact. Do you recall that testimony?

13 A I think -- I think I would say that to the  
14 extent that you can find comments, newspaper  
15 comments or court documents, the prevailing tendency  
16 is for the local public safety officials to believe  
17 or to say that there's little to no impact.

18 Q Now, how many such anecdotal items did you  
19 review either in preparation for your testimony  
20 today or in the previous report that you prepared  
21 back in 2012?

22 A Probably five or six.

23 Q And out of -- from around the country?

24 A Yes.

1 Q And were any of these studies, or were these  
2 newspaper articles?

3 A Those are mostly newspaper articles where  
4 the reporter went out and talked to the local  
5 official.

6 Q With the greatest respect to our fourth  
7 estate, did you actually do any research to  
8 determine the background or circumstances of the  
9 newspaper article and questions that were asked in  
10 the situations?

11 A No.

12 Q Now, I believe in response to Mr. Kolb's  
13 question you stated that you were not asked to  
14 analyze this specific operation, and you did not  
15 analyze the operation that is proposed here.  
16 Correct?

17 A That's correct. In regard to fire activities,  
18 no, I didn't contact the local fire department or  
19 find out how many calls they made to Glenwood Academy  
20 or how many they made to various types of businesses  
21 or establishments.

22 Q And I take it that would also be correct  
23 with respect to any of the other studies of other  
24 facilities in other states. That is to say, you did

1 not contact any local fire officials with respect to  
2 their experiences or call volume?

3 A No. My experience in zoning board hearings  
4 is typically other folks address those kinds of  
5 issues. They actually -- other expert witnesses  
6 tend to deal with those topics.

7 Q Now, I think you also stated that in your  
8 review of these studies there was no correlation  
9 between crime and the presence of a facility. Does  
10 that fairly state what you stated is your opinion?

11 A Basically, they're -- substance abuse  
12 treatment centers are not sources of crime. I mean,  
13 that's -- that's certainly the conclusion that the  
14 various authors -- you could read in their own words  
15 what they say in those studies.

16 Q That statement, obviously, has no relationship  
17 to its impact on other emergency services such as  
18 fire, EMS, et cetera. Would you agree with that?

19 A I'm not sure. Could you please rephrase  
20 your question?

21 Q Sure. The fact that you didn't find a  
22 correlation between the presence of a facility and  
23 incidence of crime doesn't speak to the issue of  
24 whether there's any relationship between the

1 presence of a facility and increased demand for  
2 other emergency services such as emergency medical  
3 or fire?

4 A I certainly can't predict what your fire  
5 district has encountered in the past with similar  
6 establishments.

7 Q In that case it wouldn't be a prediction,  
8 would it; it would simply be looking at the past  
9 history?

10 A Do you have it?

11 Q Well --

12 A I mean, do you have that kind of data?

13 MR. BROWN: My objection would be he has not  
14 opined on that particular issue, and I think it's  
15 fair to say that he doesn't have an opinion, but  
16 he's trying get an opinion on something that --

17 MR. SHEPRO: No, no. I got the answer I was  
18 looking for. He doesn't have an opinion, and he  
19 didn't look at the data.

20 MR. BROWN: Okay. We're in agreement.

21 CHAIRMAN WHITE: You need to wrap up,  
22 Mr. Shepro.

23 Q You indicated, obviously, an ideal situation  
24 would be if there were more studies available, but you

1 indicated that there are not as many as perhaps you  
2 would like to see? Is that a fair characterization  
3 of what you said?

4 A Folks tend to study other business types.

5 Q In your field as a statistician, is a study  
6 entitled to more weight or validity simply because  
7 it might be the only one around?

8 A I think if you have two, or three, or four,  
9 or five that all go in the same direction, then you  
10 tend to give some weight. But, also, you give  
11 weight to really well-done studies, studies that  
12 look like they have really tight methodology that  
13 did a good job of what they were doing.

14 Q What investigation -- I'm sorry. Finish  
15 your answer.

16 A If you get into these studies, some of these  
17 look really good. I mean --

18 Q Well, I want to explore that statement.  
19 When you say some of them "look really good," how  
20 did you determine that?

21 A Oh, they used very careful measurement of  
22 crime, locations of crime. It's very quantitative.  
23 You've got -- the theoretical discussion of results  
24 show that they tended to control for significant

1 confounding factors; they generally draw reasonable  
2 conclusions; they don't try to overstate what they  
3 found or understate it. They seem to have high-  
4 quality work.

5 Q Now, again, you use words like "seem to."  
6 How did you determine that their conclusions were  
7 reasonable or that they seem to be reasonable?

8 A Well, I think you have to look at one, do  
9 folks have a good theoretical accounting of what  
10 they're doing. I mean, do they begin their research  
11 with a statement of what the problem is and why  
12 they're using the particular techniques and  
13 methodology that they're using?

14 Then you look at how thorough the  
15 application of that methodology was. You make  
16 judgments as to whether or not it carefully captured  
17 the data that they were attempting to measure. You  
18 try to look at the techniques they use to sort the  
19 results out, and you look at how they report the  
20 results. Were they stretching; were they not?

21 And I guess I would just like to say that  
22 I've been -- I'm 74 years old. I've been a PhD  
23 sociologist since I was 30 years old. That is all  
24 I've done for the last 44 years is really sociology,

1 doing reports, reading reports, talking about  
2 reports, and after that time you get some sense of  
3 whether you've got a study that has merits versus a  
4 study that is interesting but may not be as valuable.

5 Q And you feel comfortable expressing an  
6 opinion on a study that you did not yourself do but  
7 merely read?

8 A Yes, I do.

9 MR. SHEPRO: Okay. I have nothing further.  
10 Thank you.

11 CHAIRMAN WHITE: Thank you.

12 I saw another individual get up. Please  
13 come forward and limit your response to questions to  
14 the witness and please state your name for the record.

15 MR. JOHANSEN: Richard Johansen, Campton  
16 Township clerk. Are you going to swear me?

17 CHAIRMAN WHITE: Are you going to submit an  
18 opinion or just asking questions?

19 MR. JOHANSEN: No, I'm going to ask questions.

20 CHAIRMAN WHITE: Just ask questions, please.

21 CROSS-EXAMINATION BY AUDIENCE MEMBER

22 BY MR. JOHANSEN:

23 Q Does correlation and statistics mean  
24 causation, or is it an association with one thing

1 with another?

2 A Well, it's association of one thing with  
3 another. I mean, in its purest, simplest form  
4 that's what it is. But there are ways of getting  
5 it -- of minimizing the purely correlative aspects  
6 and trying to get more into what might have some  
7 determinative impact.

8 Q So if no crime association with an alcohol  
9 rehab center and crime association with a bar in the  
10 neighborhood, you can't say the rehab center or the  
11 bar causes or does not cause crime; is that correct?

12 A Correct.

13 Q Thank you. So correlation in statistics is  
14 not causation.

15 You haven't studied facilities like the one  
16 proposed here; is that your testimony?

17 A No, that's not my testimony. I have  
18 actually done a lot of work with both detoxification  
19 programs and residential programs. My testimony has  
20 been that I haven't studied the particular program  
21 here in Kane County.

22 Q Thank you.

23 If there is no crime to worry about with  
24 this facility, why are there cameras, pass keys, an

1 invisible fence, and guards around this proposed  
2 facility?

3 MR. KOLB: Objection; scope.

4 MR. BROWN: We'll withdraw it.

5 CHAIRMAN WHITE: Go ahead and answer the  
6 question if you so desire.

7 A I haven't asked the sponsors of the project  
8 what they do for their design considerations, but it  
9 is fairly commonplace in -- in just about all phases  
10 of our public life now to have cameras and security  
11 guards, whether it's this building or whether it's  
12 residential programs or detox programs. I think  
13 it's a fact of life. We live in an age, in a day  
14 when multiple cameras track our progress every day.

15 MR. JOHANSEN: Thank you.

16 CHAIRMAN WHITE: Is there anyone else wishing  
17 to come forward?

18 Mr. Blecker, please state your name for the  
19 record and your position.

20 MR. BLECKER: Harry Blecker, B-l-e-c-k-e-r,  
21 president of the Village of Campton Hills.

22 CROSS-EXAMINATION BY AUDIENCE MEMBER

23 BY MR. BLECKER:

24 Q In your research in Pennsylvania,

1 Philadelphia, New Jersey, and Florida, did you take  
2 into consideration the size of the police force in  
3 those areas?

4 A No.

5 Q Have you studied the size of the police  
6 force in the proposed facility?

7 MR. KOLB: Asked and answered.

8 A No.

9 Q You have not. All right. Would the size of  
10 the police force have a direct impact on the village  
11 or on the community?

12 Let's say Philadelphia, which probably has a  
13 fairly large police force, and the Village of  
14 Campton Hills and the County of Kane which have a  
15 very limited police force -- in fact, the Village of  
16 Campton Hills only has two police officers on duty  
17 at any time, and I'm not familiar with how many  
18 officers the sheriff's department has, but there are  
19 not that many in the area. Would that make a  
20 difference in your opinion as to impact?

21 A Excuse me, sir. I'm not -- could you redo  
22 the question?

23 Q Let me try to put it another way. I'm not  
24 an attorney. So let me see what I can do.

1           If you have 10 calls in an area, and you  
2           have 50 policemen on the street versus the Village  
3           of Campton Hills which has 2 police officers, would  
4           the same 10 calls make a difference on impact in the  
5           village and the facility's resources?

6           A I think you're asking a general question  
7           here. The same volume of calls would have a greater  
8           impact on a small police department or a fire  
9           department or call center than a larger staffed  
10          organization.

11          Q Have you taken that into consideration when  
12          you made these reports saying that the impact was  
13          minimal?

14          A I haven't tried to claim a particular impact  
15          on this residential program or on your police  
16          department. All I'm doing is reviewing the literature  
17          on impact and recounting what I have found in that  
18          literature search.

19          Q Has any of the literature that you researched  
20          looked at that disparity of impact?

21          A By area of impact, you mean on a two-person  
22          police force?

23          Q Versus a large city that would have many,  
24          many people on the police force?

1           A   No.  I don't know of any work that has tried  
2           to correlate or look at the impact of substance  
3           abuse treatment programs on townships with different  
4           sizes of police forces.

5           Q   Would you consider that to be important,  
6           though?

7           MR. BROWN:  Actually, his testimony has been  
8           the impact of criminal activity, not the impact it  
9           would have to the police forces.  So that would be  
10          beyond the scope of the opinions he's been giving  
11          here today just for purposes of -- he's brought for  
12          that limited purpose as to -- I mean, there's this  
13          incident that there's crime created because of these  
14          things being here.  He's opined on that.  This would  
15          be beyond the scope of his expertise.

16          MR. BLECKER:  Doesn't criminal activity have  
17          a direct impact on police protection?

18          CHAIRMAN WHITE:  Can you state a question  
19          that you're trying to drive at here?

20          MR. BLECKER:  I'm just trying to get to the  
21          point where there's no study saying even if it's  
22          minimal criminal activity that it's not an impact on  
23          a very, very limited police force.

24          CHAIRMAN WHITE:  Dr. Hendrickson, can you

1 answer that? Do any studies exist?

2 THE WITNESS: If you only have two persons  
3 on your police force, literally anything that goes  
4 on, whether it's a drunk in the streets or lost dogs  
5 has an impact on the two people. I mean, I'm not  
6 sure that there are -- you have a lot of current  
7 impacts on the two people on your police force now.

8 CHAIRMAN WHITE: We do need to move on  
9 because we are exceeding the scope of this witness.

10 BY MR. BLECKER:

11 Q What you're saying to me is even if we have  
12 one incident, it's a major impact because we only  
13 have -- let me clarify. It's not a two-man police  
14 force; we have two men on each shift, and we have  
15 all 24 hours.

16 A I'm not saying -- I didn't use the word  
17 "major."

18 MR. BLECKER: Thank you.

19 CHAIRMAN WHITE: You're welcome.

20 I'll allow one question. Come forward,  
21 please, and keep your cross-examination to the  
22 witness and what he's testified to, please. State  
23 your name for the record.

24 MR. PALACIOS: Elias Palacios.

1 CHAIRMAN WHITE: Thank you.

2 CROSS-EXAMINATION BY AUDIENCE MEMBER

3 BY MR. PALACIOS:

4 Q Dr. Hendrickson, I'm going to give you a  
5 background quickly within 60 seconds and then get  
6 the question.

7 The thing is -- you reviewed studies which  
8 is inpatient in detox facilities, and the thing is  
9 you're saying the screening, the screening is very  
10 important because they're not going to mix substance  
11 abuse patients, mental illness, or maybe other  
12 problems. And then in my experience over 20 years  
13 working in the clinical field in substance abuse  
14 mental illness and I saw --

15 MR. BROWN: Objection -- excuse me. This is  
16 not a question.

17 CHAIRMAN WHITE: You do need to come to a  
18 question.

19 MR. PALACIOS: Yes. I'm giving the  
20 background in order to formulate a question.

21 CHAIRMAN WHITE: Just ask the question.

22 BY MR. PALACIOS:

23 Q The question is, how do you know this  
24 proposed facility will differentiate or screen the

1 mentally ill person with substance abuse and  
2 personality disorders such as antisocial personality,  
3 narcissistic personality disorder and they did have  
4 a lot of problems with substance abuse?

5 MR. BROWN: He's already testified that he  
6 does not have any opinions concerning that because  
7 he's not reviewed that. We would stipulate to that.

8 CHAIRMAN WHITE: He's not involved in the  
9 operation of the facility and how they're going to  
10 operate it, but he has made statements to the effect  
11 of other facilities and how that changes within those  
12 facilities. So unless you have another question --

13 BY MR. PALACIOS:

14 Q You did review. And then did you review  
15 follow-up studies of the discharge of this facility,  
16 three months, six months, one year, or two years  
17 follow-up studies regarding crimes or relapse?

18 A Not -- if I understand your question, you're  
19 asking about a particular facility?

20 Q One of the facilities that you reviewed.

21 A In general, the literature shows that folks  
22 who have more treatment or longer periods of treatment  
23 tend to have better effects, more abstinence, higher  
24 rates of employment, better marital results, better

1 school retention. I mean, you asked about experiences  
2 subsequent to treatment and if the treatment made an  
3 effect on people I think.

4 Q Crimes in order to --

5 A In general, the literature shows that the  
6 treatment does make an effect. For example, I  
7 reviewed a lot of -- each state has to report  
8 national outcome measures to SAMHSA, the Federal  
9 Substance Abuse and Mental Health Agency, as part of  
10 their state reporting. And I've gone through a lot  
11 of those state reports, and they do contain  
12 performance measures like that. The typical state  
13 performance record shows that with more treatment  
14 you get folks with better results.

15 CHAIRMAN WHITE: Thank you for your questions.

16 I'm going to turn to Mr. Carrara. Did you  
17 have any other questions of this witness?

18 MR. CARRARA: I don't at this time. The  
19 only thing I would ask, my exhibit ends at page 13,  
20 so apparently I have even less than the others. So  
21 if I could just get a complete one at some point,  
22 I'd appreciate it. Thank you.

23 CHAIRMAN WHITE: Mr. Kinnally, or any Board  
24 members have any questions of this witness?

1 (No response.)

2 CHAIRMAN WHITE: I'll allow one quick question.  
3 I've identified this gentleman to my left, sir.

4 Please state your name and your petition  
5 affiliation.

6 MR. TYRRELL: Mike Tyrrell, T-y-r-r-e-l-l,  
7 Village of Campton Hills trustee.

8 CROSS-EXAMINATION BY AUDIENCE MEMBER

9 BY MR. TYRRELL:

10 Q Doctor, thank you for being here.

11 If I heard correctly in your testimony, your  
12 submission was a compilation of various resources  
13 and not your independent study; is that correct?

14 A That's correct.

15 Q And in that compilation you cited a number  
16 of sources, which included past studies, independent  
17 studies, newspapers, and online was your specific.

18 Sir, are you aware that both the attorney  
19 for the petitioner and the Board has discounted and  
20 rejected online submissions as testimony?

21 A No, I'm not aware of that, but I certainly  
22 don't give as much weight to that as I do the  
23 articles that are refereed journals that are the  
24 main focus of the report.

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

707

1 MR. TYRRELL: Thank you very much.

2 CHAIRMAN WHITE: I'll allow this gentleman  
3 to come forward. We really do need to move on, so  
4 please make it quick and state your name.

5 MR. CAPPELL: My name is Charles Cappell,  
6 C-a-p-p-e-l-l.

7 CHAIRMAN WHITE: Do you represent a unit of  
8 government?

9 MR. CAPPELL: I do not.

10 CHAIRMAN WHITE: So you're a citizen of --

11 MR. CAPPELL: Campton.

12 MR. CAPPELL: I'll need to swear you in,  
13 then. Please raise your right hand.

14 (Witness sworn.)

15 CHAIRMAN WHITE: Please state your address  
16 for the record.

17 MR. CAPPELL: 6N812 Longacre Drive.

18 CHAIRMAN WHITE: And approximately how close  
19 to this facility are you?

20 MR. CAPPELL: About 4/10ths of a mile.

21 CHAIRMAN WHITE: Thank you.

22 CROSS-EXAMINATION BY AUDIENCE MEMBER

23 BY MR. CAPPELL:

24 Q Your report which we have not seen is a

1 meta-analysis. So could you give me a description  
2 of the standards used to conduct a valid meta-analysis  
3 that is accepted in medical journals? For example,  
4 how many articles need to be reviewed for the  
5 meta-analysis to be considered valid?

6 A In medical journals?

7 Q In general, in meta-analysis, whether it's  
8 educational research or whether it's in medical  
9 research, there's a number of second-level units,  
10 articles, that need to be included to be able to  
11 reach valid statistical analysis.

12 A The meta-analysis I read, the numbers are  
13 really all over the place. You're really stuck with  
14 what the universe of articles are.

15 I can tell you how I found the articles that  
16 I worked on.

17 Q That's part of it. I want to know, how many  
18 articles in total did you collect to analyze?

19 A Probably -- you know, I don't know. I  
20 probably maybe -- you know, I'm really not sure  
21 because I did Pub Med, I did a National Institutes  
22 of Health search through the library, and, basically,  
23 I grabbed everything that looked reasonably relevant.

24 It's -- you can't do 100 articles if folks

1 haven't written 100 articles. I mean, you're really  
2 stuck with whatever the volume of literature is that  
3 you can find through your -- in these large  
4 bibliographical databases.

5 Q So that's what I want to know is, how many  
6 articles did you screen; how many did you include in  
7 your final analysis? And when you described your  
8 research as meta-analysis, there is a statistical  
9 procedure that is called meta-analysis, and it  
10 creates all of the correlations; it creates air  
11 boundaries around all of them, and it really does  
12 statistically summarize what this correlation effect  
13 is. I want to know if your paper was an qualitative  
14 meta-analysis or whether it was a statistical  
15 meta-analysis and how many articles were included.

16 A There were no correlation matrices in all of  
17 the studies to compare the cross studies.

18 So if you have -- if you've got studies of  
19 correlations and correlation matrices, then you can  
20 compare those matrices, and you can combine them and  
21 do averages and ranges of correlations, assuming  
22 they all study the same variable, but the literature  
23 in this field doesn't enable you to do that. I  
24 mean, it's not the same.

1           And I can't really -- I can't -- I can  
2 describe the literature sources I went to but I  
3 really -- I honestly can't tell you how many  
4 articles I looked at and rejected. For example, on  
5 each of these authors, on each of the authors that  
6 I've looked at in here I tracked them as to what  
7 they were doing now and I -- and those are like  
8 universities often have their résumé and their  
9 publications, so I went through what they have  
10 done since they did this, and I looked at those  
11 studies.

12           You go through a lot of studies to find the  
13 ones that you finally use, but the ones that I use  
14 you can count in the report here.

15           Q If you were describing what you did to  
16 another quantitative sociologist with a PhD in  
17 statistical sociology, would you describe this as a  
18 technical quantitative meta-analysis with high  
19 validity about the size and magnitude of correlation  
20 between crime and location?

21           A I'd probably talk about how great the  
22 analyses in the studies were, the GPS stuff that  
23 controls for all the correlations, and that's the  
24 stuff I would talk about.

1           It's the quality of the individual studies  
2 that are done, not the quantity of studies that you  
3 could find.

4           I mean, clearly -- you know, some fields  
5 have 50 or 100 studies, and you can do endless kinds  
6 of comparisons among all the studies. If you're  
7 stuck with a smaller number of studies, you're  
8 really limited in what you can quantitatively  
9 categorize and compare these studies on.

10           MR. CAPPELL: So I conclude from that that you  
11 did not do a quantitative statistical meta-analysis;  
12 you did a, quote, "rigorous qualitative analysis" of  
13 the statistical validity of each individual study.

14           And to the Board members, those kinds of  
15 meta-analysis have far less validity --

16           MR. BROWN: Objection --

17           MR. CAPPELL: -- under vigorous statistical  
18 analysis that includes mean studies.

19           CHAIRMAN WHITE: Thank you.

20           (Applause.)

21           CHAIRMAN WHITE: I'd ask you to curtail your  
22 applause.

23           Any other questions from Board members?

24           (No response.)

1 CHAIRMAN WHITE: We're going to take a short  
2 break at this time then -- I'm sorry -- the petitioner  
3 would like to redirect at this time. Go ahead.

4 REDIRECT EXAMINATION BY COUNSEL FOR THE PETITIONER  
5 BY MR. KOLB:

6 Q You're under oath here today?

7 A Yes.

8 Q And you stand by the report in front of you?

9 A Yes.

10 Q And your 2012 report is essentially the same  
11 report that was admitted into evidence subject to a  
12 few updates; correct?

13 A That's correct.

14 Q And the updates, can you detail those very  
15 quickly again?

16 A Yes, I can. I added -- I added the McCord  
17 article from 2014. McCord was one of the original  
18 authors in 2012, and he published a really interesting  
19 article on crime around sexually-oriented businesses  
20 in Louisville, Kentucky, and it didn't involve a  
21 substance abuse treatment center, but I thought it  
22 was relevant because it was a clean example of what  
23 a crime association around a business type looks  
24 like when there's, in fact, an association between

1 crime and that business type.

2 Q In all of your research and all of your  
3 data, in your capacity of reaching statistical  
4 conclusions, were you able to uncover any studies  
5 including alcohol and substance abuse treatment  
6 facilities located in rural areas?

7 A No, not explicitly. This is a Biwater --  
8 this is a Biwater in both criminology as well as  
9 substance abuse treatment. It's not -- other areas  
10 of substance abuse treatment really such as treatment  
11 outcomes, or types of pharmaceuticals given, or  
12 attempted differential effects between outpatient  
13 and inpatient programs, that's really where you get  
14 the dozens and dozens of studies coming in.

15 Q Your conclusion that there's no correlation  
16 between crime and these types of facilities, did you  
17 prepare that opinion specifically for the applicant  
18 tonight?

19 A No, I came to it years ago.

20 Q And nothing in your report that you submitted  
21 tonight changes substantively from that overall  
22 conclusion --

23 A No --

24 Q -- just adds additional data to support that

1 conclusion; correct?

2 A -- no.

3 Q All right. We had a question before about  
4 security, if there's no correlation between crime  
5 and these types of facilities, why would we need  
6 security such as security guards in place.

7 Wouldn't it be your opinion that security  
8 measures like the ones proposed by the applicant to  
9 have staff and a security system serve to mitigate  
10 crime?

11 A Well, it does serve to mitigate crime. But,  
12 you know, you could have insurance requirements; you  
13 could have deals cut with the local police force  
14 that they want security at the site so they don't  
15 have to provide security at the site. I mean, there  
16 could be a lot of reasons why you put security.

17 And I also think that, unfortunately, we  
18 live in a society that is now simply more security  
19 conscious, and people routinely incur the costs of  
20 having more security rather than less security. So  
21 I think to some extent it's kind of where we are as  
22 a culture and a people right now is to put in all  
23 these security measures in places even if sometimes  
24 you may not think they're necessary.

1           Q We all understand that you weren't hired, or  
2 retained, or brought into this to analyze the  
3 applicant's facility, to analyze the impact upon  
4 local traffic, the impact upon local police, the  
5 impact upon local fire protection districts; you were  
6 brought in to give an opinion, and expert opinion  
7 that there's no correlation between crime and the  
8 type of facility the applicant is proposing, and you  
9 base that opinion upon all of your exhaustive review  
10 of the literature and resources available to you  
11 over the course of years; is that a safe statement?

12           A Well, I did work in 2012, and I did a little  
13 bit of work this year but it -- I guess in the  
14 interval it would be fair to say that I kept my eye  
15 out on this kind of literature, and I just haven't  
16 seen -- I subscribe to various journals. I mean, I  
17 just haven't seen a lot of work or studies in this  
18 regard. There's not -- it's a hard topic to get  
19 data on, good data.

20           Q You stand by your opinion today that there's  
21 no correlation --

22           A Yes, I do. What would change my opinion is  
23 finding three or four good studies where people found  
24 the reverse.

1           And I'm just basing this on what's in the  
2 data. I'm not adding anything to it; I'm not  
3 embellishing it. This is simply what the research  
4 literature is showing --

5           Q Thank you.

6           A -- and that's it.

7           (Witness excused.)

8           CHAIRMAN WHITE: We'll break for the recess  
9 at this time. I have 8:32. So about 10 minutes,  
10 so 8:45, thereabouts.

11           (Recess taken, 8:32 p.m. to 8:49 p.m.)

12           CHAIRMAN WHITE: We're going to go ahead and  
13 call the hearing back to order. Everybody please  
14 take your seats. We have some business to take care  
15 of before we begin hearing from this witness.

16           There's been some documents presented to the  
17 Board, and the Board has not moved to accept them  
18 into the record. We have one that was submitted by  
19 Mr. Carrara, an A9, and then we had a report that  
20 came from the public that we're going to label as P1.

21           (Exhibit P1 marked for identification and  
22 retained by the Board.)

23           CHAIRMAN WHITE: I would ask for a motion to --

24           MEMBER BOWEN: So moved, Mr. Chairman.

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

717

1 CHAIRMAN WHITE: Moved by Mr. Bowen,  
2 seconded by Mr. Regan. All those in favor say aye.

3 (Ayes heard.)

4 CHAIRMAN WHITE: Opposed, same sign.  
5 Motion carries.

6 Go ahead and begin with your next witness.

7 MR. KINNALLY: Just a point of order. With  
8 respect to P1, that's the certified FOIA request of  
9 January 21st, 2016, which was requested of the  
10 Village of Woodridge. I just wanted to make that  
11 clear for the record with your permission.

12 CHAIRMAN WHITE: Thank you.

13 Go ahead.

14 MR. KOLB: For the record we'd like to move  
15 to admit Exhibits J21 and J22, which were respectively  
16 Dr. Hendrickson's report and his curriculum vitae.

17 CHAIRMAN WHITE: I thought we labeled those  
18 differently.

19 MR. KINNALLY: That's incorrect. They're  
20 labeled J19 and J20.

21 (Exhibit J20 marked for identification  
22 and retained by the Board.)

23 CHAIRMAN WHITE: I thought we moved on those  
24 already. We did. We had a motion to accept those

1 in the testimony.

2 MR. KOLB: And I have another exhibit I'll  
3 pass out which will be J21 for the record.

4 (Exhibit J21 marked for identification  
5 and retained by the Board.)

6 MR. KOLB: We call Mike MaRous.

7 (Witness sworn.)

8 CHAIRMAN WHITE: Please state your name and  
9 your relationship to this petition for the record.

10 THE WITNESS: My name is Michael S. MaRous.  
11 I have provided consultation and a report in regards  
12 to the proposed project in regard to the value impact  
13 of the proposed project and have testified, I believe  
14 a week ago tonight in regard to my report and its  
15 conclusions.

16 MICHAEL S. MA ROUS,  
17 having been duly sworn, testified as follows:

18 DIRECT EXAMINATION BY COUNSEL FOR THE PETITIONER  
19 BY MR. KOLB:

20 Q So, Michael, we had called you as an expert  
21 witness last week to testify, in essence, that the  
22 proposed alcoholism and substance abuse treatment  
23 facility does not have a substantial negative impact  
24 upon property values in the surrounding area amongst

1 other opinions you gave. Correct?

2 A That is correct.

3 Q Now, since the time you testified last week,  
4 in today's testimony the Zoning Board of Appeals  
5 chairman and the County has requested that you  
6 review documents called "Not In My Back Yard, The  
7 Effect of Substance Abuse Treatment Centers on  
8 Property Values."

9 Did you review that document?

10 A I did.

11 Q All right. Now, the basis, I believe, of  
12 the Zoning Board's request that you review this  
13 document centers around the conclusion that is found  
14 on page 1 of that document that, in essence, states  
15 that the report finds that a neighboring treatment  
16 center is associated with an 8 percent reduction in  
17 nearby home prices.

18 Do you recall seeing that conclusion to this  
19 report?

20 A I did.

21 Q And the Zoning Board of Appeals and County,  
22 and I assume Mr. Carrara, as well, since his expert,  
23 Mr. Waller, coauthored this report, would like your  
24 opinions as to the findings in this report. So I'd

1 like to ask you a series of questions regarding  
2 those opinions.

3 A Understood.

4 CHAIRMAN WHITE: And if I could ask you  
5 again to get right into the mic, Mr. MaRous.  
6 Thank you.

7 Q So as a preliminary matter, drawing your  
8 attention, Mr. MaRous, to page 66 of the report,  
9 I'll read from the bottom: "The Fair Housing Act  
10 was designed to prohibit discrimination in housing.  
11 In 1988 the Fair Housing Act was amended to include  
12 persons with handicaps to protect classes under the  
13 FHA. The definition of handicapped under the Fair  
14 Housing Act is very broad, and drug addiction and  
15 alcoholism are considered to be disabilities that  
16 are covered. The Fair Housing Act also has a  
17 provision that permits the exclusion of those whose  
18 tendencies would constitute direct threats to safety  
19 of others."

20 Reading on, on page 67, first paragraph --  
21 first full paragraph, "The FHA covers almost every  
22 aspect of a real estate transaction, and according  
23 to the Act, it is illegal to discriminate in the  
24 sale or rental of a dwelling against a person with a

1       disability."

2               Do you have any reason to challenge the  
3       notion that's in this article regarding the  
4       application of this act?

5               A   No.

6               Q   You and I have pointed out some pretty  
7       fundamental flaws with this report.  I'd like to go  
8       into those flaws carefully and slowly so everyone  
9       can kind of understand exactly where we're going.

10              Drawing your attention to page 74 of the  
11      report, is it not true that of the 36 facilities  
12      studied in this report, half, approximately 16,  
13      involved opiate-only or methadone clinics?

14              A   Correct.

15              Q   So the remaining half of the clinics then  
16      must be inpatient facilities such as the one  
17      proposed by the applicant; correct?

18              A   Or hospital treatment, correct.

19              Q   All right.  And you recall in the course of  
20      your attendance at prior hearings Exhibit J15 wherein  
21      the applicant introduced a letter by Trina Diedrich  
22      of the IDHS indicating specifically that the State  
23      has made a finding that the applicant's facility is  
24      exceptionally different from a methadone clinic;

1 correct?

2 A Yes. I was here for that testimony.

3 Q All right. So if 36 facilities treated --  
4 50 percent were methadone clinics, would it be safe  
5 to say that only half the facilities cited in this  
6 report are similar to the applicant's?

7 A Simple math, yes.

8 Q Okay. And drawing your attention to page 80,  
9 there's a chart with some qualitative data in this  
10 report, is there not?

11 A Yes, there is.

12 Q And I see from the top left-hand corner that  
13 their appears to be with respect to all 36 facilities  
14 studied an overall 8 percent decrease in property  
15 values. I think the figure they use is .077, which  
16 I assume they round up to the tune of 8 percent.  
17 Correct?

18 A That would appear to be my conclusion, yes.

19 Q But looking at the line directly underneath  
20 that, I see that when the report addresses only  
21 methadone clinics, opiate-only clinics, the  
22 disparate impact is far greater. It's a negative  
23 17 percent. In fact, it's 17.4 percent negative;  
24 correct?

1 A Yes.

2 Q Okay. So if the 50 percent of the 36 clinics  
3 study pulled the values down by 17 percent, in order  
4 to reach an 8 percent aggregate it would mean that  
5 the remaining half of the facility similar to the  
6 applicant's had what kind of effect on property  
7 values?

8 A Basically, zero. Or, actually, again,  
9 simple algebra, it would be plus 1 percent.

10 Q So although it's Mr. Carrara's expert who  
11 authored this report, would you say that it's safe  
12 to assume that this report actually supports the  
13 notion that facilities like the applicant's  
14 facility, a residential inpatient alcoholism and  
15 substance abuse treatment facility actually has no  
16 negative impact upon property values?

17 A Based on this portion of the study, correct.

18 Q We all know that the standard on a special  
19 use is that a special use -- and this is what the  
20 Board is to consider, all of you as we go forward  
21 and what the applicant's standard is to be able to  
22 submit evidence to satisfy, is that the special use,  
23 quote, "will not be injurious to the use and  
24 enjoyment of other property in the vicinity nor

1 substantially diminish or impair property values in  
2 the neighborhood."

3 Is it safe to say, Michael, that a positive  
4 1 percent increase or no increase at all certainly  
5 doesn't rise to the level, or in this case alter the  
6 level of, quote, "substantially diminishing or  
7 impairing property values"?

8 A Absolutely not.

9 Q Do you recall the other flaws that we  
10 discussed in this report that actually support our  
11 positions?

12 A Yes, I do.

13 Q Okay. Specifically, is it not true that the  
14 report studied only properties -- let me  
15 recharacterize this -- within 1/8th mile radius  
16 where the Maxxam site takes place, there were no  
17 homes present in our proposed site; is that not  
18 correct?

19 A That's correct. The closest -- 1/8th of a  
20 mile is about 660 feet. The closest home to the  
21 subject facility is the large home that sits on  
22 about 39 acres to the north of the property that's  
23 about 700 feet away. Most of the other homes going  
24 east, west, and south are significantly farther

1 than that.

2 Q In fact, drawing your attention to page 89,  
3 let's look at some of the assumption that this  
4 report makes that the County asked us to address.

5 The second paragraph says, "There were  
6 approximately 153, 96, and 60 properties listed  
7 within .175 miles, .15 miles, and .125 miles of the  
8 rehab treatment facility respectively over the  
9 period of time of our study."

10 So is it safe to say, simply put, that in  
11 this study there were 60 homes within 1/8th of a  
12 mile of the subject facility?

13 A Yes.

14 Q And in our case the situation is very  
15 different; we have no homes within 1/8th of a mile;  
16 correct?

17 A That's correct.

18 Q In fact, the nearest home is Mr. Carrara's  
19 client's home; is that correct?

20 A I don't know who Mr. Carrara's client is,  
21 but I'll take your word for it. It's the large  
22 house to the north.

23 Q So if 1/8th of a mile is approximately  
24 660 feet, is it not true that the nearest home is

1 actually 750 feet away?

2 A Approximately, yes.

3 Q So the report really in the 1/8th of a mile  
4 radius that surrounds the proposed facility where  
5 the maximum impact takes place studied higher  
6 density residential uses, 60 homes in that little  
7 radius of an eighth of a mile?

8 A Correct. Basically, everything that would  
9 pertain to the subject example would fall outside  
10 of it.

11 Q In this area in rural Kane County, we have  
12 no houses within an eighth of a mile?

13 A That's correct.

14 Q So we have two fundamental flaws in this  
15 report. The first is the flaw that you had just  
16 mentioned regarding the lack of apples to apples  
17 residential density within the 1/8th of a mile where  
18 the maximum effect takes place, and the second is  
19 the anomaly that we had just discussed earlier where  
20 half the facilities are opiate-only-type facilities  
21 which really don't apply and pull the values down  
22 disparity?

23 A Correct.

24 Q Isn't there a third flaw to this report, as

1 well, regarding lot size?

2 A Yes.

3 Q Can you explain that one for us?

4 A Basically, in the report it discusses  
5 minimum lot sizes, and it goes to maximum lot sizes,  
6 and it goes up to a maximum of 19 acres. The house  
7 in question that I described that's most proximate  
8 of a little over 700 feet I believe sits on 39 acres,  
9 which would be double the maximum lot size provided  
10 in the study. So that, again, is significantly  
11 double outside the range.

12 Q So drawing your attention, again, to page 89,  
13 it says at the top, "Consistent with other real  
14 estate studies, we pulled outliers from the data  
15 set, confining our data to a typical range of homes  
16 listed at less than 1 million, fewer than 10 bedrooms,  
17 and fewer than 16 acres." In this instance are you  
18 aware of any property within the 1/8th of a mile  
19 radius that's less than 16 acres?

20 A No.

21 Q So what are your conclusions with regard to  
22 your review of this report? Do you believe it changes  
23 any of your prior testimony that in this case the  
24 applicant's proposed alcoholism and substance abuse

1 treatment facilities will not substantially diminish  
2 property values in the area and the applicant is  
3 able to satisfy the standard for the special use?

4 A Absolutely not. It's a broader article and  
5 it appears to be more specific with a data set in a  
6 more urban, dense situation and has, again, half as  
7 meth clinics. So it's really not comparable.

8 Even more interesting, it's not in any of  
9 the recognized consulting or valuation journals.  
10 It's basically in what is an up-and-coming green  
11 journal that's sustainable real estate. But it's  
12 considered a green journal that's kind of misplaced.  
13 When things are considered for value impact, they  
14 usually go to the Appraisal Journal under The  
15 Appraisal Institute or the Counselors of Real Estate  
16 Real Estate Issues. Those are really the two main  
17 journals for value impact.

18 Q So this report was not accepted in one of  
19 the main journals for value impact; is that correct?

20 A No, it was not.

21 Q And do you know anything about the  
22 qualifications of the author of this report?

23 A Based on the request to do a more finite  
24 review, I delved into Mr. Benny Waller's

1 qualifications, and it appears -- and, again, value  
2 impact, value diminution by Uniform Standards of  
3 Professional Appraisal Practice, which is basically  
4 the appraisal rules nationwide, you're providing a  
5 value opinion.

6 Mr. Waller was a licensed appraiser 12 or  
7 13 years ago, and it appeared last in the state of  
8 Mississippi. To continue with your state license  
9 and I think in every license in the U.S. -- I've got  
10 them I think in five states -- you have to retake  
11 every two years this update of the standards class.

12 So it would mean that the last time that he  
13 obtained the license, it may have been six or seven  
14 classes that he's actually missed on the rules. I  
15 couldn't tell from looking at his -- we call it CFE  
16 or qualifications -- any valuation experience  
17 recently, couldn't tell if there's any experience in  
18 the state of Illinois, if he was licensed in the  
19 state of Illinois, and really looking at any  
20 specificity to impact or specific study on the  
21 subject property.

22 Q So as you sit here today, can you continue  
23 to safely say to the general public that this  
24 proposed facility will not diminish substantially

1 property values in the surrounding area assuming the  
2 applicant's petition is approved and construction  
3 and opening commences?

4 A Based on my testimony and, again, the  
5 assumptions of the issues with the operation and  
6 management, security, and all the other testimony as  
7 part of the application, this article does not  
8 change my opinion, and my opinion continues that  
9 this proposed project, if approved and implemented,  
10 will not have a negative impact on properties.

11 MR. KOLB: Thank you.

12 CHAIRMAN WHITE: Board members have any  
13 questions?

14 (No response.)

15 CHAIRMAN WHITE: County have any questions?

16 MR. KINNALLY: Thank you, Mr. Chairman.

17 Just for the record this exhibit is J21 as I  
18 understand it.

19 CROSS-EXAMINATION BY COUNSEL FOR THE COUNTY

20 BY MR. KINNALLY:

21 Q Mr. MaRous, this is a different kind of  
22 study than the one you did, is it not?

23 A Yes.

24 Q And the methodology that is employed is, is

1 it fair to say, a vector analysis?

2 A Yes.

3 Q And a vector analysis uses different data  
4 than you used in your study; is that true?

5 A Yes.

6 Q And it's based on different externalities  
7 than what you used in your studies; is that true?

8 A My studies considered them but this is more  
9 specific to those different areas.

10 Q This is a quantitative analysis, is it not?

11 A Correct.

12 Q And it's based on these vectors that are  
13 ascribed to certain things, such as days on the  
14 market, location, things of that nature?

15 A Correct.

16 Q So what you undertook was based on your  
17 training and experience as an appraiser and  
18 consistent with the Appraisal Institute that you're  
19 a member of?

20 A That's correct.

21 Q This is a different animal altogether?

22 A It is but it's still providing opinions on  
23 value which then becomes an appraisal.

24 Q But isn't this appraisal basically -- or

1 this study by Dr. Waller, isn't this focused on  
2 diminution of real estate values?

3 A That's his conclusion, yes.

4 Q And your focus is on the impact on valuation  
5 based on comparable sales?

6 A Correct.

7 Q So his method is hedonic; is that right?

8 A Yes.

9 Q You didn't use that?

10 A No.

11 Q Reasonable people can disagree with respect  
12 to methodologies used to appraise real estate; is  
13 that correct?

14 A Yes.

15 Q You mentioned that Dr. Waller -- have you  
16 seen his curriculum vitae?

17 A I have.

18 Q You have not?

19 A No, I have. I have it up here with me.

20 Q And you know that he is a real estate  
21 appraiser in education in Virginia; is that right?

22 A That is correct.

23 Q Do you know what that means? Can you help  
24 us with that?

1           A    It appears under the Virginia licensure it's  
2 provided for people that teach classes.

3           Q    Okay.  And would you say -- is it fair to  
4 say with respect to Dr. Waller's current credentials  
5 that he's academic?

6           A    Absolutely.

7           MR. KINNALLY:  Thank you.

8           I have no further questions.  Thank you,  
9 Mr. Chairman.

10          CHAIRMAN WHITE:  Mr. Carrara.

11          MR. CARRARA:  Thank you, Mr. Chairman.

12          CROSS-EXAMINATION BY COUNSEL FOR THE APPELLANT  
13 BY MR. CARRARA:

14          Q    Mr. MaRous, at the beginning of your  
15 testimony you opined on the Fair Housing Act; is  
16 that correct?

17          A    I provided a conclusion based on the statement  
18 in Mr. Waller's report and provided a conclusion, yes.

19          Q    Do you remember what page you were directed  
20 to look at to give your opinion or conclusion?

21          A    Pages 66 and 67.

22          Q    Okay.  And you said that you believe it's  
23 your opinion the Fair Housing Act applies to the  
24 Maxxam facility; correct?

1 MR. KOLB: Objection. He said he had no  
2 indication that those statements were untrue, any  
3 reason to challenge them.

4 Q Let me give you this statement: The  
5 paragraph goes on to say, "The Act does permit  
6 reasonable local, State, or Federal restrictions  
7 regarding the maximum number of occupants permitted  
8 to occupy a dwelling, exceptions from living space"  
9 and the like. Do you believe the Act forces the  
10 Zoning Board or Kane County to relinquish all its  
11 zoning control?

12 MR. KOLB: Objection; calls for a legal  
13 opinion.

14 MR. CARRARA: He gave his legal opinion  
15 earlier when he was agreeing with the conclusion  
16 that was a legal conclusion.

17 MR. KOLB: That was not a conclusion. I  
18 asked him if he had reason to disagree or any  
19 information to the contrary. I did not ask him for  
20 a legal opinion.

21 CHAIRMAN WHITE: Move on, Kevin. I would  
22 agree with the objection.

23 BY MR. CARRARA:

24 Q Do you have any reason to disagree with the

1 conclusion that the Fair Housing Act doesn't force  
2 Kane County to relinquish all its zoning control?

3 A I do not have the opinion that County is  
4 forced to relinquish all their zoning control.

5 Q Thank you.

6 Earlier in your testimony you suggested you  
7 disagreed with the math behind the results in this  
8 study. Correct? I think that was your first flaw  
9 you may have mentioned.

10 A I would --

11 Q Well, I'd like you to tell me what the flaw  
12 is. Mr. Kolb testified earlier; you testify now,  
13 please. What's your first flaw in this report?

14 A I always let counsel object and let the  
15 chair make the ruling. If there's not an objection,  
16 I'll move on.

17 So can you repeat the question, please?

18 Q Sure. What was the first flaw, in your  
19 estimation, in this report?

20 A Basically, simple math that there were  
21 36 facilities. Half were meth clinics, and going to  
22 his math, I believe it reflected about a 17 percent  
23 diminution in value, while the overall diminution  
24 was 8 percent.

1           With simple math, if we go through the  
2 formula --

3           Q Take me through that formula. Let's do the  
4 simple math.

5           A I'd be happy to.

6           CHAIRMAN WHITE: What page is that chart on?  
7 Page 80, is that the one you're referring to?

8           MR. KOLB: I believe it is.

9           MR. CARRARA: I'm not sure what he's referring  
10 to. I guess we'll get to that, Mr. Chairman.

11           Do you need a blank piece of paper to do  
12 your formula on so we can enter that into the  
13 record, sir?

14           CHAIRMAN WHITE: That's not necessary.

15           MR. KINNALLY: Page 80.

16           A (Continuing.) Yes. If you look at page 80 of  
17 his report, but, basically, if you look at the whole  
18 neighborhood as 1, and the whole neighborhood is  
19 8 percent less, we would have .92. We'll use a  
20 Y factor for that.

21           So then we would have .92 Y equals X, which  
22 is -- X is the other half of the houses, plus .83 Y  
23 divided by 2. If we then move down with our algebra,  
24 we solve for X, and it equals 1 percent positive.

1 Q Was the report that you prepared earlier  
2 that you testified to, was that reviewed by any  
3 outside independent peers to check your math?

4 A I'm smiling. I assume you might have, but  
5 it was not sent to any professional organizations, no.

6 Q Is it your understanding that prior to  
7 publication in journals that historically those  
8 articles are submitted to outside, independent,  
9 peer-reviewed to verify the underlying math of the  
10 articles?

11 A I was chairman for three years worldwide of  
12 The Appraisal Institute's publication committee where  
13 all the journals, all the magazines, everything came  
14 under us. And that organization -- their publications  
15 have generally been in existence over 50 years.  
16 That's what we did.

17 I also have sat on the board of Real Estate  
18 Issues, which is the Counselors of Real Estate.  
19 Similar situation, worldwide organization.

20 This publication has only been in existence  
21 five years. I actually reached out to editors of  
22 The Appraisal Institute or their directors to see  
23 what they knew about this magazine. It's a new  
24 magazine and we couldn't tell what the peer review

1 process was.

2 I would assume that there was peer review,  
3 but, again, this is focus of basically sustainable  
4 or a green, not value, and having to do with the  
5 impacts as provided in this article.

6 CHAIRMAN WHITE: And are you referring to  
7 the Journal of Sustainable Real Estate? Is that  
8 what you're referring to?

9 THE WITNESS: Yes.

10 CHAIRMAN WHITE: Thank you.

11 Q And -- I'm sorry, I apologize -- the last  
12 bit your testimony I didn't hear.

13 Was it your suggestion that the Journal of  
14 Sustainable Real Estate only deals in green  
15 publications or green articles?

16 A Their focus is green. That's basically  
17 their direction; that's their specialty. So this  
18 article seems to be a little outside of the focus of  
19 the magazine. Why they accepted it I don't know.

20 Q So if -- again, I guess we'll give you the  
21 hypothetical, and I'll ask you to agree or disagree.

22 Do you have any reason to believe that there  
23 was not peer review done of this article prior to  
24 its being published?

1           A I can't provide a full answer yes or no. I  
2 think it clearly was peer reviewed, but this falls  
3 in the direction of ARES, which is another group  
4 that I have involvement with that's basically  
5 professors, college educators that simply -- part of  
6 keeping their academic accreditation and keeping  
7 their jobs is to publish. And I think it appears  
8 that that was the group of the peer review.

9           So were these experts in real estate valuation  
10 in the peer review? I don't know. The Appraisal  
11 Institute, every article has a peer review by a real  
12 estate appraiser that's been in the business for  
13 over 10 years and has the MAI designation. So I  
14 don't know the qualifications, but I'm sure it was  
15 peer reviewed.

16          Q So if -- a peer review, does it focus more  
17 on the math or the ultimate conclusion?

18          A Not being on the publication committee of  
19 this magazine, I don't know their focus. I looked  
20 to see their mission statement, and it, again,  
21 appeared to be more in the sustainable and didn't go  
22 into the specifics that you asked me. I don't know.  
23 They're not clear.

24          Q Let me ask you, then, in your experience as

1 the reviewer or the peer person -- I think you  
2 mentioned you were on a committee and did a bunch of  
3 things. Would your peer review focus on the math to  
4 make sure the underlying math behind the article was  
5 appropriate?

6 A My focus -- and I've reviewed and cited in  
7 about 15 books; I've probably done about 20 articles,  
8 and the focus was on the reasonableness and  
9 credibility of the article. And once it got past  
10 that, then I would look to the review.

11 We have professional editors to clean up the  
12 language, to clean up the typos and everything else.

13 Q So I guess your answer is yes, you would  
14 look first to the math, and then would you worry  
15 about cleaning up the grammar?

16 A No. I would look to the credibility, and  
17 reasonableness, and support of the article and then  
18 look to the math.

19 Q Okay. So was there ever a time when math,  
20 if it didn't work out, that the article would be  
21 published?

22 A Generally, there's three phases. It's reject,  
23 which means it's gone; one means it's accept, and  
24 the third is generally make some modifications,

1 which is generally what happens. And at that time  
2 if there's some mistakes -- again, if it's a  
3 credible article, fix the mistakes. If it's not  
4 credible, it doesn't make The Appraisal Journal,  
5 which is the appraisal institute's professional  
6 journal.

7 Q But would you agree one of the bases for  
8 acceptance would be verification of the underlying  
9 math in the article? You wouldn't publish something  
10 if the math wasn't right, would you, sir?

11 CHAIRMAN WHITE: Are you disputing the math  
12 that's in here, or are you just disputing how it's  
13 applied to this petition?

14 A That's the answer. It's the application to  
15 the petition when compared to the subject. Because  
16 I'm saying to compare apples to apples and you take  
17 out the meth clinics, then the math reflects  
18 basically no diminution.

19 So his was a broader sample that included  
20 the apples to oranges comparison. So I'm not  
21 disputing that he did his math wrong, but when it's  
22 compared to what is brought forth here, that's the  
23 issue.

24 MR. CARRARA: Thank you for the

1 clarification, Mr. Chairman.

2 Q Mr. MaRous, in your report what drug facility  
3 did you review?

4 A Drug facility?

5 Q Drug treatment facility was the basis of  
6 your expert report.

7 A Just the subject.

8 Q So --

9 A The proposed subject.

10 Q So your matched pairs that you did in your  
11 analysis were not based on a drug treatment facility;  
12 correct?

13 A They were based on a youth campus for troubled  
14 adolescents.

15 Q Closed in 2010 or '11?

16 A It was closed after my comps were utilized.  
17 So the comps, the analysis all happened before the  
18 facility was even planned to be closed.

19 Q And then you did one matched pair for the  
20 current area; is that your testimony?

21 A That's correct.

22 Q If the facility is not there, how were you  
23 able to judge the negative externalities of the  
24 Maxxam facility if it's not in existence?

1           A That's a real interesting site. And what  
2 happens, whether it be windmill sitings or a lot of  
3 other sitings, when these types of zoning become  
4 very public, very broadcast, and there's really some  
5 concern and some scare, that's usually the lowest  
6 point, the biggest negative impact on value. That  
7 clearly was impacting if there was going to be an  
8 impact on this property, and it subsequently sold  
9 right in between the relative range of value that I  
10 estimated for.

11           So my first estimate was assuming there was  
12 no planned facility. The other was assuming there's  
13 a potential for a facility that's out there, and  
14 that's the way that I looked at it.

15           Q And how did you determine that time period  
16 of when you thought this facility would have been  
17 the most impacted, the proposed facility?

18           A My experience with heavily contested zoning  
19 cases, of which I've probably been involved with  
20 30-plus, is usually the problem -- when it creates  
21 the economic uncertainty and has the biggest impact  
22 on value. In my opinion, uncertainty and fear are a  
23 very significant potential impact, and it happens  
24 many times during these siting hearings.

1 Q Okay. But in your report what time period  
2 did you use for your comparison?

3 A The date of value. I would have to pull out  
4 my report, but I think it was August of 2015 when I  
5 completed my report.

6 Q At that point in time in August of 2015, was  
7 this application going through the public hearing  
8 process?

9 A That's another interesting question because  
10 it appeared that it might have been while I was  
11 doing it but, no, it had not started. But it was  
12 out there; the information was out there, and it was  
13 known in the community.

14 Q What public notices were issued to the  
15 surrounding property owners at the time you did your  
16 report to put them on notice?

17 MR. BROWN: I'm going to object as beyond  
18 the scope. We've already presented this witness for  
19 direct. It's not within the scope of the examination  
20 that was brought up earlier.

21 CHAIRMAN WHITE: What was your question  
22 again, Kevin?

23 MR. CARRARA: I'm just trying to figure out  
24 what -- he said there was information out there in

1 the public when he did his value in August 2015 that  
2 this facility would have no impact on the one sale  
3 he chose. And I'm just asking him what that  
4 information was because the public hearing process  
5 had not started yet.

6 MR. BROWN: My point is, one, he testified  
7 about this earlier. Secondly, it's beyond the scope  
8 of our examination and the purpose of this.

9 What we're doing is going over the entire  
10 testimony again. I've been quiet and actually been  
11 stopping many of the objections just to get a fair  
12 reading here, but we're opening up a whole other can  
13 of worms, and we've already gone through this.

14 It's not within the scope of the examination  
15 that was brought here on direct. That's my  
16 objection.

17 MR. KINNALLY: Mr. Chairman, for the record,  
18 the application was submitted as Exhibit No. 20 on  
19 August 27th, 2015.

20 CHAIRMAN WHITE: Thank you. Does that  
21 change your question?

22 MR. CARRARA: No. The application was  
23 submitted but he said the public was aware of it.  
24 I'm trying to figure out what information he saw out

1 there in the public after the filing of this  
2 application before the public hearing process was  
3 noticed.

4 THE WITNESS: In our investigation -- and  
5 particularly going back to the Kiva submission of  
6 approximately three years ago -- there was awareness  
7 in the community in the immediate neighborhood of  
8 the pending application.

9 BY MR. CARRARA:

10 Q And you have firsthand knowledge of that, sir?

11 A Yes.

12 Q In this case -- what is the information you  
13 reviewed in this specific case, not the Kiva case,  
14 that allowed to you make the determination that  
15 there was public knowledge in August 2015? Did you  
16 review anything specifically?

17 A I reviewed the pending application. I began  
18 work on this -- I'd have to go back through my  
19 notes, but probably May, Juneish, no later than  
20 early July of 2015.

21 I was aware that there had been public  
22 knowledge of this through the developer, through our  
23 investigation of the real estate market. I don't  
24 remember exactly what I did. I could probably go

1 back and reconstruct the timeline. It would take me  
2 a while.

3 But it was known but the hearings had not  
4 started.

5 MR. CARRARA: That's all I have, Mr. Chairman.  
6 Thank you.

7 CHAIRMAN WHITE: Thank you.

8 Board members have any questions of this  
9 witness?

10 (No response.)

11 CHAIRMAN WHITE: County have any redirect?

12 MR. KINNALLY: No, thank you.

13 CHAIRMAN WHITE: Any unit of government wish  
14 to address this witness?

15 Please keep it brief, Mr. Blecker.

16 MR. BLECKER: I will try.

17 CROSS-EXAMINATION BY AUDIENCE MEMBER

18 BY MR. BLECKER:

19 Q You were testifying about the FHA. Are you  
20 familiar with all the regulations and rules that go  
21 with the Fair Housing Act?

22 MR. KOLB: Objection; calls for legal  
23 opinion.

24 Q Do you agree or disagree with the statement

1 I'm going to read: "The County has no obligation  
2 under the FHA or other law to grant Maxxam specific  
3 application for a special use for this facility on  
4 this property. Denial of Maxxam's application for  
5 special use permit is not an automatic violation of  
6 the FHA if the County's decision is made based on  
7 zoning standards contained in the county zoning  
8 ordinance and not based on the disabilities of the  
9 proposed facility"?

10 CHAIRMAN WHITE: Can you reference that  
11 document?

12 MR. BLECKER: Yes. This is a memorandum  
13 which I would be willing to put into evidence  
14 written by Attorney Julie Tappendorf of Ancel Glink  
15 on behalf of the Village of Campton Hills.

16 CHAIRMAN WHITE: Is that part of your  
17 Village resolution?

18 MR. BLECKER: No. That was a separate  
19 memorandum which I understood was put in the Board  
20 packet at one time or another.

21 MR. KOLB: Objection; hearsay.

22 MR. BLECKER: This is not hearsay. It's a  
23 memorandum written by our attorneys. It's a legal  
24 document.

1 MR. BROWN: Actually, that's exactly our  
2 point earlier that he's asking to make a legal  
3 opinion. I mean, he did testify to that. That was  
4 a reference to the report that was permitted that's  
5 going to be the expert for the opposition here, and  
6 he just made that reference. He's not here to give  
7 a legal opinion, and his question is asking him to  
8 give one.

9 CHAIRMAN WHITE: I would agree with the  
10 petitioner.

11 MR. BLECKER: I would like to submit this  
12 into evidence if that's possible at this point.

13 CHAIRMAN WHITE: Do you have copies?

14 MR. BLECKER: Yes.

15 MR. KOLB: Objection, foundation.

16 CHAIRMAN WHITE: What's your basis for  
17 submitting this? I'm not saying I won't take it.

18 Go ahead and distribute it, and we'll take a  
19 look at it, and maybe at a later date we'll ask for  
20 a motion to accept it.

21 MR. BLECKER: Okay.

22 CHAIRMAN WHITE: Thank you.

23 MR. BLECKER: May I approach?

24 CHAIRMAN WHITE: You may.

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

750

1 MR. KINNALLY: Mr. Chairman, can we mark  
2 that as Exhibit P2, with your permission?

3 CHAIRMAN WHITE: Yes.

4 (Exhibit P2 marked for identification and  
5 retained by the Board.)

6 CHAIRMAN WHITE: Is there a motion by Board  
7 members to accept this into evidence?

8 MEMBER BOWEN: So moved, Mr. Chairman.

9 MEMBER HEINRICH: Second.

10 CHAIRMAN WHITE: Moved by Mr. Bowen,  
11 seconded by Mr. Heinrich. Any discussion?

12 MR. KINNALLY: Just so we're clear,  
13 Mr. Chairperson, this is a memorandum dated  
14 December 29th, 2015, apparently authored by someone  
15 named Julie Tappendorf addressed to President  
16 Blecker and Board of Trustees.

17 Thank you.

18 CHAIRMAN WHITE: Any other discussion? All  
19 in favor say aye.

20 (Ayes heard.)

21 CHAIRMAN WHITE: Opposed, same sign.

22 (No response.)

23 CHAIRMAN WHITE: Motion carries.

24 Anyone else wishing the podium at this time?

1 (No response.)

2 CHAIRMAN WHITE: Any redirect?

3 MR. KOLB: None.

4 CHAIRMAN WHITE: The witness is excused.

5 THE WITNESS: Thank you.

6 (Witness excused.)

7 CHAIRMAN WHITE: Do you have anyone else  
8 you'd like to call at this time?

9 MR. BROWN: We rest at this time with the  
10 exception of in case we go over some of our exhibits  
11 that are not admitted we have an opportunity to make  
12 sure they're all admitted. But I think Mr. Kinnally  
13 has taken care of that for us, but I think we'd like  
14 to check that.

15 CHAIRMAN WHITE: I agree. We are going to  
16 go through that to make sure everything that's been  
17 submitted has been accepted in one way, shape, or  
18 form, been moved on.

19 At this time, Mr. Carrara, do you have  
20 anyone to bring forward?

21 MR. CARRARA: I guess for clarification,  
22 then, there were a number of questions you compelled  
23 to testify, and those individuals have not testified  
24 as of yet. So if they are disagreeing with your

1 notice to compel, I'd ask that their expert reports  
2 be stricken from the record and the ZBA and County  
3 can't use them as a basis for their decisions. I've  
4 not had a chance to cross-examine these experts.

5 MR. BROWN: There is a difference between  
6 what we call and what -- if the Board wishes to call  
7 someone on their own, that's something different.  
8 We've rested our case and we've never said -- we've  
9 had our witnesses here in accordance with that.

10 If there's someone that's not here, it's  
11 only because they've been here every other day and  
12 have had a conflict. When I say this, we've rested  
13 our case, and it's not up to Mr. Carrara to tell us  
14 how we need to prove our case. But we have complied  
15 with the requests of the Board.

16 MR. KOLB: The order to compel was to appear  
17 as opposed to testify.

18 CHAIRMAN WHITE: Does the Board wish to call  
19 any of the witnesses that have -- that were compelled  
20 that have not yet testified?

21 I'm going to through -- you correct me if  
22 I'm wrong -- Dr. Peter Poletti --

23 MR. BROWN: I don't have your list in front  
24 of me. One second.

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

753

1 CHAIRMAN WHITE: I'm not sure I have a  
2 complete list myself.

3 MR. KOLB: Mr. Poletti has not testified.

4 MR. KINNALLY: We have one, Mr. Chairman.  
5 I'll give you one if you want. We have the list.  
6 We can distribute one to you, and the Board, as well  
7 as the petitioner, as well as Mr. Carrara.

8 CHAIRMAN WHITE: I don't have it at my  
9 fingertips.

10 MR. BROWN: I will say Mr. Poletti has been,  
11 I believe here at every proceeding until today. He  
12 has another client; he's not available either today  
13 or on Thursday, but he was here last Thursday and  
14 the previous Tuesday.

15 As you know, we've been providing people,  
16 and they've been here at a great expense to our  
17 client, but he's just not available today due to  
18 other conflicts.

19 CHAIRMAN WHITE: I understand. Steven Marco  
20 is the other individual that we have not heard from.

21 MR. BROWN: He is present.

22 CHAIRMAN WHITE: And Ryan Bailey.

23 MR. KOLB: He is not present tonight but has  
24 been here the first four hearings.

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

754

1 CHAIRMAN WHITE: All right. And do you have  
2 additional names that I haven't mentioned?

3 MR. VAN KERKHOFF: I'm sorry. Did you  
4 mention Mr. Bailey?

5 CHAIRMAN WHITE: I did.

6 MR. VAN KERKHOFF: Okay. And Mr. Marco.

7 CHAIRMAN WHITE: I did.

8 MR. VAN KERKHOFF: Mr. Poletti.

9 CHAIRMAN WHITE: Yes.

10 MR. VAN KERKHOFF: Mr. Woodward.

11 CHAIRMAN WHITE: Mr. Woodward has already  
12 testified.

13 MR. VAN KERKHOFF: Mr. Passman.

14 MR. BROWN: Mr. Passman is what we discussed  
15 earlier. He's an attorney.

16 CHAIRMAN WHITE: Does the Board wish to  
17 bring any of these, Mr. Marco, Mr. Bailey,  
18 Mr. Poletti -- Mr. Poletti is not present this  
19 evening. Mr. Marco is.

20 Mr. Carrara?

21 MR. CARRARA: I'm sorry, Mr. Chairman. I  
22 guess I'll reassert my objection that -- and I'll  
23 defer to Mr. Kinnally for his advice to you. But  
24 the purpose of cross-examination of expert witnesses

1 is if they are going to provide a report that is a  
2 basis, I, the ZBA, and the general public have the  
3 ability to do reasonable cross-examination. That's  
4 in person. If they are not available, the  
5 foundation of the report cannot be used as evidence  
6 to sustain a petition in the zoning matter.

7 So I would ask that Mr. Poletti's valuation  
8 report be stricken from the record. I'd ask that  
9 Mr. Murer's report based on this being similar to a  
10 hospital be stricken from the record, and I'd ask  
11 that Mr. Marco be compelled to testify as to the  
12 operations.

13 He's the one that's going to be running  
14 this. I think there's a number of ZBA members here  
15 who have asked repeatedly here about the man that's  
16 going to be running this place, and we should bring  
17 him up and hear that.

18 MR. BROWN: Well, we've had these people  
19 available, and we've actually complied with the  
20 dates. I've never heard a continuance -- maybe I  
21 might be mistaken. Was the motion to compel renewed  
22 for today?

23 MR. KOLB: No.

24 MR. BROWN: The motion to compel was never

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

756

1 renewed. It was for a certain date which was the  
2 beginning of this hearing. So technically he's  
3 wrong on that aspect of it.

4 Despite that, we've had these people here, and  
5 they are just not available. Mr. Marco is present,  
6 and I guess to a certain extent to accommodate, if  
7 he wishes to ask some written questions that we can  
8 answer in writing, we'd be glad to respond to that  
9 as an accommodation.

10 But I also recognize that we've complied  
11 with this, but this has been a unique hearing.  
12 Because the experiences what I've heard from other  
13 people who are in this field -- and I'm not going to  
14 say that I'm an expert attorney in this area -- is  
15 that it's not the normal process to compel witnesses  
16 by the Board, but we've brought people in.

17 You hear these all the time. We brought a  
18 large number of witnesses who have been paid by the  
19 hour to be here. The conflicts which aren't  
20 available here tonight are just personal conflicts  
21 that they had, and it's not anything that we're  
22 trying to impede this process.

23 I feel the fact that we made them available,  
24 we've been in compliance with your motion.

1 CHAIRMAN WHITE: Mr. Kinnally.

2 MR. KINNALLY: A couple things. Thank you,  
3 Mr. Chairman.

4 Number one, the report of Mr. Poletti is  
5 already in evidence. The weight that is going to be  
6 given that report is up to the Board. Obviously, if  
7 the petitioner chooses not to have him testify,  
8 that's their choice.

9 Generally, in these kinds of hearings most of  
10 the lawyers agree to take people out of order. I've  
11 done a lot of these, and that's pretty much the way  
12 it goes. So I don't know if Mr. Poletti can be here  
13 at another time. That's a decision that Mr. Brown  
14 and Mr. Kolb have to make.

15 But in terms of the report, it's already in  
16 evidence. If he doesn't testify to support it, I  
17 don't know what weight you're going to give it.  
18 That's not my decision to make. Obviously, you  
19 can't cross-examine somebody who is not here.

20 If the petitioner is resting their case and  
21 they don't want to put other witnesses on, that's a  
22 decision they're making. I don't know what effect  
23 it will have, but that's not my job. My job is to  
24 try to tell you how to run this thing, and I'm

1 probably not doing a great a job, but I'm doing  
2 my best.

3 So at this particular time, if they're  
4 resting, then it's my understanding that the rules  
5 that you wanted to utilize at the beginning, we go  
6 to the objectors.

7 I know Mr. Carrara is an objector. I don't  
8 know if Ken Shepro is an objector. He indicated  
9 previously that he might be. If he is, then he  
10 would go next.

11 And, also, I know you want to hear from the  
12 public and give them sufficient time to state their  
13 testimony or introduce whatever documents they want  
14 to introduce.

15 That's my understanding of the way this  
16 works. If they're resting their case, they're  
17 resting their case.

18 MR. BROWN: Can I have one moment so I can  
19 talk to my client?

20 CHAIRMAN WHITE: Yes, you can. We'll take a  
21 very brief recess.

22 (Recess taken, 9:40 p.m. to 9:44 p.m.)

23 CHAIRMAN WHITE: Do you have a decision?

24 MR. BROWN: Yes, we made a decision.

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

759

1           Once again, we rest. We feel we've been in  
2 compliance with your orders to compel by having our  
3 witnesses here on previous occasions, and those  
4 witnesses that could be here today are present. So  
5 we rest.

6           CHAIRMAN WHITE: Okay. Thank you.

7           Then I'll open the floor for the public to  
8 come forward and present testimony to the Board.  
9 And as I indicated, everyone will have to be sworn  
10 in unless you already have been.

11           I would ask any unit of government who  
12 wishes to speak at this time to come forward.

13           MR. KINNALLY: Mr. Chairman, I talked to  
14 Mr. Shepro during the break, and he indicated that  
15 he would have the fire chief here at the next hearing  
16 and that he may have one or two other witnesses at  
17 most. But he would have the fire chief here, with  
18 your permission, if that's okay the Board.

19           CHAIRMAN WHITE: I'm not saying we're going  
20 to close the public hearing this evening.

21           MR. KINNALLY: I just wanted to inform you  
22 of that, Mr. Chairman.

23           MR. CARRARA: Mr. Chairman, I have my two  
24 experts here, but with the time I suspect it would

1 be better if we start with them fresh on Thursday  
2 and we go from there.

3 Thank you.

4 CHAIRMAN WHITE: Here again, I'm opening the  
5 podium to anybody from the public. I haven't seen  
6 anyone from a unit of government approach yet, so  
7 I'll take whoever -- Mr. Blecker is coming forward.

8 MR. BROWN: Can I just ask for a point of  
9 order? Are you going to have a limitation as to how  
10 many times the same witness can come up now that  
11 we're taking testimony? That's my point and with all  
12 due respect just wouldn't want the same witnesses to  
13 come back every meeting that we have in the future.

14 CHAIRMAN WHITE: And we will try to limit  
15 that. I'm not going to put a specific number on it  
16 at this point, but I do keep track of that and try  
17 to -- try to keep them to one or two appearances.  
18 It's not always just one.

19 MR. BROWN: Thank you.

20 MR. BLECKER: As yet I have not made a  
21 statement. The only thing I've come up to the  
22 podium for was to ask questions.

23 MR. BROWN: I wasn't accusing that and I  
24 have no objection to him saying anything or

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

761

1     testifying at this time. It wasn't directed to him  
2     directly. I'm sorry.

3             CHAIRMAN WHITE: Are these your questions to  
4     this Board on procedures or what?

5             MR. BLECKER: Right now this will be my  
6     statement.

7             CHAIRMAN WHITE: And you have been sworn in.

8             MR. BLECKER: Yes, I have.

9             CHAIRMAN WHITE: So please state your name.

10            MR. BLECKER: Harry Blecker, B-l-e-c-k-e-r.

11            CHAIRMAN WHITE: And your address, please.

12            MR. BLECKER: 8N105 Ickenham Lane, Campton  
13     Hills. I'm president of the Village of Campton Hills.

14            Firstly, I'd like to start by reiterating  
15     the Village's support for our initial resolution  
16     objecting to the process that brought us to this  
17     point tonight. That being said, I'll move on.

18            There has been reference to an October 12,  
19     2012, Campton Hills police report. I would like to  
20     challenge the validity of that memorandum as in  
21     reference to this facility on the following grounds:

22            This police report addresses a completely  
23     different project with no intensive detox. The  
24     Village has a new report with more recent, relevant

1 data as to rehab facilities that provide intensive  
2 detox, copies of which I would like to put into  
3 evidence and be part of the record of this hearing.

4 I would also like to bring into question  
5 Mr. MaRous' report. When I asked who should pay for  
6 the additional expenses of increased police calls,  
7 Mr. MaRous responded the Village could increase the  
8 levy. Mr. MaRous missed an extremely important fact  
9 that the Village is not home rule, and as such  
10 cannot increase the levy without a referendum. It  
11 is common knowledge that tax increase referendums  
12 all across the state are being turned down by the  
13 voters. He missed this well-known fact. What other  
14 facts did he miss that might have a negative impact  
15 on the community?

16 This begs the question, why should the  
17 residents of Campton Hills pay for additional police  
18 protection for a facility that is not within the  
19 village limits or jurisdiction while not receiving  
20 any compensation, tax or otherwise?

21 Of the estimated \$336,000 the County will  
22 receive in property taxes, the Village will receive  
23 nothing. Yet we'll be required to provide services.  
24 The additional cost of these services would put

1 unacceptable strain on the Village's already limited  
2 resources.

3 At a previous meeting the attorney for  
4 Maxxam Partners brought up the requirements of the  
5 Fair Housing Act. Campton Hills Village Attorney  
6 Julie Tappendorf of Ancel & Glink has submitted a  
7 memorandum a copy of which I've just submitted into  
8 evidence addressing this issue.

9 In an effort to be brief, while keeping the  
10 public informed, I will only read an analysis and  
11 conclusion submitted for the entire memorandum for  
12 the record.

13 Analysis of FHA Maxxam's application:  
14 "After reading through the various legal opinions  
15 and reviewing FHA relevant cases, it is my opinion" --  
16 it's Ms. Tappendorf's opinion -- "that Kane County  
17 is not obligated under the FHA to approve Maxxam's  
18 application for special use permit to operate the  
19 facility on the property. The FHA does not mandate  
20 a zoning approval as a reasonable accommodation and  
21 certainly does not mandate approval of a particular  
22 application for zoning relief. It also does not  
23 preempt local zoning procedures or standards.

24 "In short, there is no obligation of the

1 counter under the FHA or any other Federal law to  
2 approve Maxxam's special use application."

3 I'll skip over a lot of the other legalese  
4 and go right to the summary.

5 "In summary, the County has no obligation  
6 under the FHA or other law to grant Maxxam's specific  
7 application for specific use for this facility on  
8 this property. Denial of Maxxam's application for a  
9 special use permit is not an automatic violation of  
10 the FHA if the County's decision is made based on  
11 the zoning standards contained in the County zoning  
12 ordinance and not based on the disabilities of the  
13 residents of the proposed facilities. Even Holland  
14 & Knight's, attorneys for Maxxam, opinion acknowledges  
15 the importance of Maxxam satisfying all the zoning  
16 criteria.

17 "It is important that the County review and  
18 consider Maxxam's application for a special use  
19 permit by following the proper zoning process and  
20 applying each of the special use standards in the  
21 zoning ordinance. Nothing in the FHA preempts the  
22 local zoning process or zoning standards. It is  
23 within this context that the County should make its  
24 decision and not based on incorrect allegations made

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

765

1 by law firms hired by Maxxam that the County must  
2 approve zoning relief for Maxxam or to be in  
3 violation of the FHA."

4 On January 5th, 2016, the Village of Campton  
5 Hills unanimously passed a resolution opposing a  
6 special use permit to Maxxam Partners, LLC. Again,  
7 in the interest of being brief while still keeping  
8 the public informed, I will read the highlights and  
9 submit the entire resolution for the record.

10 "Maxxam Partners, LLC, does not meet all  
11 standards set forth in Section 25-4-8-2 of the  
12 County Zoning Ordinance. In section 2 of our" --  
13 again, I'll be brief; I won't read the whole thing,  
14 just selected areas. Section 2 of our resolution,  
15 "The Village board opposes the Maxxam petition  
16 because the petition for the proposed facility does  
17 not meet the special use permit standards set forth  
18 in Section 25-4-8-2 of the County Zoning Ordinance.  
19 Pursuant to that section the ZBA should not  
20 recommend a special use."

21 Item A under that section, the establishment,  
22 maintenance, and operation of the special use will  
23 not be unreasonably determined to endanger the  
24 public safety, morals, comfort, or general welfare.

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

766

1           One of the most significant concerns of the  
2 Village of Campton Hills is the detrimental impact  
3 this facility in the proposed use of the property  
4 will have on the ability of the police department  
5 and as a result will negatively affect the ability  
6 of the police department to serve the village  
7 residents and property owners. The Village of  
8 Campton Hills has no property tax and will not  
9 benefit in any way from the \$336,878 in estimated  
10 tax revenues that will result from the Maxxam  
11 facility as asserted by the Maxxam petition.

12           Nevertheless, the Village as the closest  
13 responder will likely be the most impacted by police  
14 calls generated by the facility, but without  
15 receiving any tax or other revenues to offset the  
16 additional call volume that is certain to result.  
17 Nowhere in the Maxxam petition does it address the  
18 impact of the proposed use on the public safety  
19 resources of the county, the fire district, or the  
20 Village of Campton Hills.

21           Although the facility will not be located  
22 within the village boundaries, as the closest  
23 jurisdiction to the property, the village will  
24 certainly be called upon to respond to police and

1 other emergency calls to the property. That is  
2 confirmed in the Village's review of call data from  
3 other police departments of similar facilities in  
4 their jurisdiction.

5 The recent resolution submitted to the ZBA  
6 Campton Township board acknowledged emergency  
7 response times to the facility will be significantly  
8 longer than any of the comparatives provided by  
9 Maxxam's consultants, none of which were addressed  
10 by Maxxam in its application.

11 There can be no dispute that the Maxxam  
12 facility will, in fact, call for services to the  
13 County Sheriff's office, as well as the Village of  
14 Campton Hills Police Department as the closest  
15 responder. The Village simply does not have the  
16 resources available to increase the number of  
17 officers, shifts, or other resources in the area.  
18 As a result, the Maxxam facility will have an  
19 unreasonably detrimental impact to the public health,  
20 safety, comfort, general welfare of Campton Hills  
21 residents and property owners by requiring the  
22 police department to shift its very limited  
23 resources from duties to respond to calls at the  
24 Maxxam facility.

1           This unreasonable detrimental impact to the  
2           Campton Hills police department and village  
3           residents has not been acknowledged in any manner by  
4           Maxxam in its application or by Kane County. It is  
5           clear that Maxxam cannot and has not met the special  
6           use standard.

7           Section B, "The special use will not be  
8           injurious to the use and enjoyment of the property  
9           in the immediate vicinity for the purposes already  
10          permitted nor substantially diminish and impair  
11          property values within the neighborhood."

12          Maxxam asserts in their petition the  
13          facility will not diminish the impact or impair  
14          property values within the surrounding area.  
15          However, the market impact studies performed by  
16          Maxxam's consultants are faulty.

17          Firstly, the MaRous study compares the  
18          proposed facility use to previous uses of the  
19          property, neither of which is allowed use in the  
20          F Farming District. A more appropriate analysis  
21          would compare the proposed facility use to one of  
22          the enumerated uses in F Farming District.

23          Second, the MaRous study does not take into  
24          account the various options for redevelopment of the

1 property, simply concluding that demand for the  
2 property is minimal as it is currently developed as  
3 former school buildings.

4 The Poletti study is also faulty because its  
5 comparison of the facility to the surrounding areas  
6 are not similar to the proposed facility in the  
7 surrounding area nor are the sizes of the compared  
8 facilities to the Maxxam proposed facility.  
9 Poletti's study also did not take into account the  
10 proximity of the closest residential property,  
11 instead focusing its analysis on the nearby  
12 residential subdivision.

13 Maxxam's proposed facility does not meet the  
14 special use standard, and Maxxam has not sufficiently  
15 established that its facility will not be injurious  
16 to neighboring properties or property values.

17 Section C, the establishment of the special  
18 use will not impede the normal and orderly  
19 development of improvements of surrounding  
20 properties for uses permitted in the district:

21 Maxxam asserts in its application that the  
22 facility will be surrounded by property owned by the  
23 forest preserve district, a clear misstatement that  
24 ignores the fact the facility is proposed to be

1 located on property immediately adjacent to  
2 residential use property owned by Mr. Andrzejewski  
3 and the residential subdivision on Silver Glen.

4 Skipping down to Section F, "Special use  
5 shall in all other respects conform to the  
6 application regulations of the district in which it  
7 is located except as the regulations made in each  
8 instance be modified by the County Board pursuant to  
9 the recommendations of the Zoning Board of Appeals."

10 It is the Village Board's position as  
11 described in Resolution 15-18 which I will submit  
12 into evidence that the County's procedures for  
13 granting of such a modification/similar-use  
14 determination was not properly followed nor was it  
15 the appropriate process. Instead Maxxam should have  
16 been required to appeal for a text amendment or map  
17 amendment to conform to the requirements of the  
18 zoning ordinance. As a result Maxxam cannot and has  
19 not established that it meets these standards.

20 It is Maxxam's burden to establish that its  
21 petition for special use permit for this facility  
22 meets each and every one of the special use  
23 standards set forth in 25-4-8-2 of the Kane County  
24 Zoning Ordinance. Because Maxxam has not and cannot

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

771

1 establish that its petition meets all of these  
2 standards, the Kane County ZBA must recommend that  
3 the County Board deny requested special use, and the  
4 County Board should accept the ZBA's recommendation  
5 to deny Maxxam's application for special use permit  
6 for this facility.

7 And now I would like to submit copies of  
8 this resolution to the Board as to be part of the  
9 record of this meeting.

10 CHAIRMAN WHITE: And is your resolution -- I  
11 have a copy, I believe -- Resolution No. 16-C2?

12 MR. BLECKER: Correct.

13 CHAIRMAN WHITE: Thank you. You may.

14 MR. KINNALLY: So would that be Exhibit P3,  
15 Mr. Chairman? That's what my notes show.

16 CHAIRMAN WHITE: Yes. I would agree.

17 (Exhibit P3 marked for identification and  
18 retained by the Board.)

19 CHAIRMAN WHITE: Does that conclude your  
20 testimony, Mr. Blecker? Mr. Blecker, does that  
21 conclude your testimony?

22 MR. BLECKER: Yes, it does.

23 MR. BROWN: Do you mind if we ask  
24 Mr. Blecker a couple questions very briefly since he

1 testified?

2 CHAIRMAN WHITE: You may.

3 MR. BROWN: Mr. Blecker, as you stated, the  
4 Kane County sheriff would have primary responsibility  
5 for calls; is that true?

6 MR. BLECKER: Yes.

7 MR. BROWN: And, also, you are aware that  
8 when ambulances are called to the premises that  
9 there is a reimbursement and a fee that could be  
10 paid for that. Are you aware of that?

11 MR. BLECKER: We do not -- Village of  
12 Campton Hills does not have any responsibility for  
13 ambulance services.

14 MR. BROWN: So, in other words, when you  
15 talk about the impact of ambulance and fire  
16 protection, that is not something that's under your  
17 jurisdiction personally as president of Campton Hills?

18 MR. BLECKER: Correct.

19 MR. BROWN: So you really don't have an  
20 opinion on that personally, and it would not affect  
21 Campton Hills; is that correct?

22 MR. BLECKER: The fire -- correct. Fire  
23 district and ambulance service does not affect the  
24 Village.

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

773

1 MR. BROWN: No further questions.

2 MR. SHEPRO: Mr. Chairman, I would like to  
3 cross-examine the witness.

4 MR. BROWN: I would object because then we  
5 would have everyone in the audience.

6 CHAIRMAN WHITE: Ken -- I'll allow you to  
7 present your case, Ken. I understand where you may  
8 be going with this, but I think at this time we're  
9 trying to get testimony from the public, and I'd  
10 like to continue with that. I'll certainly give you  
11 the podium at the appropriate time.

12 MR. SHEPRO: Thank you.

13 CHAIRMAN WHITE: You're excused, Mr. Blecker.

14 Are there any other units of government that  
15 are here that wish to present testimony.

16 (No response.)

17 CHAIRMAN WHITE: Is there anyone here that  
18 represents a larger group of citizens, say a  
19 homeowners association or just a coffee club or  
20 something of that nature where you are speaking on  
21 behalf of a group of people? I would allow you to  
22 come forward.

23 (No response.)

24 CHAIRMAN WHITE: Then I'll open it up to

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

774

1 individuals. You may come forward. I will need to  
2 swear you in when you come forward.

3 I see one hand here. You've been sworn but  
4 I will ask you to restate your name and address and  
5 go ahead and begin your testimony and we'll see how  
6 it goes.

7 MR. PALACIOS: Elias Palacios, 40W812 Long  
8 Shadow Lane, St. Charles 60175.

9 CHAIRMAN WHITE: And approximately how close  
10 to this facility are you located?

11 MR. PALACIOS: I don't know.

12 CHAIRMAN WHITE: Are you within a mile?  
13 are you 10 miles? Are you in the village of  
14 Campton Hills.

15 MR. PALACIOS: Yes. Yes, correct.

16 CHAIRMAN WHITE: Okay. Go ahead.

17 MR. PALACIOS: I come as a resident of the  
18 area, Campton Hills individually. Before I already  
19 disclosed but I already got more than 20 years of  
20 experience in substance abuse field, mental illness,  
21 especially substance abuse is my expertise. And I  
22 did an independent study in 1995 in Peru, South  
23 America, for Adler University regarding treatment  
24 facilities, inpatient treatment facilities, and,

1 also, I do work in forensic program in the last  
2 10 years. And with that being said, my comment is --  
3 or my statement is going to be the following:

4 What I did hear several times here regarding  
5 admission, the proposed facility was telling us, the  
6 residents, also, that they are going to admit only  
7 substance abuse patients or not mentally ill with  
8 other problems.

9 But then when I was seeing -- hearing the  
10 the witness articulating how well is going to be the  
11 screening process. But according to my experience,  
12 over 60 percent -- in my experience, it's not  
13 research -- in the last 20 years is substance abuse  
14 patients, like more than 60 percent, they do have  
15 personality -- distortion personality disorder,  
16 narcissistic personality disorder, and other mental  
17 illness.

18 And then, it's difficult to screen, to come  
19 and say, okay, this is going to be substance abuse  
20 patients only. It's kind of they need to articulate  
21 further how it's going to be dealt with for a dual  
22 diagnosis, mentally ill substance abuse or mentally  
23 ill and personality disorders.

24 And then, after that, when they're going to

1 be discharged, people didn't establish any experience  
2 if they did a follow-up after they are going to be  
3 discharged. Like there are some studies they found,  
4 but I'm not going to call them one. My experience  
5 is when you do follow-up in three months, six months,  
6 one year, and they will need to say that if this  
7 is -- if they are going to rule out -- most of the  
8 time they committed a violation or a crime, and then  
9 the proposed facility was not able to articulate  
10 that for the public like me as a resident, and I do  
11 know the field regarding how it's going to be done.

12 When they were talking about policies and  
13 procedures, they didn't have a policy and procedure.  
14 If this company or proposed is like very -- like  
15 knowledgeable or got many people with the same  
16 knowledge and experience, then they needed to  
17 prepare policy and procedure ahead of time. They're  
18 not going to wait at the last minute and going to  
19 present 2060 policies and procedures like at the end.

20 They were presenting only just staffing  
21 ratio, but they didn't articulate further if they  
22 finish the policy and procedure. They said they  
23 don't have a policy and procedure. My question as a  
24 resident, if they are going to be a high-end facility,

1 they needed to be prepared in that. It raises more  
2 questions than answers.

3 Therefore, as a resident, I wouldn't agree  
4 with that because if they failed to articulate  
5 further, it leaves doubts of the residents like me  
6 and others.

7 CHAIRMAN WHITE: Okay. Thank you.

8 Anyone else wishing the podium? I would  
9 also ask when you do come forward --

10 MR. BROWN: Could I just ask that witness  
11 two questions, if you don't mind?

12 CHAIRMAN WHITE: Would you like to come back  
13 to the podium, sir.

14 MR. BROWN: Have you ever been involved in  
15 any licensing procedures for the State of Illinois?

16 MR. PALACIOS: Yes.

17 MR. BROWN: And how were you involved?

18 MR. PALACIOS: I did develop a 2060 for a  
19 company.

20 MR. BROWN: And what was the name of the  
21 company?

22 MR. PALACIOS: Should I say the name of the  
23 company?

24 MR. BROWN: Actually, if you're saying that

1 you've done this, I just want to make sure that  
2 you've done it. So what was the name of the company  
3 that you worked for that you were involved in this  
4 licensing procedure? And, also, did you sign the  
5 application?

6 MR. PALACIOS: Renacer Latino, Inc., in  
7 Lake County.

8 MR. BROWN: What year did you do that?

9 MR. PALACIOS: If I recall, I think it was  
10 2000-something.

11 MR. BROWN: 2,000-something? You don't  
12 remember the exact date?

13 MR. PALACIOS: No, I don't.

14 MR. BROWN: In what capacity did you work  
15 for that company? I only ask you this because  
16 you've been giving expert opinions.

17 MR. PALACIOS: I was the director of a small  
18 company.

19 MR. BROWN: So you were the director of a  
20 company that you don't remember the date. And what  
21 was the address of that company?

22 MR. PALACIOS: I don't remember. It is in  
23 Waukegan but I don't know the exact address.

24 MR. BROWN: And could you tell me the exact

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

779

1 name again? I didn't quite catch it. Could you say  
2 it slowly?

3 MR. PALACIOS: Renacer Latino, Inc.

4 MR. BROWN: Latino, Inc.?

5 MR. PALACIOS: Yes, Renacer.

6 MR. BROWN: And how many people were in that  
7 facility?

8 MR. PALACIOS: When we founded it, it was  
9 three people.

10 MR. BROWN: And did you ever lose your  
11 license for any reason?

12 MR. PALACIOS: Never.

13 MR. BROWN: And is that facility still in  
14 operation?

15 MR. PALACIOS: Yes.

16 MR. BROWN: And do you have any affiliation  
17 with that facility?

18 MR. PALACIOS: Not anymore.

19 MR. BROWN: So are you saying that you had  
20 three employees or that you had three people that  
21 you were treating?

22 MR. PALACIOS: No, three employees.

23 MR. BROWN: And was it an inpatient facility?

24 MR. PALACIOS: Outpatient facility.

1 MR. BROWN: It was an outpatient facility.  
2 Also, you did testify about the violations and you  
3 said the importance of follow-up. Do you recognize  
4 the fact that the follow-up that you're talking  
5 about that this is not an outpatient facility just  
6 like the one that you were operating? You recognize  
7 that; correct?

8 MR. PALACIOS: Yes, I do.

9 MR. BROWN: And the follow-up is that people  
10 will not be coming back to this facility for outside  
11 of the fact I guess there's a potential for people --  
12 we know with these type of problems sometimes there  
13 may be a relapse, but if they relapse they'll be  
14 coming back inpatient, not like the facility that  
15 you were involved in; is that true? The facility  
16 that you can't even remember the date that you were  
17 working there. Is that true, sir?

18 MR. PALACIOS: Which one?

19 MR. BROWN: Is it true that these people --  
20 it's not an outpatient facility, so there's not  
21 going to be a need for follow-up such as the  
22 facility that you were involved in, sir. It's not  
23 the same type of facility; is that true?

24 MR. SHEPRO: Excuse me, Mr. Chairman.

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

781

1 MR. KINNALLY: Excuse me. Can we have one  
2 question at a time?

3 MR. SHEPRO: This is not a question. This  
4 is an objection. This is not a witness represented  
5 by counsel. He's not an attorney. He has a right  
6 to be cross-examined, yes. I don't think the tone  
7 and the way he is being treated by counsel is at all  
8 appropriate, and if nobody else is going to raise  
9 that, I will.

10 (Applause.)

11 CHAIRMAN WHITE: Mr. Kinnally.

12 MR. KINNALLY: The point being here is that  
13 the cross-examination is somewhat contentious. If  
14 he could just ask one question. The man has come up  
15 and given testimony, and one question at a time  
16 would be the way this should be done, in my opinion,  
17 Mr. Chairman.

18 CHAIRMAN WHITE: I agree, Mr. Brown.

19 MR. BROWN: I'll ask one question at a  
20 time -- actually, I've gotten enough answers.

21 Thank you.

22 MR. PALACIOS: I would like to make a final  
23 comment.

24 CHAIRMAN WHITE: You may.

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

782

1 MR. PALACIOS: Just for the knowledge of  
2 everybody, I do have experience in these patients,  
3 also, but I'm not going to continue further.

4 Thank you.

5 CHAIRMAN WHITE: Thank you.

6 (Applause.)

7 CHAIRMAN WHITE: Sir, come forward.

8 MR. TYRRELL: My name again is Mike Tyrrell.

9 CHAIRMAN WHITE: And your address, Mike?

10 MR. TYRRELL: 5N042 Forest Trails,  
11 Campton Hills.

12 CHAIRMAN WHITE: And approximately how close  
13 to this facility are you living?

14 MR. TYRRELL: Probably about 3 miles.

15 CHAIRMAN WHITE: Thank you. And are you in  
16 favor of or opposed to the petition?

17 MR. TYRRELL: I'm opposed to the petition.

18 CHAIRMAN WHITE: Thank you.

19 (Member Moga left the proceedings.)

20 MR. TYRRELL: I do have a request. One of  
21 the key foundations of this hearing falls on the  
22 topic of similarity to hospitals and nursing homes,  
23 and one of the key individuals who has offered an  
24 opinion, who I guess was supposed to appear for

1 either last session or this session are not here is  
2 Mr. Moore [sic], and I would like the opportunity to  
3 cross-examine him.

4 MR. BROWN: I'm sorry. Mr. Moore?

5 CHAIRMAN WHITE: I don't recall the witness.

6 MR. CARRARA: I believe he's referring to  
7 the Murer consultant.

8 MR. TYRRELL: I'm sorry for the  
9 mispronunciation.

10 Anyway, the relevance and key component is  
11 the similarity of a hospital to this facility, and I  
12 do have several questions. I'd like to have that  
13 opportunity. If it's possible at the next session  
14 Mr. Murer could be here, I would greatly appreciate  
15 it. I make that request.

16 CHAIRMAN WHITE: I'm not going to say one  
17 way or another that he will be present or not. You  
18 are aware that there was an appeal of the process  
19 that the County filed in going forward with this  
20 petition?

21 MR. TYRRELL: If you would enlighten me.

22 CHAIRMAN WHITE: I don't want to get into a  
23 lot of details, but we have discussed the similarity  
24 issue at an appeal hearing and the Board had made a

1 ruling on that.

2 MR. TYRRELL: Correct. Okay. I understand  
3 that. But regarding the issue with the hospital, it  
4 was understood that he would be a witness. I would  
5 like that opportunity to cross-examine or present  
6 some questions. Thank you.

7 MR. KINNALLY: Mr. Chairman, if they don't  
8 want to bring him in here, then whatever his report  
9 is, as I indicated before, is in the record, and you  
10 give it whatever weight, if any, or how much,  
11 whatever you want to do, it's up to the Zoning  
12 Board. So we can't -- if they don't want to bring  
13 him in here to testify, that's their choice.

14 CHAIRMAN WHITE: Mr. Tyrrell, you are  
15 referring to documents that the Board has received  
16 in the petitioner's packet if I understand you  
17 correctly.

18 MR. TYRRELL: Correct. But I do have  
19 questions of him.

20 CHAIRMAN WHITE: And I'll just reiterate  
21 what Mr. Kinnally has said, that we have to take  
22 everything with a grain of salt. So.

23 MR. CARRARA: Mr. Chairman, a point of  
24 clarification. Are you saying the ZBA has ruled on

1 the similarity of this application to a hospital?

2 CHAIRMAN WHITE: It was a topic that the  
3 Board has been aware of.

4 MR. CARRARA: Right. That's a completely  
5 unrelated incident where no evidence or testimony  
6 was brought as to the similarity of a hospital.  
7 That was specifically on the zoning -- or the  
8 application of Section 5.15 to the process.

9 CHAIRMAN WHITE: That's true but it was  
10 based on the paragraph dd that speaks towards the  
11 similarity.

12 MS. GAEKE: Mr. Chairman, I believe the  
13 appeal related to the procedure that was used and  
14 the methods for clarifying the process not  
15 necessarily whether or not --

16 MR. KOLB: We would like to hear -- sorry --  
17 we would like to hear the questions that the  
18 gentleman has, and then we reserve the right to call  
19 him as a rebuttal witness if the questions raise an  
20 issue that we think should be addressed, cross  
21 issues. We'd like to hear what he has as far as  
22 questions.

23 CHAIRMAN WHITE: If you have questions, you  
24 can present them to the petitioner, and we can go

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

786

1 forward from there, Mr. Tyrrell, if you'd like to  
2 come back up and pose your questions.

3 MR. TYRRELL: If I can, I'll pose those at  
4 the next session.

5 MR. KOLB: We just want the record to reflect  
6 that he was given the opportunity to ask questions.

7 MR. CARRARA: But not of the actual witness,  
8 just posing hypothetical questions.

9 CHAIRMAN WHITE: Questions of the petitioner.  
10 Mr. Tyrrell.

11 MR. TYRRELL: If I may say, the questions  
12 would be ongoing based on the responses given.

13 CHAIRMAN WHITE: Yes. I understand.

14 MR. TYRRELL: Okay.

15 CHAIRMAN WHITE: Mr. VanKerkhoff.

16 MR. VAN KERKHOFF: Mr. Chairman, just for  
17 clarification for the public who has been very  
18 patient waiting to get to this part of the hearings,  
19 at this part they can most certainly come up and  
20 make statements, propose evidence that refute things  
21 in the petition, and make comments regarding their  
22 opinions on the petition and its impacts.

23 So we've gone through a lot of process which  
24 isn't normally the part of our zoning petitions and

1 calling of expert witnesses and cross-examinations  
2 where the public was limited to questioning specific  
3 people.

4 So I just want to make sure that the public  
5 isn't under the impression that the only way they  
6 can get their opinions across now is to question  
7 people, but this is their time to make comments  
8 about how they feel, what they think, and what they  
9 may know about the petition.

10 So thank you, Mr. Chairman.

11 CHAIRMAN WHITE: Yes. I hope you all  
12 understood that. You're welcome to come to the  
13 podium and present your testimony wherever that goes.

14 Anyone else seeking the podium at this time?

15 MR. CARRARA: Mr. Chairman, also, can we make  
16 a note of the record? I had 10:09 when Mr. Moga  
17 left this hearing this evening.

18 CHAIRMAN WHITE: That's fine. Have the  
19 secretary record that, please.

20 I see someone approaching the podium.  
21 Please come forward.

22 I will say with Mr. Moga, he has medical  
23 issues is why he does not like to stay out as late  
24 as some of us other Board members do just for your

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

788

1 reference.

2 Please raise your hand so I can swear you in.

3 (Witness sworn.)

4 CHAIRMAN WHITE: Thank you. And then please  
5 state your name and address for the record.

6 MS. HAYES: My name is Claudia Hayes,  
7 7N410 Fox Bend Drive.

8 CHAIRMAN WHITE: Approximately how close to  
9 this facility are you located?

10 MR. BROWN: Oh, probably a block and a half.

11 CHAIRMAN WHITE: Do you oppose?

12 MS. HAYES: I absolutely oppose. I have  
13 four grandchildren that live there. My question is --  
14 well, my concern would be, you know, everybody is  
15 saying everything about the inpatient.

16 First of all, we've an opportunity and  
17 experience in drug rehabs, out of and inside patient  
18 where there has been more contact with drug dealers  
19 and drug paraphernalia that you have ever seen in  
20 your life, number one.

21 Number two, how do you control the visitors?  
22 How do you control what they do, the traffic, what  
23 they're bringing in? There's not an amount of  
24 guards that you're going to get that are not going

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

789

1 to be watching out for every single one of these  
2 patients.

3 And that would be my biggest concern for my  
4 grandchildren and for all the families that live  
5 there. That's all I have to say. Something to  
6 consider I think.

7 CHAIRMAN WHITE: Thank you.

8 MS. HAYES: You're welcome.

9 CHAIRMAN WHITE: Next person.

10 (Applause.)

11 CHAIRMAN WHITE: I'll ask you to hold your  
12 applause. Otherwise, I'll empty the room and bring  
13 you in one at a time.

14 MR. TRIMBLE: My name is Owen Trimble,  
15 8N660 Crawford Road.

16 CHAIRMAN WHITE: And I'll need to swear you  
17 in, sir.

18 (Witness sworn.)

19 CHAIRMAN WHITE: Thank you.

20 MR. TRIMBLE: Well, part of it is -- end  
21 result is if the State is called or if people come  
22 in from the State to have an issue with any one of  
23 the patients or something like that, well, if it's  
24 for the patient's safety, welfare, and the public's,

1 this state is so dysfunctional it could not operate  
2 a wheelbarrow, much less maintain them.

3 And with a lot of privately owned health  
4 care issues -- there's newspaper reports that  
5 Lutheran Aid is shutting down a lot of its programs,  
6 hundreds of millions of dollars are being lost, and  
7 jobs, multiple agencies that are shutting down  
8 because the State cannot pay for it.

9 Who pays for the State that comes in and  
10 monitors the situation? The young ladies that were  
11 here last week -- and they were great, but it looks  
12 like it was off the books. It was by charter of the  
13 guidelines.

14 One lady mentioned that she actually  
15 witnessed the State coming in in the middle of the  
16 night. I rather doubt it. And they sure will not  
17 show up if there's any issues.

18 This state is so screwed up, it couldn't  
19 operate, like I said.

20 Thank you.

21 CHAIRMAN WHITE: Thank you.

22 Next person, please come forward. Please  
23 raise your right hand.

24 (Witness sworn.)

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

791

1 CHAIRMAN WHITE: Please state your name and  
2 address for the record.

3 MR. FREDA: My name is Tom Freda. I live at  
4 41W670 Barberry Lane in Campton Hills. It's  
5 approximately less than half a mile away.

6 CHAIRMAN WHITE: Thank you. And are you in  
7 favor of or opposed to this petition?

8 MR. FREDA: I'm oppose to it.

9 CHAIRMAN WHITE: Thank you.

10 MR. FREDA: I have a question for the Board.  
11 I've been sitting here for five meetings now and  
12 kind of observing everything. My question as a  
13 citizen to the Kane County Board is every time  
14 Campton Hills brings up some evidence regarding  
15 Kiva, a past experience we've had, you reject it.  
16 When Mr. Brown brings up his Kiva evidence, you  
17 accept it. Why is that?

18 CHAIRMAN WHITE: I'm not sure that I  
19 accepted any evidence on the Kiva petition from  
20 Mr. Brown or from the petitioner.

21 MR. FREDA: I think you have. Because when  
22 he brings up past reports regarding Kiva, it seems  
23 like you guys take all the information and accept it  
24 in the testimony, but when the public presents an

1 old Kiva 2012 testimony, you just "I don't want to  
2 hear it. I reject it."

3 MR. BROWN: Can I just address one thing?

4 We did not bring the Planning Commission's  
5 recommendation as to the Kiva project for one. And  
6 number two, many of my objections was just that it  
7 was in my case in chief and also just not having a  
8 chance to review it.

9 So I guess those were the bases of the  
10 objections. It wasn't that at some later point that  
11 they couldn't have brought these things in.

12 MR. FREDA: I have a couple issues. I've  
13 lived in my house for 23 years. I'm not a lawyer  
14 and I don't want to start a fight but you --  
15 Mr. Brown made a statement that he has two houses  
16 and lives close by -- or two drug rehabilitation  
17 facilities are close by. If I bought my house  
18 23 years ago and there was a drug rehabilitation  
19 facility there, I wouldn't balk.

20 Number two, I don't care if you call it new  
21 math or not, it's my belief that property values  
22 will go down.

23 Along Silver Glen Road there was a traffic  
24 analysis saying that in the last five years traffic

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

793

1 has actually decreased at the present date compared  
2 to the previous five years. I don't agree with that  
3 at all.

4 I don't think the traffic analysis was  
5 accurate because they only thought about the amount  
6 of employees leaving and coming to work, not the  
7 amount of visitors that are also going to be coming  
8 back and forth.

9 I'm sorry I'm not a very good public  
10 speaker --

11 CHAIRMAN WHITE: You're doing fine.

12 MR. FREDA: -- but those are my views.  
13 Thank you.

14 CHAIRMAN WHITE: Thank you.

15 Next person, please raise your right hand  
16 and be sworn.

17 (Witness sworn.)

18 CHAIRMAN WHITE: Please state your name and  
19 address for the record, please.

20 MR. PARASKEVAS: Constancinos Paraskevas,  
21 6N850 Palomino Drive in Campton. It's about a half  
22 a mile away.

23 CHAIRMAN WHITE: Thank you.

24 MR. PARASKEVAS: Actually, what I would like

1 to present -- there's another resident in Campton  
2 Hills whose wife is ill and he couldn't be present,  
3 so I was just wondering if you could allow me to  
4 read it to you.

5 CHAIRMAN WHITE: That's fine. How long is it?

6 MR. PARASKEVAS: It's one page.

7 CHAIRMAN WHITE: That's fine.

8 MR. PARASKEVAS: "To Whom It May Concern:  
9 I'm writing this letter to voice my concerns about  
10 the current application that the former Glenwood  
11 School on Silver Glen is being made into a drug and  
12 alcohol rehabilitation facility.

13 "My family has lived here since 1977. My  
14 wife and I have raised five children here. We now  
15 have 17 grandchildren and great-grandchildren in the  
16 area. We host our family at our home on many  
17 occasions.

18 "Through all the years we have loved the  
19 community and have looked forward to our grandchildren  
20 and great-grandchildren growing up here and loving  
21 the community the same as us.

22 "We are concerned about this rehab center  
23 and how safe the community will be for our family.  
24 The residents have already rejected a previous

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

795

1 proposal, and we now wonder why this is up for  
2 reconsideration." I assume that he's talking about  
3 Kiva.

4 "We'd like to know if any benefit of this  
5 facility will be for the community. We find it  
6 difficult to see any upside.

7 "Our concerns are the safety our families  
8 and the community and how this could devalue our  
9 properties, not to mention the cost of additional  
10 police and firefighters to keep our residents safe.

11 "These are just a few concerns of ours.  
12 Thank you for your time, Robert Marlewski, resident  
13 of Campton Township."

14 CHAIRMAN WHITE: Could you spell that,  
15 please, and does he have his address on that letter?

16 MR. PARASKEVAS: Yes, he does. His last  
17 name is M-a-r-l-e-w-s-k-i, and residence is  
18 6N085 Sunset Drive in Campton.

19 CHAIRMAN WHITE: Thank you.

20 MR. PARASKEVAS: Just one more comment.

21 CHAIRMAN WHITE: Go ahead.

22 MR. PARASKEVAS: While we were talking about  
23 the sheriff's police, there was a comment by Mr. Brown  
24 saying that it is the sheriff's responsibility to

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

796

1 respond first.

2 Unless anything has changed in the past  
3 two years, I know that Kane County is supposed to be  
4 operating at 85 sworn officers, and as I checked  
5 last, they were operating at 80. So something for  
6 consideration. And I would also like to add that I  
7 have gone on a ride-along with one of the officers  
8 there, and I would like to comment on how busy it  
9 was that night.

10 CHAIRMAN WHITE: Next person. I've got  
11 about 10:30, so we'll go a little bit longer, but we  
12 need to come to a conclusion here. And we will have  
13 another meeting this coming Thursday at 7:00, same  
14 location.

15 Please raise your right hand to be sworn.

16 (Witness sworn.)

17 CHAIRMAN WHITE: Please state your name and  
18 address for the record.

19 MR. BENNETT: Robert Bennett. My address is  
20 41W493 Silver Glen in Campton Hills.

21 CHAIRMAN WHITE: And approximately how close  
22 to the facility.

23 MR. BENNETT: My proximity is from the  
24 entrance -- or from the address is about .093 miles,

1 a tenth of a mile.

2 Okay. Several concerns. I've been a  
3 resident of Campton Hills since 1974. You can  
4 equate and do your arithmetic but it's a long time.

5 We've been through a lot of battles, whether  
6 it was municipal battles, zoning battles, the  
7 Federal government against us, if any of you  
8 remember that, and somehow we've survived and we've  
9 developed character.

10 One of the things that I've noticed lately,  
11 however, is the factor that not many people in the  
12 legal system or in the governmental system give the  
13 residents any credibility and almost deal with us  
14 contemptuously. Okay?

15 Now, I know what arrogance is. I'm old enough  
16 to know what a lot of things are, and I don't accept  
17 governmental arrogance, legal arrogance, whatever  
18 you want to call it. I'm really reticent -- I'm  
19 obviously not a real good public speaker, either.  
20 But I'd just like to -- I know there's a lot of  
21 people that have been here for five meetings.  
22 Frankly, I thought I was done with a lot of this  
23 challenge, let's put it that way, and I guess we  
24 never will be.

1           But I'm concerned about safety, number one.  
2           The fact that Silver Glen Road -- I can't believe  
3           that the traffic has gone down, either. The safety  
4           at Silver Glen -- if you notice, the facility is  
5           located on a curve. Well, I've had two people  
6           literally pass away in front of me in inverted cars  
7           that during the wintertime have crashed in my  
8           driveway. Nobody brings up the fact that there's  
9           been a person who was killed right at the entrance  
10          to the facility. You know, so there's a lot of  
11          safety involved.

12          There's a situation where Silver Glen Road  
13          for many of us that live out there is not very well  
14          maintained -- I won't say well maintained, but it is  
15          a devil when weather is bad or icy because of the  
16          nature of the road.

17          I'm concerned about property values. I'm  
18          71 years old. I've set a goal of selling my house  
19          when I'm 75. Now, the impact they say will be because  
20          of the fear factor, and then it will gradually  
21          diminish. Can anybody tell me if in four years I'm  
22          going to be able to sell my house for the same  
23          amount that I do now or that I can now? I sincerely  
24          doubt that if the facility comes in.

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

799

1 I've taken too much of your time. I really  
2 hope that you consider all of these people here and  
3 their concerns, their -- I don't know -- nervousness,  
4 if you want to call it that.

5 And I'd love to have guarantees, you know,  
6 that say the ambulance calls would be paid for. So,  
7 you know, the police calls would be able to get  
8 \$10,000 a call or something like that. Just like a  
9 security call. Hey, if I had a security system that  
10 goes off all the time and the police have to come  
11 out and service my security system, guess what, they  
12 charge me. Why can't Campton Hills do that?  
13 \$10,000 a call. I can guarantee you that there  
14 wouldn't be many calls or demand for service. No, I  
15 am serious. I am serious, folks.

16 How well has this been thought out? I don't  
17 think very well.

18 I'm sorry. I've taken enough of your time.  
19 Thank you for hearing me.

20 CHAIRMAN WHITE: Thank you.

21 Next person, please come forward.

22 (Witness sworn.)

23 CHAIRMAN WHITE: Please state your name and  
24 address for the record.

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

800

1 MR. JAROS: My name is Ryan Jaros,  
2 41W608 Foxtail Circle, Campton Hills. It's about  
3 one quarter mile due south of the complex.

4 Forgive me; I'm not an eloquent public  
5 speaker, either. So bear with me.

6 Let's not ignore the fact that despite all  
7 of the downplay of crime-like behavior, and  
8 attitude, and choices, what landed these patients in  
9 the facility in the first place is just that, a  
10 crime. They procured and used illicit substances.  
11 A crime has been committed.

12 You can what-if the whole thing to death.  
13 Speculation here, speculation there, I understand  
14 that, but once one crime has been committed, who is  
15 to say another, and a third, and a fourth, and  
16 beyond. Please consider that.

17 Secondly, Mr. Marco, I feel for you. I see  
18 your vision. I think we all have family members that  
19 are affected by this. I am not callus. I am not  
20 hardhearted. I have an aunt in Des Plaines who  
21 suffers from over-the-counter meds; my sister-in-law  
22 out in southern Massachusetts, heavy-hitter drugs.  
23 They would benefit by a facility like this, absolutely.  
24 But I'm sorry, Mr. Brown, "Not in My Back Yard,"

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

801

1 there's truth to that.

2 Mr. Marco, I believe you have ties to south  
3 Florida. I moved out of there three years ago for  
4 some of these very same reasons. Miami Dade,  
5 Broward, Palm Beach counties are not Kane County.  
6 There's a lot of evil stuff that happens down there.  
7 Yes, evil is all over the world but amplified to a  
8 degree down there. And I said "Enough." No place  
9 to raise a family; no place to be around if you want  
10 to live more in a wholesome environment.

11 Specifically why I chose rural Chicagoland  
12 area. I grew up in Downers Grove. I could have  
13 lived closer to the city, downtown even. But no, we  
14 moved out here for a reason. Specifically moved in  
15 early 2013. When we were looking late 2012 for  
16 houses, Kiva in the process. We paid close  
17 attention to that.

18 Again, the unmeasured stigma of that, I  
19 think that speaks volumes. I think because had that  
20 not been shut down, we would not have bought the  
21 house. But thankfully for us and many of the  
22 residents that I hopefully speak for it was thwarted  
23 and we went ahead and moved in.

24 Whether you've been there 30-some years or

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

802

1 three years like myself, we all have the same rural  
2 northern Illinois mindset. We just want safety for  
3 our families.

4 Thank you for your time.

5 CHAIRMAN WHITE: Thank you.

6 (Applause.)

7 CHAIRMAN WHITE: I'll take another person.  
8 Please come forward.

9 And we're about quarter to, so this will  
10 probably be the last one for this evening.

11 (Witness sworn.)

12 CHAIRMAN WHITE: Please state your name and  
13 address for the record.

14 MS. FREDA: Ellen Freda, 41W670 Barberry  
15 Lane, Campton Hills.

16 I've been here for five nights. I sat  
17 through all of Kiva. I'm very involved. But I have  
18 a couple of things that I have observed sitting back  
19 here that I feel weren't able to be spoken to. It's  
20 obviously just my opinion but things that I saw and  
21 observed.

22 One was there's a facility in Park Ridge  
23 that when had been cross-examined it turned out that  
24 it had -- the beautiful city, Village of Park Ridge

1 had actually gone -- and I don't know if they bought  
2 the property or whatever, but they turned it into a  
3 beautiful park. That speaks volumes to me that a  
4 city like Park Ridge, which I'm sure has an awful  
5 lot of problems with drug abuse, chose to turn it  
6 into a park. I don't know the reasons behind it.  
7 That just spoke to my heart, though. I wish we were  
8 voting on that right now.

9 I also happen to know -- and this may sound  
10 funny to some of you. I'm just a stay-at-home mom.  
11 I watch TV. I'm not an interventionist but what I  
12 see on TV through shows like Intervention and, don't  
13 laugh, Dr. Phil where these people are brought, and  
14 there's family interventions or interventions with a  
15 psychologist where these people have -- as the last  
16 person that spoke -- have committed crimes. And the  
17 interventionist or the psychologist tells them, "You  
18 have a choice here. We have this beautiful place  
19 for you to go, and if you would like to go, there's  
20 someone waiting for you right now, and we'll take  
21 you away for a 90-day inpatient program, or we'll  
22 call the police right now and we'll have you  
23 arrested."

24 They're not court mandated; they're not put

1 under the thumb of you have to go. They're given  
2 the option but they're given the option that they  
3 are going to go to court.

4 So that -- saying that there's no court-  
5 mandated people that are going to go there is kind  
6 of disingenuous to me because I know that there's  
7 people that's presented to them an as option,  
8 "Either you're going to be arrested or you're going  
9 to go to rehab."

10 Also, just to reiterate, a high-end  
11 community, a high-end facility is not going to help  
12 the nice people sitting here or their children or  
13 their spouses. We can't afford to go to this place.  
14 We're not high-end people. We're good people that  
15 bought nice homes, and keep them nicely, and keep  
16 the nature of our community very nice.

17 But they are going to bring people in from  
18 other parts of the country. Who is to say that a  
19 Lindsay Lohan isn't flown in here, or a Charlie Sheen,  
20 or say a Kennedy kid we all know have had problems  
21 with substance abuse, and what's going to stop the  
22 paparazzi from coming in? We've all seen paparazzi,  
23 what it does to people. What's going to stop them  
24 from coming into our forest preserve where we've got

1 kids bicycling, families, whatever, or onto people's  
2 property that abuts right up to this? What's going  
3 to stop that?

4 I don't think anything is, and if it happens  
5 to one family and scares one child, one grandparent,  
6 one babysitter that's watching, that's one too many  
7 incidents as far as I'm concerned. I won't even go  
8 into the fact that we've talked about drugs possibly  
9 coming in or whatever. If that happens one time,  
10 that's one time too many, also.

11 I don't know if you know -- and I don't have  
12 it here. I gave it to Mr. Miller last week; I think  
13 it was Thursday. It was kind of a coincidence but  
14 in the Chronicle there was an article where Campton  
15 Hills -- there was some sort of study done, and  
16 Campton Hills, my village was voted the best place  
17 to live on crime per capita statistics in the state  
18 of Illinois. The closest one to that was Geneva and  
19 they were ranked 16.

20 I have a feeling if you pluck one of these  
21 places out of say -- I heard Philadelphia, I heard  
22 some statistics brought up about a place in  
23 New Jersey, Palm Beach, or whatever it is. I have a  
24 feeling if you pluck them out of an area and put

1       them into a quiet little sleepy town where you roll  
2       up the sidewalks -- if we had them because we don't  
3       even have streetlights -- I have a feeling that the  
4       crime ratio or whatever you want to call it that was  
5       testified to would dramatically increase because we  
6       don't have any crime now.

7                If you put it against a place in  
8       Philadelphia where maybe there's bars and there's  
9       tattoo parlors and I heard sexual establishments --  
10       I don't know what that means; I can only imagine --  
11       and you base the crime in that area and then you put  
12       it out -- you pluck that place and put it out in my  
13       back yard, I have a feeling you're going to see a  
14       great dramatic increase in crime as to where it  
15       stands today.

16               I thank you for your time, and I really hope  
17       that you will listen to the good people that are  
18       sitting behind me and those who have been here and  
19       are no longer coming because they kind of feel that  
20       possibly a decision has already been made. From  
21       some of the demeanor that we've seen here, it seems  
22       like big money pays off.

23               I hope you will listen to us and our  
24       heartfelt pleas to you to not consider this, to

Public Hearing Petition No. 4364, Volume 5  
Conducted on January 26, 2016

807

1 please vote it down -- I'm not sure what the wording  
2 is, but I hope that you will listen to us.

3 Thank you for your time.

4 CHAIRMAN WHITE: Thank you.

5 (Applause.)

6 CHAIRMAN WHITE: And with that I think we'll  
7 put an end to this evening's meeting. So I'll ask  
8 for a motion to continue this to Thursday at 7:00 p.m.

9 MEMBER BOWEN: So moved, Mr. Chairman.

10 MEMBER CAMERON: Second.

11 CHAIRMAN WHITE: Moved by Mr. Bowen,  
12 seconded by Ms. Cameron. All those in favor say aye.

13 (Ayes heard.)

14 CHAIRMAN WHITE: Opposed, same sign.

15 (No response.)

16 CHAIRMAN WHITE: Motion carries.

17 (Off the record at 10:47 p.m.)

CERTIFICATE OF SHORTHAND REPORTER

I, Paula M. Quetsch, Certified Shorthand Reporter No. 084-003733, CSR, and a Notary Public in and for the County of Kane, State of Illinois, the officer before whom the foregoing proceedings were taken, do certify that the foregoing transcript is a true and correct record of the proceedings, that said proceedings were taken by me stenographically and thereafter reduced to typewriting under my supervision, and that I am neither counsel for, related to, nor employed by any of the parties to this case and have no interest, financial or otherwise, in its outcome.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my notarial seal this 2nd day of February, 2016.

My commission expires: October 16, 2017
